An expenditure made at the behest of a candidate, committee, or elected officer is a contribution to the candidate, committee, or elected officer, unless full and adequate consideration is received for making the expenditure.

The term "contribution" further includes any transfer of anything of value received by a committee from another committee.

The term "contribution" does not include amounts received pursuant to an enforceable promise to the extent such amounts have been previously reported as a contribution. However, the fact that such amounts have been received shall be indicated in the appropriate campaign statement.

The term "contribution" does not include volunteer personal services or payments made by any individual for his/her own travel expenses if such payments are made voluntarily without any understanding or agreement that they shall be directly or indirectly repaid to him/her.

A loan or extension of credit shall be considered a contribution from the maker and guarantor of the loan and shall be subject to the contribution limitations of this policy except that such limitations shall not apply to loans or extensions of credit made to the candidate by a commercial lending institution in the lender's regular course of business on terms available to members of the general public for which the candidate is personally liable.

- (ii) "Candidate" - For the purposes of this section, a person shall be considered a "candidate" when the filing of a statement of intention to be a candidate is filed with the Los Angeles

No person shall make a contribution on behalf of another, or while acting as the intermediary or agent of another, without disclosing to the recipient of the contribution both the person's, intermediary's, or agent's own full name and street address, occupation and the name of the person's, intermediary's or agent's employer, if any, or the person's, intermediary's or agent's principal place of business if the person, intermediary, or agent is self-employed; the recipient of the contribution shall also be made aware of the full name and street address and occupation and the name of the employer, if any, or principal place of business, if self-employed, of the actual contributor.
- (3) Assumed Name Contributions. No contribution shall be made, directly or indirectly, by any person or combination of persons acting jointly in a name other than the name by which they are identified for legal purposes, nor in the name of another person or combination of persons. No person shall make a contribution in his/her or its name of anything belonging to another person or received from another person on the condition that it is used as a contribution.
- (4) Political Contributions. No person who has a potential new contract

with the District, either for professional services or for the furnishing of any material, supplies, equipment or real estate to the District shall contribute directly or indirectly to a Director while that matter is pending before the District.

(j) Installation Ceremonies

Installation ceremonies for all newly elected Board members shall take place at a time and location accessible to the public. If more than one director is to be installed, one joint ceremony shall be conducted. Staff will use their best efforts to defray costs by soliciting private contributions to fund these ceremonies.

(k) Review of Contracts. All contracts entered into by the General Manager under his authority pursuant to the Administrative Code shall be submitted to the District Board on a quarterly basis.

(l) Expense Reimbursement. Payment for travel and other expenses shall be allowed when reasonably necessary to represent the interest of the District. Business expenses shall normally be paid as set forth below.

(1) At least annually, the District will continue to publish the individual Director travel expenses whether paid by the District or reimbursed to the Director.

(2) The District will conduct a survey at least every 3 years to assess per diem, allowances, and other expenses from comparable agencies.

Expenditures for lodging, meals, transportation and other activities should provide for a reasonable level of comfort and convenience, but sound judgment shall be exercised to ensure the lowest overall reasonable cost to the District. All travel arrangements, including airfare, lodging, and car rental, should be made through a District employee, with pre-payment, whenever possible, especially for conference fees. District employees will work to ensure that travel is conducted at the lowest reasonably available cost to the District. When reimbursement is permitted, members will be reimbursed only up to the actual and necessary expenses incurred in performance of their official duties.

A Director may request the District to pay for conference registration, commercial transportation (airline, or car rental) and hotel accommodations (room, tax, and hotel parking only). A District Director may incur other incidental costs and may seek reimbursement from the District with appropriate documentation. Incidental costs include business meals, parking, gas charges for car rentals and other allowable business travel expenses.

- (m) Expense Limits. An annual travel budget of \$15,000.00 per director per fiscal year shall be established and shall incorporate conference registration, lodging/overnight travel, business meals, and transportation. This budgeted amount shall not include any expenses incurred for travel to Sacramento, California and Washington, D.C. to meet with District's legislative representatives.

Any amounts spent above the allowable limits for which the Director is seeking reimbursement shall be brought to the full Board for consideration.

- (3) Transportation. Use of air, train, rental car, or private car shall be selected on the basis of the most reasonable and appropriate method, taking into consideration distance, time and total costs to the District. The following types of travel expenditures while on District business are allowable:

- (i) Travel by Private Automobile. The driver must possess a valid California driver's license and carry automobile insurance. Any damage to the vehicle or service repairs are of a personal nature, and will not be reimbursed by the District.

Expenses incurred for use of personal vehicles are covered by the District's car allowance policy as set forth below, in Section 18. All automobile travel within Los Angeles County and within a fifty-mile radius of the District Headquarters is covered by the Director's car allowance policy in Section 18 below. Mileage incurred for travel beyond these limitations is reimbursable at the standard IRS mileage reimbursement rate. Mileage incurred for travel within these limitations is not reimbursable and rental vehicles are prohibited from being used for such travel.

- (ii) Air Travel. Travel shall be in coach class or equivalent service unless the Board determines some physical problem or exceptional circumstance warrants travel in a higher class. Airline baggage fees, excluding excess weight fees, are allowable travel expenditures.

- (iii) Rental Vehicles.
- a. Rental vehicles must be limited to "mid-sized, intermediate, or standard" vehicles. If a District credit card is used to rent such vehicles, Directors shall not purchase additional automobile insurance offered or

- b. Rental vehicles shall only be used when such use is economical. Accordingly, reimbursement for use of a rental vehicle will not exceed the amount payable for mileage reimbursement (at the standard IRS mileage reimbursement rate) to the location of the conference, meeting, or event (“Event Location”). When travel includes air travel, rental vehicles shall not be used if the Event Location is in the same city as the destination airport. If travel to the Event Location includes travel outside of the city where the destination airport is located, use of a rental vehicle is appropriate, subject to the reimbursement limits set forth above in subsection a.
 - (iv) Miscellaneous Travel. Taxi services, parking fees, and toll charges are reimbursable when reasonably necessary to accommodate travel needs.
 - (4) Receipts. All requests for reimbursement must be accompanied by itemized receipts. If itemized receipts are lost or otherwise not available, a Director may request a waiver of this requirement by documenting the amount and purpose of the charge, and submitting the waiver request to the Board for consideration.
 - (5) Conference Registration. Directors shall, whenever possible, register for conferences by using the District’s credit card. Directors must be registered participants at any conference for which a director seeks expense reimbursement or per diem compensation.
 - (6) Authorized Expenses for Metropolitan Representatives. All

transportation costs incurred by the District's Metropolitan Water District of Southern California ("Metropolitan") representatives, for travel done on behalf of Metropolitan, shall be reimbursed by Metropolitan.

The District's Metropolitan representatives, who are not District Directors, are entitled to an automobile allowance from the District or to receive mileage reimbursement from Metropolitan. Before an automobile allowance from the District is paid, the District shall deduct the amount of reimbursement for mileage received from the Metropolitan Water District.

- (7) Incoming Directors. Directors who have been elected but have not been sworn in shall be reimbursed for reasonable and prudent travel and conference expenses incurred while on District business, under the same requirements as sworn directors.
- (8) Authorized Expenses. The General Manager may authorize the purchasing of tickets for directors to attend certain community events related to District activities. Such events can include those sponsored by local chambers of commerce, water associations, community based organizations, and environmental organizations. - (p) Unauthorized Expenses. Items of a personal nature are not reimbursable including: movies, entertainment, premium television services, alcoholic beverages, dry-cleaning, spas, gyms, barber, magazines, shoeshine, travel insurance, purchase of clothing or toiletries, loss of tickets, fines or traffic violations, excess baggage, spouse and/or guest accommodations, office equipment or other items of a personal nature.

If unauthorized expenses have been paid by the District, Directors

will reimburse the District. If a Director does not reimburse District within 30 days of notice from District, reimbursement will be through expense reimbursement deductions by District staff.

(q) Reimbursement Of Expenses – Procedure. All claims shall be submitted to the District for review within ninety (90) days after the subject event. Claims submitted after ninety (90) days, must be approved by the Board of Directors.

(1) Claims shall be submitted on forms supplied by the District. Such forms must include a description of the expense, name(s) of each guest, the affiliation and position of each guest, date incurred, and a description of the business purpose of the expense.

(2) Expenses incurred by a District Director but prepaid by the District or charged on a District credit card must be listed on the expense claim form and noted as paid by the District.

(3) Fully documented and approved expenses will require at least 10 business days for processing, to allow time to verify compliance with expense procedures and to prevent errors.

(r) Director Allowances

(1) District Directors may receive a monthly car allowance in the performance of their official duties in an amount established by the Board.

(2) Board members and the West Basin Municipal Water District's Metropolitan representatives may receive a communications allowance in the performance of their official duties in an amount established by the Board. That monthly amount may cover the following equipment and services:

Board Members who do not receive this monthly allowance are entitled to reimbursement of any communications related expenses in connection with District business in accordance with the reimbursement procedures set forth above.

- (s) Compensation to Directors for Attendance at Meetings. It is the policy of the West Basin Municipal Water District to compensate its Directors for the time they dedicate to advancing the projects and activities of the District. Each Director is authorized to be compensated for up to 10 meetings per month. "Meetings" are defined as meetings of the Board, committee meetings, and such other meetings and events as reasonably necessary to further the interests of the District, subject to Board approval. Directors who attend a conference are expected to attend a reasonable and substantial portion of the lectures, seminars and presentations offered at the conference.

- (1) Approved Meetings. The District will pay each Director a "per diem" amount established by Ordinance No. 93-26 for each day's attendance at approved meetings as set forth in attached Exhibit "1." Meetings which are supported or sponsored by the District are determined to be "approved meetings."

The Ethics Committee will annually review and update, if necessary, Exhibit 1 "West Basin Approved Meetings" and bring a recommendation to the full Board for their consideration.

- (2) Reports. For all conferences and meetings (except meetings of the

West Basin Municipal Water District, West Basin Financing Corporation, and West Basin Committees), Directors who attend such conferences and meetings at the expense of the District at the next regular meeting of the Board of Directors shall provide brief oral or written reports.

- (7) Travel To and From Approved Meetings
- (i) Travel to Conferences/Business Meetings – Out of State/Out of Country. (u) Public Outreach Guidelines

- (1) Introduction and Purpose. An important goal of the District's public outreach strategy is the promotion of water conservation, water education, and District programs. To achieve this public outreach goal, the District supports certain organizations and events on an annual basis through its budgetary process. In addition, the District also organizes and produces various events ("District Events") designed to promote water conservation, water education, and District programs. The District recognizes there are other organizations that organize, produce, or host events which offer opportunities for the District to promote water conservation, water education, and District programs. Such public events are considered "Community Outreach Events."
- (2) Budgeted, Pre-Approved Events, Conferences, and Programs. The District approves on an annual basis, through its budgetary process, participation and sponsorship in certain water related events, conferences, and programs, which bear a direct relationship to the District's operations and activities.
- (3) District Events
 - (i) The District may organize or produce District Events to promote water conservation, water education, and District programs, provided that such events are non-political or non-partisan.
 - (ii) Any District Event conducted within six months before any election of the District's board may not specially feature or call attention to any individual director. In the event that any board member is featured in any promotional material involving a District Event, all board members must be featured equally.
 - (iii) All Directors may attend any District Event.
- (4) Community Outreach Events.

- (i) Requirements for Sponsorship. Upon request, the Board may decide to authorize participation in Community Outreach Events provided that such events: (1) provide the opportunity to promote water conservation, water education, or District programs; and (2) are non-political or non-partisan.

The requesting party must complete the District's Public Outreach Expenditure Application ("Application") and provide clearly defined reasons for District participation in the Community Outreach Event, including details about how the Community Outreach Event promotes water conservation, water education and District programs.

The General Manager shall present the completed Application to the Board. Any request for expenditures for a Community Outreach Event must be approved by a majority of the Board at least 10 business days prior to the date of the event.

In the event a majority of the Board approves the requested expenditures, the District shall issue payment through credit cards and checks paid directly to the host organization. No cash disbursements shall be made to the Director or to the host(s) or organizer(s) of the Community Outreach Event.

The Community Outreach Event must include at least one of the following:

- a. A speaking opportunity for a District representative,
- b. A District booth or table at the event to distribute District information, or
- c. Advertisement to promote District programs. Advertisements shall not promote or include photographs of individual Directors, or in the alternative, shall include photographs of all Directors.

Mere use of the District's logo shall not constitute an "advertisement" for these purposes; at a minimum, any advertisement must include water conservation or education messaging.

Verification of a speaking event, booth or advertisement at the Community Outreach Event, including supporting documentation, must be obtained from the host(s) or organizer(s) of the Community Outreach Event and submitted to the General Manager at the time of the Application, but not later than 10 days after the Community Outreach Event.

- (ii) Proposed Expenditures. A pre-determined amount approved in every fiscal year budget is available to pay sponsorship or participation fees for designated Community Outreach Events. Any expenditure made for Community Outreach Events must be related to the promotion of water conservation, water education, and District programs.
- (iii) Limitations. Directors are prohibited from requesting District participation in or sponsorship of Community Outreach Events which: are scheduled to occur within a District division that is subject to an election; and which are scheduled to occur during the period beginning on the last date by which the subject director must file election papers with Los Angeles County, until the date of certification of the results of any such election. This restriction does not apply to District divisions in which a Director is unopposed in the election.

Directors who are defeated in any District election are prohibited from requesting participation in or sponsorship of a Community Outreach Event after the date the results of the subject director's election is certified.

Directors shall not receive any gifts, free memberships,

or any other fringe benefit from a recipient of District sponsorship, or support of a Community Outreach Event.

ARTICLE 4. MEETINGS AND MINUTES

2-1.401 GENERAL¹⁶

- (a) Meetings of the Board and advisory bodies shall be open to the public. No action shall be taken by secret ballot at a meeting.
- (b) The definitions contained in the Brown Act (Gov. Code § 54950 et seq.) shall be used for the purpose of this Article.

2-1.402 REGULAR AND SPECIAL MEETINGS¹⁷

- (a) The Board shall hold regular meetings on the fourth Monday of each month at the District’s headquarters at 17140 South Avalon Boulevard, Carson, California, at a time designated by the Board. If the fourth Monday of the month is a District holiday, the Regular Board meeting will be held on the next business day, except for the Christmas Eve and Christmas Day holiday, in which case the Regular Board meeting will be held on the third Monday in December.
- (b) A regular meeting may be adjourned by the Board or by less than a quorum to another time. An adjourned regular meeting is a regular meeting if held within five days of the regular meeting. If the adjourned meeting is held more than five days after the regular meeting, a new agenda shall be posted.
- (c) Special meetings may be called by the President upon twenty-four hours’ notice to each member.
- (d) An emergency meeting may be called without the twenty-four hour notice or agenda requirement if an emergency situation involves matters upon which prompt action is necessary due to disruption or threatened disruption of District facilities. An emergency situation includes a work stoppage, crippling activity, crippling disaster, mass destruction, terrorist act, threatened terrorist activity, or other activity that severely impairs public health, safety, or both, as determined by a majority of the Board members.

