

## School Education Programs

Free Programs for Grades 3-12

West Basin is proud to offer a variety of free water education programs that stimulate curiosity and encourage learning inside and outside of the classroom. All activities support the Next Generation Science Standards.

### Water Recycling Facility Field Trips

Students visit the Edward C. Little Water Recycling Facility in El Segundo where they learn about West Basin's water recycling process. Free bus transportation is provided.

### Art Contest

The "Being Water Wise Is..." student art contest helps foster awareness of water conservation. Students are challenged to create artwork promoting water efficient practices and encouraging communities to protect our limited water resources.

### Water Saver Assembly Program

Classes will participate in a fun-filled school assembly exploring watersheds and will be empowered with practical water conservation methods.

### Teach and Test Program

Students will volunteer to monitor the water quality in the Santa Monica Bay by collecting and processing water samples.

### Water Industry Careers

Explore the fulfilling and diverse careers in the water industry through career-themed tours, classroom presentations, pre-recorded videos and more.

## Water Saving Programs

West Basin works with its local cities, water retailers and organizations to offer a variety of water saving programs that help residents and businesses save water and money.

### Grass Replacement

Resources and classes are available to residents and businesses interested in replacing their grass with a beautiful drought-tolerant landscape.

### Free Rain Barrels

West Basin distribution events take place in the fall/winter and provide residents with up to two (2) free rain barrels to capture and reuse stormwater. Residents can also qualify for SoCalWaterSmart's \$35 Rain Barrel Rebate.

### Firescaping Workshops

Learn how to use landscaping techniques and native plants to protect your home from wildfires. These practices, along with smart irrigation systems can help safeguard your home, use less water and save money on your water bill.

### Water-Saving Device Rebates

West Basin supports rebates through its partnership with Metropolitan Water District to provide a variety of indoor and outdoor water saving devices.

## Free Education Programs

2026 SCHEDULE

Free, informative resources  
for our community

## Know Your H<sub>2</sub>O Class

Do you know your H<sub>2</sub>O? Take an in-depth look at where your water comes from and discover the water issues that directly affect your neighborhood. Each class is conducted by a guest water industry expert who will highlight different water issues and provide you with resources and tools to save water in your community. Dinner is provided while supplies last.

Schedule subject to change

**Wednesday, March 25**

6:00 - 8:00PM

### Water Quality & Monitoring

Learn about the fascinating world of water chemistry through the exploration of the different techniques used to treat and monitor the quality of drinking water.

**Wednesday, July 8**

6:00 - 8:00PM

### The Politics of Flowing Water

Discover the water story from mountain top to faucet as you delve into local and regional water sources, water rights and permitting, water prices and allocation.

**Wednesday, September 9**

6:00 - 8:00PM

### Emerging Water Saving Technologies

Witness the demonstration of innovative indoor and outdoor devices that can help save our limited water supplies and save you money.

In addition, West Basin offers landscape design, grass removal and California friendly plant classes with partner organizations.

## Recycled Water Facility Tours

Tours of the Edward C. Little Water Recycling Facility are an opportunity to see the inner-workings of a water treatment facility firsthand. Guests will learn about the five types of recycled water produced by West Basin.

### Tour Dates

10:00AM - 12:00PM

- Saturday, February 21
- Saturday, April 11
- Saturday, June 6
- Saturday, August 8

All tour participants must be at least 7 years old and wear closed-toe shoes.

### About the Facility

In 1995, the Edward C. Little Water Recycling Facility introduced a new water supply to the 17-city West Basin service area. The District remains an industry leader for its world-renowned water recycling program.

### Location for all in-person classes and tours

Edward C. Little Water Recycling Facility  
1935 S. Hughes Way, El Segundo, CA 90245

Free parking is available in the front lot of the building.

### Reservations

Visit: [WestBasinCA.gov](https://WestBasinCA.gov)

Email: [info@WestBasinCA.gov](mailto:info@WestBasinCA.gov)

Call: (310) 660-6222

## West Basin Chats

Have questions about West Basin money and water saving programs? Get answers from a West Basin representative. West Basin Chats include a brief overview of the program followed by a Q&A session.

### Grass Replacement Rebates

6:00 - 6:30PM (online)

- Wednesday, March 18
- Wednesday, June 17

## Speakers Bureau

West Basin has experts available to speak to community groups, businesses and organizations within the service area who are interested in learning more about water issues.

[WestBasinCA.gov/speakers-bureau](https://WestBasinCA.gov/speakers-bureau)

Reservations are required for all classes, sessions and speaking opportunities.