2-1.403 RECORD OF PROCEEDINGS¹⁸

- (a) The Secretary shall record minutes showing action taken by the Board in open session and by each advisory body. The minutes shall be available for public inspection when approved. If an audio or video recording of an open meeting is made at the direction of the Board, the recording shall be available for public inspection without charge on equipment made available by the District for 30 days after the recording, whereupon the recording may be erased or destroyed.
- (b) Any person attending an open meeting may record the proceeding with an audio or video recorder or a still or motion picture camera unless the Board finds the recording cannot continue without noise, illumination or obstruction of view constituting a persistent disruption of proceedings.

2-1.404 RULES OF CONDUCT^{19,20}**(a) Board Meeting Conduct**

- (1) The meetings of the Board of Directors shall be conducted by the President in a manner consistent with the policies of the District. Policy as set forth below in section 2-1.404(b) shall be used as a general guideline for meeting protocol.
- (2) All Board and Committee meetings shall commence at the time stated on the agenda and shall be guided by same.
- (3) The conduct of meetings shall, to the fullest possible extent, enable the Board to:
 - (i) Consider problems to be solved, weigh evidence related thereto, and make wise decisions intended to solve the problems; and,
 - (ii) Receive, consider and take any needed action with respect to reports of accomplishments of District operations.
 - (iii) Closed sessions of the Board may, on occasion, be called. Closed sessions are closed to non-Board members, except for any person specifically invited to attend.
- (4) Provisions for permitting any individual or group to address the Board

concerning any item on any meeting agenda, or to address the Board at a regular meeting or Committee meeting on any subject that lies within the jurisdiction of the Board of Directors, shall be as follows:

- (i) Individuals wishing to address the Board must submit speaker cards to the Board Secretary prior to the Board's consideration and/or discussion of agenda items;
- (ii) Speakers may not yield their time to other individuals;
- (iii) Three minutes may be allotted to each speaker and a maximum of 15 minutes to each subject matter; and
- (iv) No disruptive conduct shall be permitted at any Board meeting. Persistence in disruptive conduct shall be grounds for summary termination, by the President/Chairperson, of that person's privilege of address.

(5) Willful disruption of any of the meetings of the Board of Directors shall not be permitted. If the President/Chairperson finds that there is in fact willful disruption of any meeting of the Board, he/she may order the disrupting parties out of the room and subsequently conduct the Board's business without them present.

- (i) After clearing the room of disruptive individuals, the President may permit those persons who, in his/her opinion, were not responsible for the willful disruption to remain in the meeting room.

(b) Rules of Order for Board and Committee Meetings (Policy)

(1) General

- (i) Action items shall be brought before and considered by the Board by motion in accordance with this Policy. These rules of order are intended to be informal and applied flexibly. The Board prefers a flexible form of meeting and, therefore, does not conduct its meetings under formalized rules such as Robert's Rules of Order.

a. If a Director believes order is not being maintained or

procedures are not adequate, then he/she should raise a “Point of Order” – not requiring a second – to the President. If the ruling of the President is not satisfactory to the Director, then it may be appealed to the Board. A majority of the Board will govern and determine the “Point of Order.”

(2) Obtaining the Floor

- (i) Any Director desiring to speak should address the President and, upon recognition by the President, may address the subject under discussion.

(3) Motions

- (i) Any Director, including the President, may make or second a motion. A motion shall be brought and considered as follows:
 - a. A Director makes a motion; another Director seconds the motion; and the President states the motion.
- (ii) Once the motion has been stated by the President, it is open to discussion and debate. After the matter has been fully debated, and after the public in attendance has had an opportunity to comment, the President will call for the vote.
 - a. If the public in attendance has had an opportunity to comment on the proposed action, any Director may move to immediately bring the question being debated to a vote, suspending any further debate. The motion must be made, seconded, and approved by a majority vote of the Board.

- (4) Secondary Motions. Ordinarily, only one motion can be considered at a time and a motion must be disposed of before any other motion or business is considered. There are a few exceptions to this general rule, though, where a secondary motion concerning the main motion may be made and considered before voting on the main motion.

- (i) Motion to Amend. A main motion may be amended before it

is voted on, either by the consent of the Directors who moved and seconded, or by a new motion and second.

- (ii) Motion to Table. A main motion may be indefinitely tabled before it is voted on by motion made to table, which is then seconded and approved by a majority vote of the Board.
 - (iii) Motion to Postpone. A main motion may be postponed to a certain time by a motion to postpone, which is then seconded and approved by a majority vote of the Board.
 - (iv) Motion to Refer to Committee. A main motion may be referred to a Board committee for further study and recommendation by a motion to refer to committee, which is then seconded and approved by a majority vote of the Board.
 - (v) Motion to Close Debate and Vote Immediately. As provided above, any Director may move to close debate and immediately vote on a main motion.
 - (vi) Motion to Adjourn. A meeting may be adjourned by motion made, seconded and approved by a majority vote of the Board before voting on a main motion.
- (5) Decorum
- (i) All persons in attendance will exercise professionalism, respect, courtesy, patience and civility toward each other and as between members of the Board, staff and the public.
 - (ii) The President shall take whatever actions are necessary and appropriate to preserve order and decorum during Board meetings, including public hearings. The President may eject any person or persons making personal, impertinent or slanderous remarks, refusing to abide by a request from the President, or otherwise persistently disrupting the meeting or hearing. Persons being ejected from the meeting will be escorted from the building.
 - (iii) The President may also declare a short recess during any

time at any meeting.

(6) Amendment of Rules of Order

- (ii) Be readily available at all hours by telephone, or other communication devices.
- (iii) Refrain from intoxicants or other activities which might impair the employee’s abilities to perform assigned duties.

- (2) Employees who are assigned to Standby/On Call will be paid Standby/On Call Pay in the amount of the current minimum wage for qualifying hours.
 - (3) An employee shall not receive Standby/On Call Pay for hours during which the employee is being paid at the overtime rate.
 - (4) Standby will be assigned as equally as possible among those employees available to report to a call to return to work.
- (b) Call Back Pay:
- (1) "Call Back" is the unscheduled call to an off-duty employee requiring that they report to work and is at the discretion of the employee to accept and respond within reason.
 - (2) An employee is eligible for Call Back Pay when they are subject to call back to respond to emergencies or operational issues identified by the department manager or their designee.
 - (3) Call Back Pay shall be compensated at the overtime rate for hours worked beginning when they receive the phone call to report for duty until they return to their point of origin.
 - (4) Call Back Pay will be paid with a minimum of two hours of overtime unless the call back is within two hours of their regular shift. In those cases, employees are compensated with overtime until their regular shift starts. When the regular shift starts the employee will receive regular base pay.

3-4.106 COMPENSATION

The salary ranges for positions shall be reviewed on an annual basis. As part of the annual budget process, the General Manager shall recommend to the Board the allocation of total monies required for performance-based compensation, and salary range adjustments for recruitment and retention purposes.

- (a) New employees are hired within the range of the position based upon the applicant's qualifications including education, work experience, or critical talent.
- (b) New or promoted employees are eligible for a review of their compensation

at the successful conclusion of their probationary period.

- (c) Employees are eligible for a review of their compensation via a merit review on an annual basis. In determining compensation factors, consideration will be given to the availability of District resources, the need for a competitive salary structure for recruitment and retention purposes, and individual performance. Should the hourly rate of an employee’s current position exceed the maximum of the newly established range, that employee’s hourly rate shall be “frozen” at their current hourly rate until such time as the maximum of the salary range exceeds that “frozen” rate.
- (d) The General Manager shall have authority to design and implement annual compensation programs within District resources to retain and recognize excellence in fulfilling District business and service goals.
- (e) Out-of-Class Pay:

Government (Gov.) Code section 20480 of the Public Employees' Retirement Law (PERL) defines an “out-of-class appointment” to mean an appointment to an upgraded position or higher classification by the District or governing board or body in a vacant position for a limited duration. For purposes of this section, a “vacant position” refers to a position that is vacant during recruitment for a permanent appointment. A vacant position does not refer to a position that is temporarily available due to another employee's leave of absence.

Gov. Code section 20480 prohibits an out-of-class appointment by the District with employees serving a limited duration appointment in a vacant position from exceeding 960 hours worked within each fiscal year. This requirement applies to CalPERS Classic and New Members.

Employees who are placed in an out-of-class appointment may be granted additional compensation for the time actually worked. Such increase to the higher level shall be determined as if the assignment had been a promotion. Additional compensation shall not be made in any situation related to vacation, short-term illness or other temporary relief. The General Manager, in consultation with the Manager of Human Resources, shall have the final

determination for approval. Additional compensation shall be determined by the General Manager, in consultation with the Manager of Human Resources, in increments between 2.5% and 7.0% for the higher level classification or the appropriate pay schedule.

(f) Additional Responsibilities Pay (Temporary Upgrade Pay):

Temporary Upgrade Pay, as defined by CCR 571(a)(3) is compensation to employees who are required by the District or governing board or body to work in an upgraded position/classification of limited duration. If an employee serves in an upgraded position, but the District is not recruiting to fill the position, the additional compensation may be reported as Temporary Upgrade Pay, but does not meet the definition of an out-of-class appointment. Where an appointment meets the definition of Temporary Upgrade Pay, but not out-of-class appointments, the compensation is reportable to CalPERS for Classic members only. However, the hours are not reportable for the purposes of the 960-hour limit on out-of-class appointments.

- (g) Increases in pay may be granted to recognize the temporary upgrade assignment of additional responsibilities that are significant in nature and beyond the normal scope of position responsibilities and complexity. Additional compensation shall be determined by the General Manager, in consultation with the Manager of Human Resources, in increments between 2.5% and 7.0%.

3-4.107 OVERTIME (MOVED TO 3-4.105, FAIR LABOR STANDARDS ACT APPLICATION)

3-4.108 REEMPLOYMENT

An employee who has achieved regular status and terminates employment with the District and is subsequently rehired in the same classification within six months may retain the prior salary, vacation accrual rate, and retirement service credit in accordance with that allowed by CalPERS. Reemployment is at the sole discretion of the General Manager.

3-4.109 REST PERIODS

Employees who work a minimum of four (4) hours per day are authorized to receive one paid fifteen (15) minute rest period. Employees who work six (6) hours or more per day are authorized to receive two paid fifteen minute rest periods, one in the morning before the meal break and one in the afternoon. Employees are expected to return from scheduled breaks and lunch breaks in a timely fashion.

A rest period also includes time at a workstation to make or receive a personal telephone call, eat a snack, attend to personal business or otherwise “relax.” Thus, those employees who take their breaks without actually leaving their workstation must maintain a professional atmosphere in the office at all times. Employees are expected to begin and conclude rest periods within the timeframe allotted.

3-4.110 TIMESHEETS

Employees are required to submit time sheets at the close of each pay period. Completed time sheets are to be turned in to the Finance department by 4:00 p.m. on the last Thursday of the pay period or earlier if requested by the Finance department. Time sheets must reflect the actual time worked charged to the categories where the work was performed; with the exception of Exempt Classifications where their work schedule has been modified. Time is coded to the nearest quarter hour. Falsification of time worked by an employee is subject to disciplinary action.

The employee’s supervisor is responsible for reviewing the time sheets for accuracy prior to approval.

3-4.111 PAY PERIODS

Employees are paid biweekly; twenty-six (26) times per calendar year. Payday is the first Wednesday following the end of the pay period (Sunday midnight). The workweek is defined as 12:01 a.m. Monday through midnight, Sunday. The District pays employees via direct deposit or by check.

The District only pays employees for hours previously worked or for accrued leave time. The District does not pay in advance of work to be done.

3-4.112 WITHHOLDINGS AND DEDUCTIONS

The District may withhold monies from the employee's paycheck to cover legal and administrative obligations/practices. These obligations/practices may include state and federal income tax, social security, court-ordered attachments, or any voluntary benefit deductions. All monies deducted are accounted for on the employee's paycheck stub. Employees are to notify the Human Resources department of any changes in withholding status in writing and on the appropriate forms.

3-4.113 PERSONNEL RECORDS

The District will maintain a confidential personnel file for each employee. At certain times information may be given to persons outside the District. Notification will be provided to the employee where legally required. These circumstances are:

- (h) To a prospective employer or other person requesting a verification of employment, when the employee provides a written release allowing the District to give out information. Without a release, the District shall only confirm employment by providing the dates of employment and last or present job title.

Employees are required to immediately advise the District, in writing, of any change in home address, telephone number, name, and tax withholding exemption information. Contact Human Resources for the appropriate forms to use. Employees are required to advise the District of the following events, which may impact benefits coverage for a spouse or dependents:

- (a) Divorce or legal separation.

- (b) Facts affecting a dependent's eligibility for insurance coverage, (i.e., a child reaches the maximum age of 26 for coverage, or is over 18 and ceases to be a full-time student, or is no longer claimed as a dependent for tax purposes.)
- (c) A determination from the Social Security Administration that the employee or covered dependent is disabled. The District must be advised of the disabled status within sixty (60) days from the date of the determination by the Social Security Administration.

Personnel records are confidential and access to personnel records shall be limited, as required by law, to those individuals within those specific legal restrictions and/or limitations. Letters of reference and other matters exempted by law shall be excluded from the right to inspection by the employee. Information may not be purged from the personnel records without District legal review per 3-1.103(b)(3). Employees who wish to view their personnel record should submit a request in writing to the Human Resources Department, allowing twenty-four (24) hours' notice.

All employees must provide and permit copying of documentation which verifies their identity and authorization to work as required under federal law.

3-4.114 ALTERNATIVE WORK SCHEDULE (9/80)

The District has adopted a 9/80 (9 days/80 hours) work schedule. The 9/80 work schedule shall not reduce service to the public, departmental effectiveness, and productivity. The specific components of the 9/80 alternative work schedule are set forth as follows:

- (a) The work schedule consists of eighty (80) consecutive hours, with nine (9) work days in a two (2) week pay period. The work schedule is comprised of four (4) nine (9) hour days per week and one (1) eight (8) hour work day every other week.

- (d) Employees are required to take the same alternating day off for the length of the 9/80 alternative work schedule to remain in compliance with the definition of a workweek under the FLSA guidelines. (For example, if an employee's regular alternative day off is Friday, the employee cannot switch the alternate day off to Thursday or any other day).
- (e) If a District holiday falls on a regularly scheduled 9/80 day off for the employee, and that holiday is not observed on an employee's regular workday, then the employee shall be credited with a banked holiday.
 - 1. Eight (8) hours of holiday leave time will be tracked in a separate leave bank. The employee may use the banked holiday leave by the end of the fiscal year (June 30).
 - 2. The banked holiday must be used in an eight-hour increment within the fiscal year earned.
 - 3. If the banked holiday hours are not used by the end of the fiscal year (June 30), the banked time will be paid out at the hourly rate of the fiscal year in which it was earned. Payment shall be made by the second payday in July.
 - 4. If the employee separates from the District prior to June 30, the District will pay out any unused banked holiday hours at the hourly rate of the fiscal year in which it was earned.
- (f) Overtime will be all hours worked in excess of a non-exempt employee's regular work day or beyond forty (40) hours in the workweek, in compliance with Section 3-4.105 (Fair Labor Standards Act Application/Overtime). Time shall be reported to Payroll based on the regular two-week pay period. Overtime worked will be reported in the pay period in which it is worked.
- (g) The General Manager, in conjunction with the Human Resources and Finance Departments, has the general responsibility of overseeing the day-to-day implementation of this policy in accordance with payroll and legal requirements. Any requests for exceptions to this policy or request to

Employees may voluntarily defer portions of their compensation pursuant to the provisions of Section 457 of the Internal Revenue Code. Detailed information on deferred compensation is available from the Human Resources Department.

3-4.209 FLEXIBLE SPENDING ACCOUNT (FSA)

Employees may annually contribute to the Dependent Care Flexible Spending Account (FSA) plans. The employee may elect to annually contribute up to \$5,000 on a salary reduction basis to the Dependent Care FSA. The Flexible Spending plan document shall govern the administration of the program.

3-4.210 MEDICAL EMERGENCY LEAVE (MOVED TO ARTICLE 4, AUTHORIZED LEAVES)

3-4.211 CALPERS LONG TERM CARE PROGRAM

CalPERS provides an opportunity for employees and certain related family members to voluntarily obtain long-term care insurance at group rates, when made available by CalPERS. This program has been designed exclusively to protect California public employees and their spouses, siblings age 18 and over, parents, and parents-in-law from the potentially devastating cost of long-term custodial care. Premiums depend upon the ages of covered program participants and are paid entirely by the participant(s).

3-4.212 GROUP LIFE INSURANCE

The District provides a term Group Life Insurance Plan for employees, fully paid by the District subject to IRS tax regulations and applicable tax implications. The amount of coverage is equal to twice the annual base salary of the employee up to a maximum of \$150,000. This benefit is in effect only while the employee is employed with the District.

3-4.213 DISABILITY INSURANCE

The District provides employees with Short-Term and Long-Term Disability Insurance benefits for extended illness or injury, subject to the plan document and verification process. Premiums are fully paid by the District.

An employee who is disabled for more than 180 days on an unpaid leave shall not be eligible for the District's paid health premiums and benefits.

Disability insurance covers both work and non-work-related injuries and illness. Benefits are taxable and offset by workers' compensation temporary disability payments or a CalPERS disability retirement allowance.

(a) Short-Term Disability

- (1) Covers the first 180 calendar days of disability. Benefits are paid after a 60-day waiting period.
- (2) Maximum benefit is 66 2/3% of salary up to \$1,731 per week after waiting period.

(b) Long-Term Disability

- (1) Benefits paid after 180 calendar days of disability.
- (2) Maximum benefit is 66 2/3% of salary up to \$7,500 per month.
- (3) Benefits paid to age 70 (based upon age when disability begins) for total disability.

3-4.214 WORKERS' COMPENSATION INSURANCE

The District provides all employees with Workers' Compensation Insurance benefits for work-related illness or injury. An illness or injury is work-related when it arises out of and during the course of employment. The employee is responsible for immediately reporting any injury that is work-related to their supervisor and the Human Resources Department.

When an employee is unable to work because of a workers' compensation disability, the employee may use accrued sick leave to make up the difference between the employee's regular salary and workers' compensation benefits. The employee may also use accrued sick leave for any waiting period in which workers' compensation benefits are not payable.

Employees on leave without pay status do not accrue vacation, sick, or holiday leave.

The District shall not discharge, threaten, or discriminate in any way against an employee for filing a claim, intending to file a claim or an appeal with the Workers' Compensation Board, or receiving a workers' compensation disability award.

3-4.215 COBRA

In accordance with the Consolidated Omnibus Budget Reconciliation Act of 1985 (COBRA), the District provides continuing medical insurance coverage at group rates for former District employees or dependents who lose coverage. Eligibility and length of coverage are determined by law. Premiums for COBRA coverage are made entirely by the employee or dependent beneficiary who is receiving the benefit.

3-4.216 EMPLOYEE DEVELOPMENT PROGRAM⁴

In order to encourage employees to enhance their professional growth, the District has established a policy to reimburse employees for eligible tuition cost, through the Employee Development Program ("Program").

This program is intended to provide an opportunity to expand individual skills and knowledge to enhance job performance and career development. Completion of any degree, license or certificate does not guarantee promotion. The General Manager shall determine whether an employee is eligible to receive the reimbursement and may discontinue the reimbursement at any time if they determine that the employee is no longer eligible for the reimbursement.

- (a) Job-Related Education & Professional Licenses and Certificates Program

Under Internal Revenue Code (IRC) Section 132(j)(8), amounts paid or

expenses incurred by the District for the education and training of employees are excludable from gross income only if such amounts or expenses are considered a "working condition fringe benefit."

Job-related education is not taxable to the employee if the educational expenses qualify as a "working condition fringe benefit" and meet the definition of "job-related training" under Treasury Regulation 1.162-5 and are made to:

- (1) Maintain or improve the employee's skills for the employee's current position with the District,
- (2) Meet any specified educational requirements of the District, or
- (3) Meet any requirements necessary for the employee to retain their salary, status or employment.

Undergraduate or graduate coursework may qualify as job-related education if it meets any one of the three requirements listed above.

If educational courses are taken for general education purposes, or are needed to meet the minimum requirements of the job, or are part of a program of study that qualifies the employee for a new trade or business, then such courses do not qualify as working condition fringe benefits.

(b) Reimbursement Criteria

The Program is designed for employees seeking reimbursement for college or university expenses. Participation in this educational opportunity is voluntary. An employee may be reimbursed for course work toward obtaining one degree, a Bachelor's or Master's. Post graduate coursework, such as a Doctoral or second Bachelor's/Master's program is not eligible for reimbursement under this policy.

Employees who are seeking to obtain a professional license or certification, in order to maintain the requirements of their current job status, may have the cost for that license or certification paid by the District. Only those professional certificates and licenses uniquely required to perform job functions for the District, (as set forth in the employee's job description) will be approved either because of the

technical skills required or because of legal requirements, or certificates or licenses that are considered of general benefit to the District. Any contact hours or re-certification units taken and/or paid for through a work-related workshop or conference will be an exception to the Program requirements.

(1) *Eligibility*

This program is subject to budgeted funds availability.

Only active, full-time employees who have completed the initial probationary period as referenced in section 3-4. 101(b), with the exception of those employees serving a promotional probation period and achieved regular status with the District, may be reimbursed for reasonable costs for tuition, registration fees, books and lab fees for educational courses related to District employment. Student association costs, health fees and any other additional non-educational fees are excluded from reimbursement. All other employees, including but not limited to part-time or limited term employees are excluded from this Program.

An employee must submit a written request to include the planned course of study for the Program by completing the required District Employee Development Program form. The form shall be submitted to the department manager, the Manager of Human Resources and the General Manager for pre-approval prior to the term(s) in which the employee is seeking reimbursement in order to be eligible for reimbursement for partial or full reasonable costs, subject to the following requirements:

- (i) Employee must be in good standing (e.g., regarded as having complied with all their explicit obligations, while not being subject to any form of disciplinary action or performance improvement plan).
- (ii) The course must be taken on the employee's own time with the exception of contact hours or re-certification units taken through a work-sponsored workshop/conference.
- (iii) The required education must serve a bona fide business purpose of

the District and must maintain or improve skills needed in the employee's present work.

- (iv) The course must be completed in an accredited program.
- (v) Employee shall complete the course with a passing grade of "C" or better.
- (vi) Funds received from outside sources, such as scholarships, grants, veterans or other educational benefits, must be applied toward the costs of the course before the District's reimbursement is applied.

(2) *Reimbursement Requirements*

- (i) Employee must successfully obtain the license or certification and/or completion of term/degree.
- (ii) The maximum amount eligible for reimbursement is \$9,000 per fiscal year.
- (iii) The District will reimburse employees for professional membership dues germane to their work as a District employee, subject to review and approval by the department manager.
- (iv) License and certification renewals, contact hours or re-certification units will be fully reimbursed by the District and are not subject to the \$9,000 eligibility amount.

(3) *Reimbursement Procedure*

The reimbursement request must be submitted for processing within the same fiscal year the course was completed. Accordingly, reimbursement will be paid within the same fiscal year the course was completed, if possible.

Upon satisfactory completion of the coursework, the employee shall submit the necessary forms, a grade report or license/certificate, receipts and a copy of the Employee Development Program form to the Finance Department for processing. Once processed, the Finance Department will forward it to the Manager of Human Resources for approval.

The District will not reimburse or pay any part of expenses incurred if an employee separates employment from the District prior to completing requirements necessary to obtain degree, licenses, certifications, contact hours or re-certification units.

Reimbursed expenses may be considered taxable income and may be subject to tax withholding. The employee shall seek independent tax advice as the District is not liable for the determination.

The employee agrees that in the event they leave employment with the District (i.e., resignation or termination) within a 2-year period after completion of their last course and/or Program for which the employee was reimbursed, the employee will be required to pay back reimbursement amounts paid by the District as follows:

Separation within 1 year (12 months) - 100% of the reimbursement

Separation within 2 years (24 months) - 50% of the reimbursement

All payments shall be made within 90 days following separation from the District unless other arrangements are approved by the General Manager or designee.

3-4.217 EMPLOYEE ASSISTANCE PROGRAM (EAP)

The District shall provide an Employee Assistance Program (EAP) for employees. The cost of the program shall be paid by the District.

ARTICLE 3. [LEFT BLANK INTENTIONALLY]

ARTICLE 4. AUTHORIZED LEAVES⁵

3-4.401 VACATION LEAVE

The District provides vacation with pay to full-time and part-time employees. Part-time employees accrue pro-rated vacation leave based upon actual hours worked each week and years of service. Employees shall schedule vacation in advance and approval is subject to District operating needs. Vacation leave is accrued each pay period as follows:

<u>YEARS OF CONTINUOUS SERVICE</u>	<u>VACATION DAYS</u>	<u>MAX HOURS</u>
0 through 5 years (0 – 60 mos)	80 hrs per year	240 hours
6 through 10 years (61 – 120 mos)	120 hrs per year	320 hours
11 through 12 years (121 – 144 mos)	128 hrs per year	336 hours
13 through 14 years (145 – 168 mos)	136 hrs per year	352 hours
15 or more years (169 mos or more)	160 hrs per year	400 hours

Continuing monthly accruals can be maintained for two years, but shall be limited by an employee’s unused vacation days. The maximum vacation accrual shall be equivalent to eighty (80) hours plus the employee’s two-year accrual rate. Once the employee reaches their maximum accrual rate, they will not continue to accrue vacation hours until their leave balance falls below the maximum accrual rate.

Upon termination, the District will payout all accrued vacation hours at the employee’s regular base pay before any special compensation (i.e. additional responsibilities pay, out-of-class pay, etc.).

3-4.402 VACATION LEAVE CREDIT OPTION

Employees appointed to a regular position may receive credit for previous experience for the purpose of establishing their vacation accrual rate. Such determination as to the comparability of previous experience and the amount of credit to be granted rests solely with the General Manager in consultation with the Manager of Human Resources.

3-4.403 DISTRICT HOLIDAYS

The District observes certain paid holidays. Part-time regular employees are entitled to pro-rated holiday leave based on their agreed upon schedule after working 1,000 hours. Employees are not expected to work on holidays. Employees must receive prior approval from their manager or supervisor to work designated holidays and may be compensated in straight time (or overtime if applicable) salary or in compensatory time off (for Non-Exempt employees). Observed District holidays are:

- January 1 (New Year's Day)
- Third Monday in January (Martin Luther King, Jr. Birthday)
- Third Monday in February (President's Day)
- Last Monday in March (Cesar Chavez' Birthday)
- Last Monday in May (Memorial Day)
- June 19 (Juneteenth)
- July 4 (Independence Day)
- First Monday in September (Labor Day)
- November 11 (Veteran's Day)
- Thanksgiving Day and the Friday following
- December 24 (Christmas Eve)
- December 25 (Christmas Day)
- December 31 (New Year's Eve)

If a holiday falls on a Saturday, the preceding Friday shall be observed, and if a holiday falls on a Sunday, the following Monday shall be observed. In the event that the Friday and/or Monday is/are designated holidays, the preceding Thursday and/or subsequent Tuesday shall be granted as District Holiday Leave.

One Personal Holiday will be granted to employees each calendar year. New employees will be granted one Personal Holiday upon satisfactory completion of their probationary period. The Personal Holiday must be scheduled by the employee with prior approval by their supervisor and must be used in an eight-hour increment within the calendar year. If the employee does not utilize their Personal Holiday during the calendar year in which it was earned or prior to termination, the Personal Holiday shall be forfeited.

3-4.404 SICK LEAVE

Employees who are hired to work at least thirty days are eligible for California Paid Sick Leave. Eligible employees begin to accrue California Paid Sick Leave on the first day of employment but do not become eligible to use accrued California Paid Sick Leave until the 30th day of employment. Sick leave is the authorized absence from work of an employee due to:

- a) The diagnosis, care, or treatment of an existing health condition of, or preventative care for, an employee;
- b) The diagnosis, care, or treatment of an existing health condition of, or preventive care for an employee's family member; or
- c) To obtain any relief or services related to being a victim of domestic violence, sexual assault, or stalking including the following with appropriate certification of the need for such services:
 - i. A temporary restraining order or restraining order.
 - ii. Other injunctive relief to help ensure the health, safety or welfare of themselves or their children.
 - iii. To seek medical attention for injuries caused by domestic violence, sexual assault, or stalking.
 - iv. To obtain services from a domestic violence shelter, program, or rape crisis center as a result of domestic violence, sexual assault, or stalking.
 - v. To obtain psychological counseling related to an experience of domestic violence, sexual assault, or stalking.
 - vi. To participate in safety planning and take other actions to increase safety from future domestic violence, sexual assault, or stalking, including temporary or permanent relocation.

A "family member" for these purposes is defined as a child (a biological, adopted, or foster child, stepchild, legal ward, or a child to whom the employee stands in loco parentis), a parent (a biological, adoptive or foster parent, stepparent, or legal guardian of an employee or the employee's spouse or registered domestic partner, or a person who stood in loco parentis when the employee was a minor child), a spouse or registered

domestic partner, a grandparent, grandchild and sibling, or a designated person which is a person identified by the employee at the time the employee requests paid sick days. Employees are limited to one designated person per 12 month period.

Documentation may be requested for sick leave taken in excess of 40 hours. Misrepresentation, falsification or inappropriate use of sick time subjects the employee to an investigation and potential disciplinary action as well as non-payment of the sick leave claim.

An employee shall provide reasonable advance notification of their need to use accrued paid sick leave to their supervisor if the need for paid sick leave use is foreseeable (e.g., doctor's appointment scheduled in advance). If the need for paid sick leave use is unforeseeable, the employee shall provide notice of the need for the leave to their supervisor as soon as is practicable.

The General Manager shall have the authority to establish and amend a medical emergency leave program for employees of the District, subject to applicable law.

3-4.405 PAID SICK LEAVE LAW – REGULAR/PART-TIME EMPLOYEES⁷

A regular or limited-term full-time employee who is unable to work because of injury or illness is eligible to use accrued sick leave. Sick leave is accrued at ninety-six (96) hours per twelve-month period. Part-time regular employees may be granted pro-rated accruals by the District. For regular and part-time employees, use of paid sick leave is subject to the following:

- a) All sick leave used by FLSA non-exempt employees shall be deducted from their accrued sick leave credit.
- b) Sick leave for FLSA exempt employees shall be deducted from their accrued sick leave credit if they are absent for one full day or more.
- c) On December 31st of each year, employees with accrued sick leave exceeding 960 hours will be compensated for any hours above this limit. Payments will be issued by the second pay period in January and will be calculated based on the employee's regular base pay, excluding any special compensation (e.g., additional responsibilities pay, out-of-class pay).

- d) Upon termination, the District will pay all accumulated sick hours at the employee's regular base pay before any special compensation (i.e. additional responsibilities pay, out-of-class pay, etc.)
- e) An employee retiring from the District may convert up to 960 hours of accumulated sick leave for CalPERS service credit. If the retiring employee chooses not to convert all of their accumulated sick leave, the remaining amount may be paid out in the same manner as Section "d".
- f) An employee unable to work because of a disability compensable under workers' compensation or the District's Short or Long-Term Disability insurance may use accrued sick leave to make up the difference between the employee's regular monthly salary and the compensation received under workers' compensation or disability insurance.
- g) An employee who separates from the District during their probationary period will not be paid accumulated sick leave.

3-4.406 PAID SICK LEAVE LAW – SEASONAL/TEMPORARY EMPLOYEES

The following policy applies only to temporary (interns) and seasonal employees: The District will provide each seasonal or temporary employee with forty (40) hours of paid sick leave at the beginning of each 12-month period. Such employees are not eligible to begin using any accrued paid sick leave until after completing thirty (30) days of employment with the District. In accordance with California's Paid Sick Leave Law, an employee may use forty (40) hours of accrued paid sick leave in a 12-month period. Any unused paid sick leave hours that remain at the end of each 12-month period shall not carryover. The District does not pay seasonal or temporary employees for any unused sick leave hours remaining in each employee's leave bank.

An employee who uses paid sick leave must do so with a minimum increment of two (2) hours of sick leave. Paid sick leave will not be considered hours worked for purposes of overtime calculation. Upon termination, the District will payout all accrued sick hours at the employee's regular base pay.

If an employment from the employee separates from District employment and is re-hired by the District within one year of the date of separation, previously accrued and

unused paid sick leave hours shall be reinstated to the extent required by law. However, if a rehired employee had not yet worked the requisite thirty (30) days of employment to use paid sick leave at the time of separation, the employee must still satisfy the thirty (30) days of employment requirement collectively over the periods of employment with the District before any paid sick leave can be used.

3-4.407 FAMILY AND MEDICAL CARE LEAVE

To the extent not already provided for under current leave policies and provisions, the District will provide family and medical care leave for eligible employees as required by state and federal law. The following provisions set forth certain of the rights and obligations with respect to such leave. Rights and obligations which are not specifically set forth below are set forth in the Department of Labor regulations implementing the Federal Family and Medical Leave Act ("FMLA"), and the regulations of the California Family Rights Act ("CFRA"). Unless otherwise provided by this policy, "leave" under this policy shall mean leave pursuant to the FMLA and/or CFRA.

(a) Definitions

- (1) "12-Month Period" means a rolling 12-month period measured backward from the date leave is taken and continuous with each additional leave day taken.
- (2) "Single 12-month period" means a 12-month period which begins on the first day the eligible employee takes FMLA leave to take care of a covered service member and ends 12 months after that date.
- (3) "Child" under the FMLA means a child under the age of 18 years of age, or 18 years of age or older who is incapable of self-care because of a mental or physical disability. An employee's child is one for whom the employee has actual day-to-day responsibility for care and includes, a biological, adopted, foster or step-child legal ward, or a child of a person standing in loco parentis. A person is in loco parentis to a child if he or she assumes parental status and discharges parental duties. A child is "incapable of self-care" if they require active assistance or supervision to provide daily self-care in three or

more of the activities of daily living or instrumental activities of daily living — such as, caring for grooming and hygiene, bathing, dressing and eating, cooking, cleaning, shopping, taking public transportation, paying bills, maintaining a residence, using telephones and directories, etc.

“Child” under CFRA includes those designated as a “Child” under the FMLA, and all adult children (regardless of whether they are dependent) and children of a domestic partner.

- (4) “Parent” means the biological, adoptive, step or foster parent of an employee, or an individual who stands or stood in loco parentis (in place of a parent) to an employee when the employee was a child. This term does not include parents-in-law.
- (5) “Spouse” means a husband or wife as defined or recognized under California State law for purposes of marriage. “Spouse” also includes registered domestic partners and same-sex partners in marriage.
- (6) “Domestic Partner,” as defined by Family Code §§ 297 and 299.2, shall have the same meaning as “Spouse” for purposes of CFRA Leave.
- (7) “Serious health condition” means an illness, injury, impairment, or physical or mental condition that involves:
 - (i) Inpatient care in a hospital, hospice, or residential medical care facility, including any period of incapacity (i.e., inability to work, or perform other regular daily activities due to the serious health condition, treatment involved, or recovery therefrom). A person is considered “inpatient” when a health care facility formally admits them to the facility with the expectation that they will remain at least overnight, even if it later develops that such person can be discharged or transferred to another facility, and does not actually remain overnight; or
 - (ii) Continuing treatment by a health care provider: A serious

health condition involving continuing treatment by a health care provider includes any one or more of the following:

- a. A period of incapacity (i.e., inability to work, or perform other regular daily activities) due to serious health condition of more than three full consecutive calendar days, and any subsequent treatment or period of incapacity relating to the same condition, that also involves:
 - 1. Treatment two or more times within 30 days of the first day of incapacity, unless extenuating circumstances exist by a health care provider, by a nurse, or by a provider of health care services (e.g., a physical therapist) under orders of, or on referral by a health care provider. The first in-person treatment visit must take place within seven days of the first day of incapacity; or
 - 2. Treatment by a health care provider on at least one occasion which must take place within seven days of the first day of incapacity and results in a regimen of continuing treatment under the supervision of the health care provider. This includes for example, a course of prescription medication or therapy requiring special equipment to resolve or alleviate the health condition. If the medication is over the counter, and can be initiated without a visit to a health care provider, it does not constitute a regimen of continuing treatment.
- b. Any period of incapacity due to pregnancy or for prenatal care. This entitles the employee to FMLA

leave, but not CFRA leave.

- c. Any period of incapacity or treatment for such incapacity due to a chronic serious health condition. A chronic serious health condition is one which:
 - 1. Requires periodic visits (defined as at least twice a year) for treatment by a health care provider or by a nurse;
 - 2. Continues over an extended period of time (including recurring episodes of a single underlying condition); and
 - 3. May cause episodic rather than a continuing period of incapacity (e.g., asthma, diabetes, epilepsy, etc.). Absences for such incapacity qualify for leave even if the absence lasts only one day.
- d. A period of incapacity which is permanent or long term due to a condition for which treatment may not be effective. The employee or family member must be under the continuing supervision of, but need not be receiving active treatment by, a health care provider.
- e. Any period of absence to receive multiple treatments (including any period of recovery therefrom) by a health care provider or by a provider of health care services under orders of, or on referral by, a health care provider, either for restorative surgery after an accident or other injury, or for a condition that would likely result in a period of incapacity of more than three consecutive calendar days in the absence of medical intervention or treatment.

(8) "Health Care Provider" means:

- (1) A doctor of medicine or osteopathy who is authorized to

- practice medicine or surgery by the State of California;
- (2) Individuals duly licensed as a physician, surgeon, or osteopathic physician or surgeon in another state or jurisdiction, including another country, who directly treat or supervise treatment of a serious health condition;

 - (5) Christian Science practitioners listed with the First Church of Christ, Scientist in Boston, Massachusetts; and
 - (6) Any health care provider from whom an employer or group health plan's benefits manager will accept certification of the existence of a serious health condition to substantiate a claim for benefits.
- (9) "Covered active duty" means: (1) in the case of a member of a regular component of the Armed Forces, duty during the deployment of the member with the Armed Forces to a foreign country, or (2) in the case of a member of a reserve component of the Armed Forces, duty during the deployment of member of the Armed Forces to a foreign country under a call or order to active duty under certain specified provisions.
- (10) "Covered Service Member" means (1) a current member of the Armed Forces, including a member of the National Guard or

Reserves, who is undergoing medical treatment, recuperation, or therapy, is otherwise in outpatient status, or is otherwise on the temporary disability retired list, for a serious injury or illness; or (2) a veteran who is undergoing medical treatment, recuperation, or therapy, for a serious injury or illness and who was a member of the Armed Forces, including a member of the National Guard or Reserves, at any time during the period of five years preceding the date on which the veteran undergoes that medical treatment, recuperation, or therapy.

- (11) “Outpatient Status” means, with respect to a covered service member, the status of a member of the Armed Forces assigned to either: (1) a military medical treatment facility as an outpatient; or (2) a unit established for the purpose of providing command and control of members of the Armed Forces receiving medical care as outpatients.
- (12) “Next of Kin of a Covered Service Member” means the nearest blood relative other than the covered service member’s spouse, parent, son, or daughter, in the following order of priority: Blood relatives who have been granted legal custody of the covered service member by court decree or statutory provisions, brothers and sisters, grandparents, aunts and uncles, and first cousins, unless the covered service member has specifically designated in writing another blood relative as their nearest blood relative for purposes of military caregiver leave under the FMLA.
- (13) “Serious Injury or Illness”: (1) in the case of a member of the Armed Forces, including a member of the National Guard or Reserves, means an injury or illness that was incurred by the member in the line of duty on active duty in the Armed Forces (or existed before the beginning of the member’s active duty and was aggravated by service in the line of duty on active duty in the Armed Forces) and that may render the member medically unfit to perform the duties of

the member's office, grade, rank, or rating; or (2) in the case of a veteran who was a member of the Armed Forces, including a member of the National Guard or Reserves, at any time during the period of five years preceding the date on which the veteran undergoes that medical treatment, recuperation, or therapy, means a qualifying injury or illness that was incurred by the member in the line of duty on active duty in the Armed Forces (or existed before the beginning of the member's active duty and was aggravated by service in the line of duty on active duty in the Armed Forces) and that manifested itself before or after the member became a veteran.

REASONS FOR LEAVE

Leave is only permitted for the following reasons:

- (a) The birth of a child or to care for a newborn of an employee;
- (b) The placement of a child with an employee in connection with the adoption or foster care of a child;
- (c) Leave to care for a child, parent, spouse, or domestic partner, or a domestic partner's child who has a serious health condition;

- (f) Leave to care for a spouse, son, daughter, parent, or "next of kin" who is a covered service member of the United States Armed Forces who has a serious injury or illness incurred in the line of duty while on active military duty or existed before the beginning of the member's active duty and was aggravated by service in the line of duty on active duty in the Armed Forces (this leave can run up to 26 weeks of unpaid leave during a single 12-month period) (under the FMLA only, not the CFRA);

An employee is eligible for leave if the employee:

- (a) Has been employed for at least 12 months; and
- (b) Has been employed for at least 1,250 hours during the 12-month period immediately preceding the commencement of the leave.

Eligible employees are entitled to up to a total of 12 workweeks (or 26 weeks to care for a covered service member) of leave during any 12-month period. Where FMLA leave qualifies as both military caregiver leave and care for a family member with a serious health condition, the leave will be designated as military caregiver leave first.

If leave is requested for the birth, adoption, or foster care placement of a child of the employee, leave must be concluded within one year of the birth or placement of the child. In addition, the basic minimum duration of such leave is two weeks. However, an employee is entitled to leave for one of these purposes (e.g., bonding with a newborn) for less than two weeks duration on any two occasions.

If leave is requested to care for a child, parent, spouse, or the employee their self with a serious health condition, there is no minimum amount of leave that must be taken. However, the employee must comply with the notice and medical certification provisions of this policy.

FMLA leave, the aggregate number of workweeks of leave to which both may be entitled may be limited to 12 workweeks during any 12-month period if leave is taken for the birth or placement for adoption or foster care of the employees' child (i.e., bonding leave).

In any case in which two parents are employed by the District and are entitled to CFRA leave, each parent is individually entitled to 12 weeks of CFRA leave for bonding.

In any case in which spouses are both employed by the District are entitled to leave, the aggregate number of workweeks of leave to which both may be entitled may be limited to 26 workweeks during any 12-month period if leave is taken to care for a covered service member.

Except as noted above, these limitations do not apply to any other type of leave under this policy.

EMPLOYEE BENEFITS WHILE ON LEAVE

While on family and medical care leave, employees will continue to be covered by the District group health insurance to the same extent that coverage is provided while the employee is on the job for up to 12 weeks each leave year. If the employee is disabled by pregnancy, coverage will continue to be covered for up to 4 months (i.e. 17 and 1/3 weeks) for each pregnancy. In the event an employee is disabled by pregnancy and also uses leave under the CFRA, the District will maintain the employee's health benefits while the employee is disabled by pregnancy (up to four months or 17 and 1/3 weeks) and during the employee's CFRA leave (up to 12 weeks).

If the employee fails to return to work for at least 30 consecutive days following the expiration of leave under this policy, the employee will be required to reimburse the District for the group health insurance premiums paid for by the District on behalf of the employee during the leave, unless the employee's failure to return is caused by the continuation, recurrence, or onset of a serious health condition or circumstances beyond the employee's control. The District shall have the right to recover premiums through deduction from any sums due the District (e.g. unpaid wages, vacation pay, etc.).

SUBSTITUTION OF PAID ACCRUED LEAVES

While on leave under this policy, as set forth herein, an employee may elect to concurrently use paid accrued leaves. Similarly, the District may require an employee to

concurrently use paid accrued leaves after requesting FMLA and/or CFRA leave, and may also require an employee to use family and medical care leave concurrently with a non-FMLA/CFRA leave which is FMLA/CFRA-qualifying.

- (a) Employees Right to Use Paid Accrued Leaves Concurrently with Family Leave. Where an employee has earned or accrued paid vacation, administrative leave, compensatory time, or personal holiday leave, that paid leave may be substituted for all or part of any (otherwise) unpaid leave under this policy.

As for sick leave, an employee may elect or the District may require an employee to use accrued sick leave only if:

- (1) The leave is for the employee's own serious health condition;
or
- (2) The leave is for another reason mutually agreed upon between the District and the employee.

- (b) The District's Right to Require an Employee to Use Paid Leave When Using FMLA/CFRA Leave. Employees must exhaust their accrued leaves concurrently with FMLA/CFRA leave to the same extent that employees have the right to use their accrued leaves concurrently with FMLA/CFRA leave, with two exceptions:

- (1) Employees are required to use accrued compensatory time earned in lieu of overtime earned pursuant to the Fair Labor Standards Act; and
- (2) Employees will only be required to use sick leave concurrently with FMLA/CFRA leave if the leave is for the employee's own serious health condition or another reason mutually agreed upon between the District and the employee.

- (c) District's Right to Require an Employee to Exhaust FMLA/CFRA Leave Concurrently with Other Leaves. If an employee takes a leave of absence for any reason which is FMLA/CFRA-qualifying, the District may designate that non-FMLA/CFRA leave as running concurrently with the employee's 12-week FMLA/CFRA leave entitlement.

- (d) District's and Employee's Rights If an Employee Requests Accrued Leave, Other Than Accrued Sick Leave, Without Mentioning Either the FMLA or CFRA. If an employee requests to utilize accrued vacation leave or other accrued paid time off, other than accrued sick leave, without reference to a FMLA/CFRA-qualifying purpose, the District may not ask the employee if the leave is for a FMLA/CFRA-qualifying purpose. However, if the District denies the employee's request and the employee provides information that the requested time off is for a FMLA/CFRA-qualifying purpose, the District may inquire further into the reason for the absence. If the reason is FMLA/CFRA-qualifying, the District may require the employee to exhaust accrued leave as described above in Section C.

MEDICAL CERTIFICATION

Employees who request leave for their own serious health condition or to care for a child, parent, registered domestic partner, or spouse who has a serious health condition must provide written certification from the health care provider of the individual requiring care if requested by the District.

If the leave is requested because of the employee's own serious health condition, the certification must include a statement that the employee is unable to work at all or is unable to perform the essential functions of their position.

Employees who request leave to care for a covered service member who is a child, spouse, parent, or "next of kin" of the employee must provide written certification from a health care provider regarding the injured service member's serious injury or illness.

The first time an employee requests leave because of a qualifying exigency, the District may require the employee to provide a copy of the military member's active duty orders or other documentation issued by the military which indicates that the military member is on covered active duty or call to active duty status in a foreign country, and the dates of the military member's active duty service. A copy of new active duty orders or similar documentation shall be provided to the District if the need for leave because of a qualifying exigency arises out of a different active duty or call to active duty status of the same or a different military member.

- (a) Time to Provide a Certification. When an employee's leave is foreseeable and at least 30 days' notice has been provided, if a medical certification is requested, the employee must provide it before the leave begins. When this is not possible, the employee must provide the requested certification to the District within the time frame requested by the District (at least 15 calendar days), unless it is not practicable under the particular circumstances to do so despite the employee's diligent, good faith efforts.
- (b) Consequences for Failure to Provide an Adequate or Timely Certification. If an employee provides an incomplete medical certification, the employee will have seven calendar days to cure any such deficiency. However, if an employee fails to provide a medical certification within the seven calendar days, the District may delay the taking of FMLA/CFRA leave until the required certification is provided.
- (c) Second and Third Medical Opinions. If the District has a good faith, objective reason to doubt the validity of a certification, the District may require a medical opinion of a second health care provider chosen and paid for by the District. If the second opinion is different from the first, the District may require the opinion of a third provider jointly approved by the District and the employee, but paid for by the District. The opinion of the third provider will be binding. An employee may request a copy of the health care provider's opinions when there is a second or third medical opinion sought.
- (d) Intermittent Leave or Leave on a Reduced Leave Schedule. If an employee requests leave intermittently (a few days or hours at a time) or on a reduced leave schedule to care for an immediate family member with a serious health condition, the employee must provide medical certification that such leave is medically necessary. "Medically necessary" means there must be a medical need for the leave and that the leave can best be accomplished through an intermittent or reduced leave schedule.

EMPLOYEE NOTICE OF LEAVE

Although the District recognizes that emergencies arise which may require employees to request immediate leave, employees are required to give notice of their

need for leave as soon as is practicable. Except for qualifying exigency leave, if leave is foreseeable, at least 30 days' notice is required. In addition, if an employee knows that they will need leave in the future, but does not know the exact date(s) (e.g. for the birth of a child or to take care of a newborn), the employee shall inform their supervisor as soon as possible that such leave will be needed. If the District determines that an employee's notice is inadequate or the employee knew about the requested leave in advance of the request, the District may delay the granting of the leave until it can, in its discretion, adequately cover the position with a substitute.

For foreseeable leave due to a qualifying exigency, an employee must provide notice of the need for leave as soon as practicable, regardless of how far in advance such leave is foreseeable.

REINSTATEMENT UPON RETURN FROM LEAVE

- (a) Right to Reinstatement. Upon expiration of leave, an employee is entitled to be reinstated to the position of employment held when the leave commenced, or to an equivalent position with equivalent employment benefits, pay, and other terms and conditions of employment. Employees have no greater rights to reinstatement, benefits, and other conditions of employment than if the employee had been continuously employed during the FMLA/CFRA period.
- (b) Employee's Obligation to Periodically Report on Their Condition. Employees may be required to periodically report on their status and intent to return to work. This will avoid any delays to reinstatement when the employee is ready to return.
- (c) Fitness-for-Duty Certification. As a condition of reinstatement of an employee whose leave was due to the employee's own serious health condition, which made the employee unable to perform their job, the employee must obtain and present a fitness-for-duty certification from the health care provider that the employee is able to resume work. Failure to provide such certification will result in denial of reinstatement.
- (d) Reinstatement of "Key Employees." The District may, following FMLA leave

only, deny reinstatement to a “key” employee (i.e., an employee who is among the highest paid 10 percent of all employed by the District within 75 miles of the work site) if such denial is necessary to prevent substantial and grievous economic injury to the operations of the District, and the employee is notified of the District’s intent to deny reinstatement on such basis at the time the District determines that such injury would occur.

REQUIRED FORMS

Employees must fill out the following applicable forms in connection with leave under this policy:

- (a) “Request for Family or Medical Leave Form” prepared by the District to be eligible for leave. NOTE: EMPLOYEES WILL RECEIVE A DISTRICT RESPONSE TO THEIR REQUEST WHICH WILL SET FORTH CERTAIN CONDITIONS OF THE LEAVE.
- (b) Medical certification – either for the employee’s own serious health condition or for the serious health condition of a child, parent, spouse, or domestic partner.
- (c) Authorization for payroll deductions for benefit plan coverage continuation.
- (d) Fitness-for-duty to return from Leave form.

3-4.408 PREGNANCY DISABILITY LEAVE (PDL)

In accordance with the California Fair Employment and Housing Act, employees may request an unpaid leave of absence if disabled by pregnancy, childbirth, or a related medical condition. If absence for two weeks or more is expected, the employee must request a leave of absence. An employee who requires a pregnancy disability leave must submit a Pregnancy Disability Leave Form, indicating the date on which the leave will commence and the estimated duration of the leave. The District shall require a written medical certification from the employee’s health care provider indicating: 1) the date of disability due to pregnancy; (2) the probable duration of the of the period of disability; and (3) a statement that the employee is unable to perform one or more of the essential functions of her position without undue risk to herself, successful completion of her pregnancy, or to others.

An employee who is disabled because of pregnancy, childbirth, or a related medical condition is entitled to an unpaid leave for up to the number of hours she would normally work within four calendar months (one-third of a year or 17 1/3 weeks). For a full-time employee who works 40 hours per week, "four months" means 693 hours of leave entitlement, based on 40 hour per week times 17 1/3 weeks. An employee who works less than 40 hours per week will receive a pro rata or proportional amount of leave. Leave does not have to be taken in one continuous period of time but can be taken on an as-needed basis.

During an unpaid leave under this policy, an employee shall not accrue service time. An employee who is disabled by pregnancy may be transferred to a less strenuous or hazardous position or receive reasonable accommodation for conditions related to pregnancy, childbirth, or related medical conditions if requested with the advice of the employee's health care provider.

An employee may be required to use or may elect to use any accrued sick leave during pregnancy disability leave. An employee may elect to use any accrued vacation time during the pregnancy disability leave. The use of paid leave time shall not extend the period of approved pregnancy leave.

An employee on pregnancy disability leave may continue to receive any group health insurance coverage that was provided before her leave, beginning on the date the pregnancy disability leave begins and continuing for up to four months in a 12-month period, at the same level and under the same conditions that coverage would have been provided if the employee had continued in employment continuously for the duration of the leave. The District may recover premiums it paid to maintain health coverage, if an employee does not return to work following pregnancy disability leave, unless the reason for the failure to return is a circumstance beyond her control or the use of the separate right to 12 weeks of bonding leave under the California Family and Medical Leave Act.

Upon the expiration of pregnancy leave, the employee will be reinstated to her original or a comparable position, so long as it was not eliminated for a legitimate business reason during the leave. If the employee's original position is no longer available, the employee will be assigned to a comparable, open position. If upon return from leave an employee is unable to perform the essential functions of her job because of a physical or

mental disability, the District will initiate an interactive process with the employee in order to identify a potential reasonable accommodation.

The FMLA, CFRA, and PDL will be coordinated in accordance with legal requirements.

3-4.409 FITNESS FOR DUTY

The District has the right to determine the physical and mental fitness of an employee to perform the duties of their job. Accordingly, the General Manager may require medical and/or psychological assessments of an employee. The District shall provide payment for such assessment(s), provide the time off with pay for such assessment(s), and have the ability to require the employee to fully cooperate with scheduled appointments or be subject to disciplinary action up to and including termination. Medical assessments are confidential management documents and shall be maintained separate and apart from all other personnel records with access limited to the General Manager and the Manager of Human Resources Manager.

Upon receipt of the Fitness for Duty report, the District will enter the Interactive Process in accordance with Section 3.6-202.

3-4.410 MEDICAL OFF-WORK / RETURN TO WORK CERTIFICATION

The District reserves the right to request a Medical Certification in the event of employee's own illness and/or injury, as well as a Medical Return to Work Order upon the employee's return.

To assist employees in returning to work as soon as possible, the District will strive to accommodate medical work restrictions and/or provide a light duty assignment, if available. In the event of a work-related illness or injury, the District will direct the employee to the appropriate treating physician and will make every effort to provide work within the employee's medical restrictions.

3-4.411 BEREAVEMENT LEAVE

Employees may take a paid leave of absence not to exceed ten working days for the death in the immediate family of the employee.

Immediate family of the employee includes:

- (a) spouse/registered domestic partner
- (b) child (including a biological, adopted, or foster child, stepchild, legal ward, or a child to whom the employee stands in loco parentis.)
- (c) parent (including biological, adoptive, or foster parent, stepparent, or legal guardian of an employee or the employee's spouse or registered domestic partner, or a person who stood in loco parentis when the employee was a minor child.)
- (d) grandparent
- (e) grandchild
- (f) mother-in-law/father-in-law
- (g) son-in-law/daughter-in-law
- (h) brother or sister
- (i) brother-in law/sister-in-law
- (j) nephew/niece
- (k) registered domestic partner's brother or sister
- (l) any relative living in the immediate household of the employee

Leave need not be taken in consecutive days, but shall be taken within four weeks of the date of death, with the exception of extenuating circumstances, as approved by the General Manager. The employee must indicate on their timesheet under comments their relationship with the deceased. The General Manager may grant additional time, but the time must be charged against the employee's leave benefits.

3-4.412 REPRODUCTIVE LOSS EVENT

All employees who have been employed for the District for at least 30 days are entitled to take up to 20 days of leave per occurrence, comprised of 10 days of paid leave, and for the remaining 10 days, the employee may choose to use any accumulative leave balances or time off without pay. Such leave must be taken within three (3) months of the reproductive loss event.

A reproductive loss event is defined as failed adoption, failed surrogacy, miscarriage, stillbirth, or unsuccessful assisted reproduction. If the employee would have been recognized as a parent if the aforementioned events were successful, the employee will

be covered under this definition. This includes the employee, the employee's current spouse or domestic partner, or another individual if the person would have been a parent of a child as a result of the event.

3-4.413 LEAVE OF ABSENCE

An employee must submit a prior written request to the District's General Manager and Human Resources for any leave of absence without pay, or for paid absences of more than one month, indicating the date on which the leave will begin, reason for requesting the leave, and the anticipated date of return to work.

The General Manager shall have authority to grant a personal leave of absence when such leave is in the best interest of the District. Such leaves may be granted to individuals medically incapacitated to perform job duties, to seek higher education, or for a reason judged valid by the General Manager.

Employees on a leave without pay status shall cease to accrue benefits including seniority/CalPERS Service Credit, vacation leave and sick leave, and shall not receive holiday pay. Employees shall be extended the opportunity to continue their healthcare coverage under COBRA. However, if such leave is due to medical reasons, reference Section 3-4.213 (Disability Insurance) and Section 3-4.406 (Family and Medical Care Leave), as it pertains to continuation of District paid health premiums and benefits.

An employee who is a victim of a crime (i.e., violent or serious felony, felony theft or felony embezzlement) may be absent from work, using their accrued leave, in order to attend judicial proceedings related to the crime.

3-4.414 POLITICAL LEAVE

Any employee who is a declared candidate for public office shall have the right to an unpaid leave of absence to campaign for office for a reasonable period as determined by the General Manager. Such leave is subject to the conditions governing leaves of absence in Section 3-4.410.

3-4.415 JURY DUTY LEAVE

The District recognizes serving on a jury is a responsibility of every citizen and

encourages employees to serve when called. Employees called for jury duty—should request a postponement, if necessary, so jury service can be performed during a period causing the least inconvenience to the District. Upon receipt of the Notice of Jury Duty an employee will immediately notify the Department Manager. Employees serving on jury duty will be paid their regular salary from the District. Employees must provide proof of jury service documentation to Human Resources including remittance of jury fees, exclusive of mileage reimbursement. If an employee serves less than a full day of jury duty, the employee is required to report to work if there are at least four hours, including travel time, remaining in the employee's scheduled work day. While serving on jury duty, employees must contact their supervisor daily regarding their jury duty status. There will not be any additional compensation or compensated time for jury service on an employee's 9/80 scheduled day off.

3-4.416 WITNESS LEAVE

Employees shall be entitled to a leave of absence from work when subpoenaed to testify as a witness, if issued by a court, agency or commission legally empowered to subpoena witnesses. Witness leave shall be charged against accrued leave balances. While serving on witness duty, employees must contact their supervisor daily regarding their witness duty status.

Employees called to testify as a witness on behalf of the District are not required to use their accrued leave balances as such time is considered work time.

3-4.417 BLOOD DONATION LEAVE

Employees who donate blood may receive up to two hours off with pay with prior approval from the Department Manager and proof of such donation. Those employees who are aphaeresis donors may have up to four hours off under the same circumstances.

3-4.418 MILITARY LEAVE

In accordance with the applicable state and federal law, a District employee may be entitled to the following rights concerning military leave:

- (a) Temporary Duty: Any employee who is a member of the reserve corps of

the Armed Forces, National Guard or Naval Militia shall be entitled to temporary military leave of absence for the purpose of active military training provided that the period of ordered duty does not exceed 180 calendar days, including the time involved in going and returning from such duty.

While on paid status, an employee on temporary military leave shall receive the same vacation, holiday and sick leave and salary advances that would have been accrued had the employee not been absent, providing such employee has been employed by the District for at least one year immediately prior to the date such leave begins. In determining the one-year employment requirement, all time spent in recognized military service shall be counted. An exception to the above is that an uncompleted probationary period must be completed upon return to the job. An employee meeting the above one-year employment requirement shall be entitled to receive their regular salary or compensation for the first 30 calendar days in any one fiscal year and shall be paid only for the employee's regularly scheduled workdays.

The compensation provisions do not include an employee's attendance at weekend reserve meetings or drills. Employees must use their own time to attend such meetings. Should the meetings unavoidably conflict with an employee's regular working hours, the employee is required to use vacation or holiday leave, leave without pay, or make up the time. The 30 calendar days compensation provisions also apply to an employee on military leave other than temporary military, who is ordered into active military duty or is inducted, enlists, enters, or is otherwise called into active military duty. A copy of military orders must accompany the request for such leave.

- (b) Active Duty: Employees who resign from their positions to serve in the Armed Forces of the United States or of this State, shall have a right of return to their former classifications, subject to physical and psychological examinations, on serving written notice to the General Manager within six

months of the termination of their active service with the Armed Forces; provided that such right to return to former classifications shall not be granted to employees who fail to return to their position within twelve months after the first date upon which they could terminate their active service with the Armed Forces.

If the employee's former classification has been abolished, the employee shall be entitled to a classification of comparable functions, duties and compensation if such classification exists or to a comparable vacant position for which the employee is qualified. The right to return to a former classification shall include the right to be restored to such status as the employee would have had if the employee had not resigned. The employee will not accrue vacation, sick leave or other benefits while absent from District employment, except as provided in the temporary duty provision. A copy of the employee's military orders must accompany the request for return to the former classification.

3-4.419 PAID TIME-OFF DONATION LEAVE

Employees are allowed, subject to the conditions set forth below, to donate earned vacation, sick or personal holiday hours to other employees for prolonged absences from work due to the other employee's serious injury or prolonged illness. Serious injury or prolonged illness means an injury or illness that is expected to incapacitate the employee for an extended period of time.

In extreme cases of hardship, the General Manager may approve donations of vacation, sick or personal holiday hours to an employee whose absence from work is caused by the necessity to care for an immediate family member who has a serious injury or prolonged illness and who lives in the home of the employee or is directly and intimately dependent upon the employee for daily care giving. In such cases, the intent of this provision is not to provide the employee with time off to visit with the family member or serve the conveniences of the family member, but rather, to provide direct care and sustenance to that family member precipitated by the medical condition.

Such donations of paid time off may be permitted under the following conditions:

- (a) The General Manager must approve, in advance, the donation and receipt of vacation/sick/personal holiday hours.
- (b) Any eligible employee wishing to receive such donations (hereinafter referred to as the “receiving employee”) must complete the Request for Paid Time Off Donation form, in addition to the Notice and Request for Family/Medical Care Leave form. Both forms must be signed by the employee and approved by the General Manager. A “receiving employee” shall only be eligible for receipt of donations of time as described in this Section if:
 - (1) The employee is eligible to receive health and dental benefits from the District (certain part-time employees and at-will employees who do not receive benefits are not eligible for receipt of donated time).
 - (2) The employee would otherwise be eligible for receipt of their accrued leave balances but who, due to a serious injury or prolonged illness of himself or herself, or of a family member as approved by the General Manager, has exhausted, or is about to exhaust (within one week), their accrued leave balances.
- (c) Upon approval of an employee’s request for donated time, Human Resources may, if requested to do so by the employee, post a notice of the need for leave donations for the affected employee.
- (d) Any employee who wishes to donate any of their accrued leave balances to an employee whose request for such donated time has been approved (hereinafter referred to as the “donating employee”) must complete the Authorization for Paid Time Off Donation Form. This form must be signed by the donating employee and submitted to Human Resources for approval.
- (e) Only accrued leave balances may be donated. Donations are entirely voluntary and time is to be donated in whole hour increments.
- (f) The donated hours will be credited to the receiving employee on an hour-

for-hour basis regardless of the pay rate of the donating employee.

- (1) To be eligible, the receiving employee must have exhausted all paid leave, or will foreseeably exhaust all such time (within one week).
 - (2) Donations of such hours are irrevocable by the donating employee. Any donated time remaining at the end of the employee's leave of absence due to the serious injury or prolonged illness is for the sole use of the employee to whom the donation was made. A receiving employee shall accumulate hours of donated time on an as-needed basis, so that there is not an accumulation of hours beyond what is needed by the receiving employee. Donated hours shall be held by Human Resources and not credited to the receiving employee until all sick and vacation time and other leave bank hours have been used and the receiving employee is in need of the hours donated. If donations are made in excess of 160 hours, the donating employees shall be informed that no more hours are being accepted, but acknowledging the generosity of the donating employees.
 - (3) Employees shall not earn sick or vacation accruals off of the donated hours when used.
- (g) Donated hours shall not be intermingled with earned vacation, sick or personal holiday hours, or any other leave bank time of the receiving employee. The Human Resources and Finance Department shall keep a separate account of the time donated or received.

Approval of paid time off donations is not subject to dispute/appeal.

3-4.420 VOTING LEAVE

Pursuant to the provisions of the elections code of the state of California, employees who are voters and who do not have sufficient time, outside working hours, to cast their ballots may take time off from work to vote. Although the employee is entitled

to take as much time off as is sufficient to cast their ballot, only two hours of actual working time will be compensated. If the employee on the third working day prior to the day of election knows or has reason to believe that time off will be necessary to be able to vote on election day, the employee shall give the District at least two working days' notice that time off for voting is desired. Absent such notice, the request may be denied.

CHAPTER 5. DISTRICT POLICIES¹

ARTICLE 1. DRUGS AND ALCOHOL

3-5.101 DRUGS AND ALCOHOL TESTING

Pursuant to this policy, the District reserves the right to test employees, using appropriate testing procedures, for improper drug or alcohol usage. Access to test results is governed by statute.

3-5.102 DRUG AND ALCOHOL USE

The District does not tolerate the sale, possession, distribution, use or being under the influence of alcohol or illegal drugs at any time while at work on District premises or at other District work locations, or while performing District-related business elsewhere. Alcohol consumption may be permitted during specified social occasions and District events, but employees must not consume such amounts as to impair their senses, coordination, or judgment.

The District prohibits any employee from reporting to or working while under the influence of any prescribed drug or medication which may impair the employee's ability to perform their job duties safely and productively or which may otherwise impair their senses, coordination, or judgment. Any employee taking or reporting to work under the influence of any prescribed drug or other medication that adversely affects the employee's ability to perform work in a safe, productive, or efficient manner must advise the Manager of Human Resources prior to starting work. Management will consult with the employee in determining whether a reasonable accommodation of the employee's needs is appropriate or available.

Compliance with this policy is a condition of District employment. Accordingly, a violation of this policy could result in immediate disciplinary action, up to and including termination. If unlawful activity is suspected, the District will notify the appropriate law enforcement authorities.

If there is reasonable suspicion of drug or alcohol use which impacts the employee's performance, behavior, or safety on the job, the District reserves the right to require the employee to undergo testing, and to consent to have the test results released

to the District. An employee who refuses to take a drug test will be subject to immediate termination.

An employee who tests positive on a drug or alcohol test will be subject to disciplinary action up to and including termination.

- (a) Pre-employment Testing. As a pre-qualification to assuming any position involving the use of a District/personal vehicle or District equipment in the field, or involving any contact with children, prospective employees who have received and accepted a conditional offer of employment are required to provide a body substance sample (saliva, blood, or urine) for drug testing. This occurs in conjunction with the pre-employment medical examination.
- (b) Fitness for Duty or Reasonable Suspicion Testing. Employees whose duties involve wells, operation of heavy or potentially dangerous equipment or vehicles or work with children, may be referred for drug and alcohol testing if significant and observable changes in employee performance, appearance, behavior, or speech at work provide reasonable suspicion of being under the influence of drugs and/or alcohol. If such reasonable suspicion exists, the employee will be referred to a medical professional for a fitness for duty evaluation. The medical professional will evaluate the employee, and based on the evaluation, determine whether a test for drugs and/or alcohol shall be administered. A test for alcohol will only be administered on those employees for whom there is a reasonable suspicion of intoxication while performing safety sensitive functions or immediately before performance of safety sensitive functions. For such employees, the test will be performed within two (2) hours of the reasonable suspicion of intoxication with alcohol (or within eight (8) hours with a documented explanation as to why the test was not performed earlier). Employees should not consume drugs or alcohol while awaiting such tests.
- (c) Post-Accident Testing. Testing may be required when an accident occurs during a work shift, the nature of which creates reasonable suspicion of impairment of ability or judgment due to alcohol or drugs. Post-accident alcohol tests shall be administered within two (2) hours following an

accident or within eight (8) hours with a written documentation as to the reason it was not conducted earlier. A post-accident drug test shall be administered within thirty-two (32) hours following an accident. Therefore, employees involved in an accident shall not consume drugs and alcohol during the applicable window of time until the test is completed.

An "accident" is defined as an incident involving a vehicle where, as a result of damage: (i) a vehicle must be transported away from the site of the accident, or (ii) a vehicle cannot depart from the site in its usual manner without some repair and/or maintenance, or (iii) a vehicle can depart from the site in its usual manner but will later require some repair and/or maintenance for safe operation, and/or (iv) bodily injury occurs to the driver and/or another individual(s): which requires medical attention to said driver and/or another individual, and/or which results in death.

- (d) Notification of Conviction of Employee Required. Employees must notify their supervisor of any conviction under a criminal drug statute within five (5) days of the conviction. Disciplinary action shall not be taken based solely on the arrest. However, disciplinary action may be taken based on the failure to notify District of the conviction.
- (e) Testing Process.
- (1) The District will make every effort to protect the confidentiality of drug and/or alcohol test results.
 - (2) Non-compliance with a supervisor's/manager's request to submit to a fitness for duty test and/or drug or alcohol test under these policies, noncompliance with a supervisor's/manager's request that the employee leave the work area or any other reasonable request designed to safeguard the quality of care, the working environment and/or safety of the workplace, the employees or the public, is viewed as insubordination and is subject to appropriate disciplinary action.
 - (3) Employees who voluntarily self-disclose and request assistance or leave for treatment of alcohol and/or drug dependency may be

granted leave. District will give such employees information about Employee Assistance Programs. District is not required to grant leave for current users of illegal drugs who are not seeking treatment.

- (5) Violation of this policy may lead to corrective action, up to and including immediate termination of employment. Such violation may also have legal consequences.
- (6) All test results will be reviewed by an appropriate licensed medical professional using sensitive accurate methodology to avoid false positive results and to ensure any positive results were not caused by legitimate use of prescription medication. - (7) Test results are not revealed to outside agencies or employees unless required by law or legal process including licensing agencies, unless the information is placed at issue in a formal dispute between the employer and employee, to the extent necessary to administer an employee benefit plan (such as a health insurance plan), or where the information is needed by medical personnel to treat an employee during an emergency when the employee is unable to authorize disclosure. Employees are prohibited from participating in political activities of any kind while in a District uniform or other District-issued clothing.

ARTICLE 5. CREDIT CARD USAGE POLICY

3-5.501 CREDIT CARD USAGE

The General Manager or their designee shall determine which employees are eligible for a District credit card. The following guidelines establish the District's policies and procedures for using District issued credit cards when making minor supply and service purchases on behalf of the District, and paying for travel expenses while travelling for District business.

- (a) The District credit card assigned to the employee will have the employee's name and West Basin MWD embossed on the card. Authorization to use this card is exclusive to the assigned individual employee only. Use of the card may be delegated to staff within the same department of the assigned employee pursuant to department manager's approval. The card may only be used for official District business only and may not be used for any personal purchases. Unauthorized purchases made with the card may result in immediate and permanent cancellation of the employee's card and discipline up to and including termination.
- (b) Prior to receiving a credit card, the employee must sign a "West Basin MWD" Credit Card Cardholder Agreement" form. In signing this form, the employee acknowledges:
 - (1) Receipt of the card,
 - (2) The credit limit; and
 - (3) An understanding of the rules/procedures of the West Basin MWD credit card policy.
- (c) The credit card shall only be used for authorized District purchases. All personnel with access to the District credit card shall exercise good judgment in the use and stewardship of the District resources, and all purchasing functions shall be conducted with absolute integrity and objectivity. Purchases are subject to public scrutiny; employees shall follow a strict rule of personal conduct that will not compromise the District in the conduct of its business. Any employee intentionally and/or repeatedly

making purchases in a manner that circumvents, ignores, or fails to comply with the Districts Procurement Policies will be subject to disciplinary action. The card may not be used to purchase items deemed excluded purchases by the District (see "EXCLUDED PURCHASES"). With the exception of purchases related to District-related travel, training, or conferences, a single purchase transaction may be comprised of multiple items, but the total of the transaction including tax and shipping cannot exceed the threshold set forth in the Administrative Code section 5-1.104, (b). Any transactions over the set amount set forth in section 5-1.104, (b) must go through the PO Requisition process. All District purchasing policies and procedures apply to credit card purchases. The employee shall ensure that sufficient funds are available in the Department's budget before making any purchases. The department manager can assist in verifying that funds are available. If an emergency arises, which necessitates exceeding the maximum purchase limit established for the credit card, the employee must contact the Finance Department in order to increase the limit. Purchases must not be split to circumvent these credit card usage guidelines.

- (d) For transactions that exceed the authorized amount for procurement of goods may be processed through Accounts Payable. Employees should make their best efforts to process the transactions through Accounts Payable as opposed to using the credit card.
- (e) Employees must be able to explain the District-related purpose and necessity of all purchases made with the credit card. If the District determines that a purchase did not have a District-related purpose or that the purchase was unnecessary, the employee may be subject to discipline up to and including termination.
- (f) Any questions the employee may have regarding the credit card account such as account balance, a lost or stolen card, or the reason why a transaction was declined should be directed to the credit card administrator. If the employee does not receive the credit card monthly statement in a timely manner, the employee shall contact the credit card provider and

request the statement.

3-5.502 EXCLUDED PURCHASES

- (a) The District credit card shall not be used for:

- (b) If any personal charges are inadvertently charged to the District credit card, the employee shall include a check made payable to the District in an amount for the inadvertent charge at the same time the employee presents the credit card statement to the Finance Department for payment. Employees should make their best efforts to avoid inadvertent personal charges. Frequent inadvertent personal charges may jeopardize the employee's future use of a District credit card.
- (c) The credit card shall not be used for cash advances or purchases of items carried in inventory unless out of stock.

3-5.503 STATEMENT PROCEDURES

Upon receipt of their monthly credit card statement, the employee is required to review and attest to the accuracy of the statement and forward it along with all receipts to Accounts Payable within 10 calendar days of receipt. The department manager will be responsible for any cardholder on leave or travel to ensure that their statement is reviewed and all appropriate receipts affixed.

If the department manager determines a purchase was not necessary or not related to District business, the department manager shall direct the employee to attempt to return the purchased item(s) for credit. If credit is received for the purchase, the employee must provide evidence to the department manager that the District received credit for the return.

3-5.504 DISPUTES

If an item received through a purchase made with the credit card is defective or not the correct item purchased, the employee is responsible to attempt to return the item to the merchant for replacement or to request a credit on the purchase. If the merchant refuses to replace or correct the faulty item, or issue a credit, then the purchase of this item will be considered to be in dispute and will not be paid by the Finance Department until the dispute has been resolved with the credit card company.

3-5.505 FRAUDULENT CHARGES

If the employee has reason to believe that the credit card has been fraudulently used, the employee must immediately contact the Finance Department, who will handle the matter directly with the credit card company.

3-5.506 SEPARATION OF EMPLOYMENT

Credit cards are issued to individual employees. If an employee separates from District employment, their card must be forwarded to the Finance Department prior to the employee's separation in order to cancel the account and destroy the card and all receipt for items purchased but not yet paid for must be provided.

Should any employee lose or have their credit card stolen, it is the employee's responsibility to immediately contact the credit card company. In addition, the employee must notify the Finance Department within one (1) working day after discovering that the card was lost or stolen. When appropriate, the District shall issue a replacement credit card to the employee.

ARTICLE 6. SOCIAL MEDIA POLICY

3-5.601 SOCIAL MEDIA

The District understands that its employees use social media sites to share events in their lives, to communicate, and to discuss their opinions with others, including family, friends and co-workers. However, the use of social media may present certain risks and carries with it certain responsibilities. To assist employees in making responsible decisions about their use of social media, the District has established this policy and guidelines for appropriate use of social media.

In the rapidly expanding world of electronic communication, social media can mean many things. In general, social media encompasses the various activities that integrate technology, social interaction, and content creation. Through social media, individuals can create Web content, can organize, edit, or comment on content, as well as combine and share content on their own web site or on someone else's. Social media uses many technologies and forms, including Web feeds, blogs, wikis, photography and video sharing, web logs, journals, diaries, chat rooms, bulletin boards, affinity web sites, podcasts, social networking, fan sites, mashups, and virtual worlds.

(a) Understand Your Rights and Responsibilities in using Social Media Technology

- (1) Use good and ethical judgment. To the extent your social media use impacts District employees, customers, and vendors, follow District policies and regulations as applicable, including but not limited to those that protect individual privacy rights, anti-discrimination, retaliation, and harassment policies, the anti-workplace violence policy and other relevant District policies. Employees must avoid social media use that reasonably could be viewed as malicious, obscene, or threatening or that might constitute harassment or bullying toward other District employees, customers, and vendors. Examples of such conduct might include offensive posts that could contribute to a hostile work environment on the basis of race,

religious creed, color, national origin, ancestry, physical or mental disability, medical condition, genetic information, marital status, sex, gender, gender identity, gender expression, age, sexual orientation or any other status protected by law or District policy. Examples of threatening conduct include posting material that would make a reasonable person afraid for their safety or the safety of their family.

- (2) If the employee's conduct adversely affects their job performance; the performance of their co-workers; is detrimental to the mission and function of the District; or otherwise adversely affects members of the public served by the District, the District may take disciplinary action against the employee up to and including termination.
- (3) Employees are more likely to resolve work-related complaints by speaking directly with their co-workers or via other channels such as speaking with the Human Resources Department, or by filing an internal complaint or grievance, if applicable.
- (4) Employee shall strive for accuracy and full disclosure in any blog or post, include a link to the sources of information, and if the employee makes a mistake, correct the information, or retract it promptly. All employees are welcomed to follow the District's official media channels. However, we ask all employees to refrain from providing information to the community as a representative of the District through any media channels unless you have express authorization to do so. We further encourage employees who wish to post about the District to re-publish or re-share posts as they appear in the District's official media channels.
- (5) Employee shall not post any information or rumors that they know to be false about the District, their coworkers, or people working on behalf of the District.
- (6) Employee shall not disclose information that may violate the District or employee rights. For example, do not disclose another employee's social security number, medical information or financial information

in a manner that violates that person's rights.

- (7) If the employee prefers to keep their personal life separate from their professional or work life, use privacy settings to restrict personal information on public sites. The employee should also consider who they invite or accept to join their social network as those individuals will have access to the employee's profile, photographs, etc.
- (8) This policy is not intended to, and will not be applied to improperly restrict employees from engaging in concerted activity, including discussing their wages, hours and working conditions with other employees.

(b) Using Social Media at Work

- (1) Employees shall not use the District's electronic communication resources or work time for personal social media use.
- (2) Employee shall not use District email addresses to register on social networks, blogs or other online tools utilized for personal use.

(c) Media Contacts

Employees shall not speak to the media on the District's behalf without notifying the General Manager and Manager of Communications. All media inquiries should be directed to the General Manager and Manager of Communications.

- (b) Discrimination – This policy prohibits treating individuals differently because of the individual's actual or perceived protected classification as defined in this Policy. (Gov. Code § 12926(o).)
- (c) Harassment – Harassment includes, but is not limited to, the following types of behavior that is taken because of a person's actual or perceived protected classification:
- (1) Speech, such as epithets, derogatory comments, or slurs, and propositioning on the basis of a protected classification. This includes inappropriate comments about appearance, dress, or physical features, conduct inconsistent with gender identification, or race-oriented stories and jokes.
 - (2) Physical acts, such as assault, impeding or blocking movement, offensive touching, or physical interference with normal work or movement. This includes pinching, grabbing, patting, propositioning, leering, or making explicit or implied job threats or promises in return for submission to physical acts.
 - (3) Visual acts, such as derogatory posters, cartoons, emails, pictures, or drawings related to a protected classification.
 - (4) Unwanted sexual advances, requests for sexual favors and other acts of a sexual nature, where submission is made a term or condition of employment, where submission to or rejection of the conduct is used as the basis for employment decisions, or where the conduct is intended to or actually does unreasonably interfere with an individual's work performance or create an intimidating, hostile, or offensive working environment. (Gov. Code §12940(j); 2 Cal.Code

Regs § 11091(b)(1).) A single incident of harassing conduct can constitute harassment.

3-6.104 GUIDELINES FOR IDENTIFYING HARASSMENT

Harassment includes any conduct which would be unwelcome or unwanted to an individual of the recipient's same protected classification. Use the following guidelines to determine if conduct is unwelcome or unwanted:

- (a) It is no defense that the recipient appears to have "consented" to the conduct at issue. A recipient may not protest for many legitimate reasons, including the need to avoid being insubordinate or to avoid being ostracized.
- (b) Simply because no one has complained about a joke, gesture, picture, physical contact, or comment does not mean that the conduct is welcome. Harassment can evolve over time. Small, isolated incidents might be tolerated up to a point. The fact that no one is complaining now does not preclude anyone from complaining if the conduct is repeated in the future.
- (c) Even visual, verbal, or physical conduct between two people who appear to welcome the conduct can constitute harassment of a third person who observes the conduct or learns about the conduct later. Conduct can constitute harassment even if it is not explicitly or specifically directed at an individual.
- (d) Conduct can constitute harassment in violation of this Policy even if the individual has no intention to harass. Even well-intentioned conduct can violate this Policy if the conduct is directed at, or implicates a protected classification, and if an individual of the recipient's same protected classification would find it offensive (e.g., gifts, over attention, endearing nicknames).

3-6.105 RETALIATION

Any adverse conduct taken because a covered individual has opposed harassment or discrimination, or has participated in the complaint and investigation process described herein. "Adverse conduct" includes but is not limited to: taking sides

because an individual has reported harassment or discrimination, spreading rumors about a complaint, shunning, and avoiding an individual who reports harassment or discrimination, or real or implied threats of intimidation to prevent an individual from reporting harassment or discrimination.

3-6.106 COMPLAINT PROCEDURE

A covered individual who believes they have been harassed may make a complaint -- verbally or in writing -- to any supervisor, manager, or department head, without regard to any chain of command. Any supervisory or management employee who receives a harassment complaint should immediately notify the Manager of Human Resources. Upon receiving notification of a harassment complaint, the Manager of Human Resources will complete and/or delegate the following steps. If the Manager of Human Resources is accused or a witness to the events at issue, an individual with higher authority will complete and/or delegate the following steps.

- (a) Authorize and supervise the investigation of the complaint and/or investigate the complaint. The investigation will include interviews with:
 - (1) the complainant;
 - (2) the accused; and
 - (3) other persons who have relevant knowledge concerning the allegations in the complaint
- (b) Review the factual information gathered through the investigation to determine whether the alleged conduct constitutes harassment, discrimination, or retaliation giving consideration to all factual information, the totality of the circumstances, including the nature of the conduct, and the context in which the alleged incidents occurred.
- (c) Report a summary of the determination as to whether this policy has been violated to appropriate persons, including the complainant, the alleged wrongdoer, the supervisor, and the department head. If discipline or sanctions are imposed, the level of discipline or sanctions will not be communicated to the complainant.
- (d) If conduct in violation of this policy occurred, take or recommend to the

appointing authority prompt and effective remedial action. The remedial action will be commensurate with the severity of the offense.

- (e) Take reasonable steps to protect the complainant from further harassment, discrimination, or retaliation.

3-6.107 PROACTIVE APPROACH

The District takes a proactive approach to potential policy violations and will conduct an investigation if its supervisory or management employees become aware that harassment, discrimination, or retaliation may be occurring, regardless of whether the recipient or third party reports a potential violation.

3-6.108 OPTION TO REPORT TO OUTSIDE ADMINISTRATIVE AGENCIES

An individual has the option to report harassment, discrimination, or retaliation to the U.S. Equal Employment Opportunity Commission (EEOC) or the California Department of Fair Employment and Housing (DFEH). These administrative agencies offer legal remedies and a complaint process. The nearest offices are listed in the government section of the telephone book or employees can check the posters that are located on the District's bulletin boards for office locations and telephone numbers.

3-6.109 CONFIDENTIALITY

Every effort will be made to assure the confidentiality of complaints made under this policy. Complete confidentiality cannot occur, however, due to the need to fully investigate and the duty to take effective remedial action. As a result, confidentiality will be maintained to the extent possible. An employee who is interviewed during the course of an investigation is prohibited from attempting to influence any potential witness while the investigation is ongoing. An employee may discuss their interview with a designated representative. The District will not disclose a completed investigation report except as it deems necessary to support a disciplinary action, to take remedial action, to defend itself in adversarial proceedings, or to comply with the law or court order.

3-6.110 RESPONSIBILITIES

- (a) Each non-manager or non-supervisor is responsible for:
- (1) Treating all individuals in the workplace or on worksites with respect and consideration.
 - (2) Modeling behavior that conforms to this policy.
 - (3) Participating in periodic training.
 - (4) Fully cooperating with the District's investigations by responding fully and truthfully to all questions posed during the investigation.
 - (5) Taking no actions to influence any potential witness while the investigation is ongoing.
 - (6) Reporting any act they believe in good faith constitutes harassment, discrimination, or retaliation as defined in this policy, to their immediate supervisor, or department head, or the Manager of Human Resources
- (b) In addition to the responsibilities listed above, each manager and supervisor is responsible for:
- (1) Informing employees of this policy.
 - (2) Taking all steps necessary to prevent harassment, discrimination, or retaliation from occurring, including monitoring the work environment and taking immediate appropriate action to stop potential violations, such as removing inappropriate pictures or correcting inappropriate language.
 - (3) Receiving complaints in a fair and serious manner, and documenting steps taken to resolve complaints.
 - (4) Following up with those who have complained to ensure that the behavior has stopped and that there are no reprisals.
 - (5) Informing those who complain of harassment or discrimination of their option to contact the EEOC or DFEH regarding alleged policy violations.
 - (6) Assisting, advising, or consulting with employees and the Manager of Human Resources regarding this policy and complaint procedure.

- (7) Assisting in the investigation of complaints involving employee(s) in their departments and, if the complaint is substantiated, recommending appropriate corrective or disciplinary action in accordance with these policies, up to and including discharge.
- (8) Implementing appropriate disciplinary and remedial actions.
- (9) Reporting potential violations of this policy of which they become aware, regardless of whether a complaint has been submitted.
- (10) Participating in periodic training and scheduling employees for training.

ARTICLE 2. REASONABLE ACCOMMODATION AND INTERACTIVE PROCESS FOR DISABILITIES PROCEDURE

3.6-201 PURPOSE

The District may require that prior to and after appointment employees be subject to physical and/or psychological examinations. Such examinations shall be performed by a physician stipulated by the District and shall be at the District's expense.

3.6-202 EMPLOYEES PHYSICALLY OR PSYCHOLOGICALLY DISABLED

This section shall apply to all employees. No employee shall hold any position in a class where they are physically or psychologically unable to perform the essential duties of such position, with or without reasonable accommodation if disabled, and/or without threat to the health or safety of self or others.

3.6-203 DISABILITY DISCRIMINATION/REASONABLE ACCOMMODATION POLICY

This section shall apply to all employees. Discrimination based on disability directed at an applicant for employment or a current employee who is otherwise qualified for the position is prohibited. The District provides employment-related reasonable accommodations to qualified individuals with disabilities within the meaning of the California Fair Employment and Housing Act and the Americans with Disabilities Act.

An employee who engages in discrimination against another employee with a disability is subject to disciplinary action, up to and including termination.

This policy applies to the job application and examination processes and to all terms and conditions of employment including, but not limited to, hiring, placement, promotion, disciplinary action, layoff, recall, transfer, leave of absence, compensation, and training.

The prohibitions include:

- (a) Limiting, segregating, or classifying a job applicant or employee in a way that adversely affects their opportunities or status because of the applicant's or employee's disability;
- (b) Participating in a contract that has the effect of subjecting an applicant or

employee of the District with a disability to discrimination. Such contracts could include those with employment agencies, employee organizations, unions, benefits providers, or training programs;

- (c) Using standards, criteria or methods of administration that could have the effect of discrimination on the basis of disability, and which are not job-related and consistent with business necessity;
- (d) Discriminating on the basis of disability against a qualified individual with a disability in regard to compensation, fringe benefits, promotion, job assignments and training;
- (e) Failing to make reasonable accommodations to known physical or mental limitations of an otherwise qualified applicant or employee unless the District can show that the accommodation would impose an undue hardship;
- (f) Using selection criteria that exclude disabled persons, unless the criteria are job-related and consistent with business necessity; and
- (g) Failing to select and administer employment tests in a manner that ensures that the test results accurately reflect the applicant's or employee's skills or aptitude for a particular job.

This policy also prohibits retaliating against any individual because the person has opposed any act or practice that is discriminatory or because that individual made a charge, testified, assisted, or participated in any manner in an investigation or proceeding to enforce this policy.

Furthermore, it is a violation of this policy to coerce, intimidate, threaten, harass, or interfere with any individual in the exercise of enjoyment of or because that individual aided or encouraged any other individual in the exercise of any right granted or protected by this policy.

3.6-204 REASONABLE ACCOMMODATIONS

- (a) Request for Accommodation. Absent undue hardship or direct threats to the health and safety of employee(s), the District provides employment-related reasonable accommodations to qualified individuals with disabilities, both applicants and employees, to enable them to perform essential job

functions.

- (b) Reasonable Documentation of Disability. Following receipt of the request, the Manager of Human Resources or designee may require the applicant or employee to provide reasonable medical documentation confirming the existence of the disability and the need for reasonable accommodation, along with the name and credentials of the individual's health care provider.
- (c) Fitness for Duty Examination. The District may require an employee to undergo a fitness for duty examination at the District's expense to determine whether the employee can perform the essential functions of the job with or without reasonable accommodation where there is significant evidence that the employee's ability to perform one or more essential functions of their job has declined; or could cause a reasonable person to question whether an employee is still capable of performing one or more of their essential job duties, or is still capable of performing those duties in a manner that does not harm any person. The District may also require that a District-approved physician conduct the examination.

During the course of a fitness for duty examination, the District will not seek or use information regarding an employee's medical history, diagnoses, or course of treatment without an employee's written authorization.
- (d) Interactive Process Discussion. After receipt of reasonable documentation of disability, a fitness for duty report, and/or the District learns there is a need for a reasonable accommodation, the District will arrange for a discussion, in person or via telephone conference call, with the applicant or employee, and their representative(s), if any. The purpose of the discussion is to work in good faith to consider all feasible potential reasonable accommodations. The District will document these communications in writing.
- (e) Case-by-Case Determination. The District determines, in its sole discretion, whether reasonable accommodation(s) can be made, and the type of accommodation(s) to provide after receipt of interactive communications and information including but not limited to potential accommodations that

employee has suggested, consideration as to whether additional discussions with the employee would be helpful, and an employee's preferences. The District will not provide accommodation(s) that would pose an undue hardship upon District finances or operations, or that would endanger the health or safety of the employee or others. The District will inform the employee of its decision as to reasonable accommodation(s) in writing.

3.6-205 COMPLAINT PROCEDURES

A qualified job applicant or employee with a disability who believes that they have been discriminated against on the basis of disability may make a complaint preferably in writing as soon as possible after the incident. The procedure for investigation of complaints is set forth in the Harassment/Retaliation Policy.

3-7.103 DISCIPLINE/APPEALS PROCESS

The District shall provide regular, non-probationary full-time employees, except the General Manager and limited-term employees, with the following procedural due process rights when discipline (e.g., suspension without pay, demotion, reduction in pay and termination) is proposed. Employees who may serve at the pleasure of the General Manager are only entitled to those rights consistent with their "at will" status.

Human Resources will provide an employee a "written notice of proposed disciplinary action" by registered mail or personal delivery at least ten working days before discipline is to be imposed. The District may elect to place the individual on paid or unpaid administrative leave pending the outcome of an investigation that may lead to disciplinary action

- (a) The written notice shall include a statement of the reason for the proposed discipline, the date the proposed action is intended to become effective, copies of all materials or documents being used to support the proposed discipline, the opportunity to respond either orally or in writing to the proposed discipline, and the employee's right to representation. An employee's failure to respond prior to the effective date of the proposed action is a waiver of the right to appeal the action.
- (b) An employee may respond either orally or in writing within ten working days

of the employee's receipt of the notice of proposed disciplinary such action to Human Resources. In the case a complaint involves Human Resources, the General Manager shall designate a member of the Management to handle the matter.

- (c) If the employee seeks to respond to the proposed action within ten working days, the General Manager shall review the written record and meet with the employee.
- (d) The General Manager shall provide the employee and Human Resources with a written decision. The General Manager may decide to take no disciplinary action, modify the proposed discipline, or impose the proposed disciplinary action. The General Manager's decision is final and without any right of further appeal to the Personnel Review Board (as set forth below in Section 3-7.104) unless the discipline involves suspensions of thirty working days or more without pay, reduction in pay, termination, or demotion.
- (e) Human Resources shall issue a final written notice of disciplinary action consistent with the General Manager's decision. The written notice shall set forth the level of the discipline, the facts and reasons that support the discipline and shall include copies of all materials or documents being used to support the discipline. In cases of suspensions of 30 days or more without pay, demotion, or termination, the notice of disciplinary action shall also inform the employee of the employee's opportunity to appeal the disciplinary action before the Personnel Review Board.
- (f) An employee who is suspended for thirty working days or more without pay, has a reduction in pay, is demoted, or terminated may request an appeal hearing before the Personnel Review Board by filing a written "notice of appeal" within ten working days of the final notice of disciplinary action. The written notice of appeal shall include the reasons for the appeal and the relief requested by the employee. The notice of appeal shall be filed with the Board Secretary.
- (g) The Board Secretary shall make every reasonable effort to schedule a hearing before the Personnel Review Board no sooner than ten calendar

days and not more than thirty calendar days after receipt of the notice of appeal. The parties may stipulate to a longer period of time in which to hear the appeal.

- (h) The Personnel Review Board shall rule on the admission or exclusion of evidence but shall not be bound by technical rules of evidence.
- (i) Each party shall have these rights: To be represented by legal counsel or other person of their choice; to call and examine witnesses; to introduce evidence; to cross-examine opposing witnesses on any matter relevant to the issues even though that matter was not covered in the direct examination; to impeach any witness regardless of which party first called them to testify; and to rebut the evidence against them. If the respondent does not testify on their own behalf, they may be called and examined as if under cross-examination.
- (j) Oral evidence shall be taken only on oath or affirmation.
- (k) The hearing shall proceed in the following order, unless the Personnel Review Board, for special reason, otherwise directs:
 - (1) The party imposing discipline shall be permitted to make an opening statement.
 - (2) The appealing party shall be permitted to make an opening statement.
 - (3) The party imposing disciplinary action shall produce the evidence.
 - (4) The party appealing from such disciplinary action may then open their defense and offer their evidence in support thereof.
 - (5) The parties may then, in order, respectively offer rebutting evidence.
 - (6) Closing arguments or written closing briefs shall be provided.
 - (7) The Personnel Review Board shall render a written decision as soon after the conclusion of the hearing or within 60 working days after conducting the hearing. The Personnel Review Board may sustain, reverse, or modify the decision of the General Manager. Such decision shall set forth which charges, if any, are sustained and the reasons therefore. The District will mail a copy of the final written findings and decision, along with a proof of service of mailing that

confirms that each of the parties and each of the parties' representatives were mailed the final written findings and decision. It shall be the responsibility of the employee to inform the District of their address. A copy of the decision shall also be provided to the Manager of Human Resources.

3-7.104 PERSONNEL REVIEW BOARD

The Personnel Review Board is the hearing body for all employee appeals and is comprised of the Directors of the West Basin Municipal Water District. The Personnel Review Board shall act by a majority vote.

LIST OF CHANGES TO PART 3, CHAPTER 7. EMPLOYEE CONDUCT

¹Chapter 7 Article 1 Section 3-7.101 through 3-7.104 amended by resolution 11-20-1120 on November 23, 2023

CHAPTER 8. TRAVEL, EXPENSES AND REIMBURSEMENT FOR DISTRICT EMPLOYEES (EMPLOYEE TRAVEL POLICY)^{1,2}

ARTICLE 1. EXPENSES AND REIMBURSEMENT

3-8.101 PURPOSE

This policy applies to all District staff employees, and is intended to establish uniform procedures by which employees shall report and be reimbursed for expenses incurred in connection with authorized travel on behalf of the District.

This policy provides for economical and efficient travel in order to derive the greatest benefit from the trip at the most effective cost. It does not allow employees to be financially enriched as a result of travel nor be required to utilize their own funds as a result of authorized District travel. Employees are responsible for exercising good judgment in requesting, arranging, and fulfilling a travel request to mitigate costs to the District.

3-8.102 GENERAL PROVISIONS

- (a) **Itemized Receipts:** Employees are responsible to provide itemized receipts from the service provider, including but not limited to, restaurant, grocery store, or convenience store.
- (b) **Travel Authorization Form:** Employees should have a Travel Authorization Form signed before travel.
- (c) **Loss or No Travel Receipts:** If travel receipts are not provided, employees will not be reimbursed for the amount spent or will be required to reimburse the District for unsubstantiated charges to a District credit card. Employees may request a waiver of this requirement by documenting the amount and purpose of the charge and then submitting the request for a waiver to the General Manager. The General Manager or their designee shall review the submitted request for a waiver for approval.
- (d) **Personal Losses:** The District will not be responsible for any personal losses while employees are traveling on District business.
- (e) **Non-District Employee Co-traveler:** Under no circumstances will the District

reimburse an authorized traveler for additional expenses incurred as the result of the simultaneous but unauthorized travel of spouse, fellow employee, or other companion.

- (g) Travel Time: Employees shall be entitled to reasonable expenses incurred for traveling to approved conferences/trainings/meetings, beginning one day prior to the start of the conference/training/meeting, and no later than one day following the conclusion of the conference/training/meeting for travel outside the state and the United States. For travel in state, but outside of West Basin's Tax Home (50-mile radius of District Headquarters), employees shall be entitled to such reasonable expenses for either one day prior or one day after the conference/training/meeting. For events/meetings/conferences that begin and conclude on the same day, the District will not pay or reimburse lodging/hotel accommodations that are within a 50 mile radius of the District Headquarters.
- (h) Income Tax Implications: The District precludes overnight hotel stays within West Basin's Tax Home (50-mile radius of District Headquarters). However, in extenuating cases where the employee benefits from a District paid overnight hotel stay within West Basin's Tax Home, the employee may request from the General Manager reimbursement of expenses related to the overnight stay. Such entitlement shall be subject to the imputed income provisions of the INTERNAL REVENUE CODE. Meals will only be reimbursed when there is overnight travel per IRS code (Section 9 IRC § 119.)
- (i) Policy Compliance: All travel related expenses incurred on behalf of the District shall be conducted in accordance with the Employee Travel Policy. District employees shall comply with the Policy to ensure responsible and prudent expenditure of public funds and the preservation of public trust. Violations of the Policy will result in disciplinary action up to and including dismissal.

3-8.103 TRAVEL AUTHORIZATION(a) General Manager Travel Authorization.

- (1) The General Manager may travel within the United States for District-related business at District expense without prior approval by the Board.
- (2) The General Manager may only travel outside the United States for District-related business with the Board's advance approval. The President may authorize such travel when unusual circumstances make it impractical to obtain the Board's approval in advance. The General Manager shall notify the members of the Board of such authorization at the next regular Board meeting.
- (3) The General Manager shall complete the Travel Authorization Form to substantiate all travel related costs and include all itemized receipts.

(b) Employee Travel Authorization.

Authorized expenses normally include lodging/overnight travel, conference/training registration fee, business meals, business mileage, transportation, and allowable miscellaneous expenses.

Whenever possible, arrangements for hotel charges should be placed on the District credit card. If an employee uses their personal credit card, the authorized charges will be reimbursed with the appropriate itemized receipts. It is the responsibility of the employee traveling to pay for personal incidentals (movies, snack bar fees, etc.) prior to check out of the hotel.

- (3) Documentation / Travel Companions. The employee shall indicate the business purpose and how the expenditure is necessary to promote District policies and programs. A meal receipt must be accompanied by an itemized account of charges. If the restaurant does not provide a computerized itemized receipt, a handwritten itemized receipt may be used. The meal receipt must include a description of the business purpose of the meal. The meal receipt must also include the name, the affiliation and position of each guest, when claiming reimbursement for the Business Meal. To the extent that spouses or other travel companions accompany an employee on District related travel or to a District related event, the portion related to that person's attendance shall not be compensable by the District and must be paid for by the employee or promptly reimbursed to the District.
- (4) No Reimbursement When Meal Is Provided. Employees are not entitled to meal reimbursement for attendance at a meeting or conference at which a meal is provided, unless approved by the General Manager.
- (5) No Reimbursement for Solo Employee Meals When There is No Overnight Travel. Expenses for a solo meal (employee only), incurred when there is no overnight travel, will not be reimbursable. (Section IRC§ 119.)

4-1.214 DIVERSIFICATION¹²

The District’s investments shall be diversified by:

- (a) Limiting investments to avoid over concentration in securities from a specific issuer or business sector (excluding U.S. Treasury securities, Federal Agency and Supranational issuers).
- (b) Limiting investment in securities that have higher credit risks.
- (c) Investing in securities with varying maturities.

- (d) Continuously investing a portion of the portfolio in readily available funds such as money market funds to ensure that appropriate liquidity is maintained in order to meet ongoing obligations.
- (e) The duration of the portfolio will be approximately equal (plus or minus 20%) to the duration of the District's benchmark.

4-1.215 MAXIMUM MATURITIES¹³

To the extent possible, the District will attempt to match its investments with anticipated cash flow requirements. No investments may be acquired that exceed five (5) years.

4-1.216 INVESTMENT TRANSACTIONS¹⁴

Information concerning investment opportunities and market developments will be gained by maintaining contact with the financial community. Confirmations of all investment transactions will be maintained by the Finance Department for the annual audit. When practical, the Treasurer shall solicit more than one quotation on each trade.

4-1.217 EXCHANGE OF SECURITIES¹⁵

An exchange of securities is a shift of assets from one instrument to another and may be done for a variety of reasons, such as to increase yield, lengthen or shorten maturities, to take a profit, or to increase investment quality. In no instance shall an exchange be used for speculative purposes. Any such exchange shall be simultaneous (same day execution of sale and purchase), and shall require the approval of the Treasurer.

4-1.218 INTERNAL CONTROL¹⁶

The Treasurer shall establish an annual process of independent review by an external auditor. This review will provide internal control by assuring compliance with policies and procedures. The Treasurer may, at any time, further restrict the securities approved for investment as deemed appropriate.

4-1.219 PERFORMANCE STANDARDS¹⁷

The District's portfolio is managed with the objective of obtaining a market rate of return, commensurate with identified risk constraints and cash flow characteristics. Because the composition of the portfolio fluctuates, depending on market and credit conditions, the selected market benchmark indices selected by the Treasurer will be used to monitor performance.

4-1.220 REPORTING¹⁸

If the Board delegates responsibility of the investment program to the Treasurer or Deputy Treasurer, the Treasurer or Deputy Treasurer will present a monthly report of those transactions to the Executive Secretary of the Board of Directors via the General Manager indicating the types of investment by fund, institution, date of maturity, and amount of deposit, and shall provide the current market value of all securities with a maturity of more than twelve (12) months, rates of interest, and expected yield to maturity. The Treasurer shall also submit a monthly summary report to the Board of Directors via the General Manager showing investment activity and the status of cash by depository.

4-1.221 INVESTMENT POLICY ADOPTION¹⁹

The Treasurer may, at any time, further restrict the securities approved for investment as deemed appropriate. This policy shall be reviewed at least annually by the Board of Directors.

Additionally, the Treasurer shall annually send a copy of the current Investment Policy to all approved dealers. Each dealer is required to return a signed statement indicating receipt and understanding of the District's investment policies.

ARTICLE 4. DESIGNATED FUNDS POLICY

4-1.401 INTRODUCTION

West Basin Municipal Water District's Board of Directors ("Board") has developed a Strategic Business Plan to provide continuous direction for planning, budgeting, implementing, evaluating and reporting. The Strategic Business Plan sets the overall policy direction and strategic priorities established by the Board. In order to achieve the Strategic Business Plan, the Board developed goals, objectives and strategies in the areas of Water Reliability, Water Quality, Customer Service, Sound Financial & Resource Management and Environment.

One of the objectives of the Strategic Business Plan is to complete and maintain a long range financial plan. A long range financial plan provides an agency a financial outlook while addressing the agency's business objectives. Among other things, the long range financial plan ensures an entity develops or modifies financial policies to sustain fiscal integrity into the future.

A Designated Funds Policy ("Policy") is a part of West Basin Municipal Water District's ("West Basin") financial policies. The Policy will help to ensure that adequate designated fund balances are established for protection and furtherance of West Basin's mission.

4-1.402 ROLES AND RESPONSIBILITIES

The Policy shall be initially adopted by the Board and reviewed annually to ensure designated funds and targets are established to achieve an appropriate overall minimum target balance. Future updates, if necessary, to the Policy require the approval by the Board.

The Chief Financial Officer is the designated administrator of the Policy. The Chief Financial Officer shall have the day-to-day responsibility and authority for implementing and managing the Policy.

4-1.403 PURPOSE³¹

Designated funds are defined as “fund(s) maintained to account for specific purposes and are not externally restricted.”

Prudent financial planning and fiscal responsibility includes anticipating and preparing for future funding needs as well as unexpected emergencies. The Policy establishes designated funds for long term organizational and operational stability and to help minimize significant rate fluctuations due to unforeseen cash flow requirements.

Adequate designated funds further serve to boost the confidence of external interested parties such as creditors, bondholders, and rating agencies that place a high degree of importance on strong, healthy fund balances as a cushion against steep revenue declines, and unexpected and uncontrollable expenses.

4-1.404 TYPES OF FUNDS³²

West Basin maintains two major types of funds, either restricted reserves or unrestricted reserves. Unrestricted reserves are maintained within the general fund and consist of designated and undesignated funds. Each designated fund is established with a target amount and a target date (see section 6.0) and any funds in excess of the cumulative target amounts will be considered undesignated funds. Both designated and undesignated funds can be used for any lawful purpose at the discretion of the Board.

Restricted reserves consist of funds with external restrictions imposed by creditors, grantors, contributors, or by laws or regulations that can only be used for specified purposes. Restricted reserves are not governed by this policy.

4-1.405 TARGET LEVELS

Using a target amount approach to funding West Basin’s designated funds will provide more rate certainty and predictability. Each Board approved designated fund will be established with a target amount and target date, if applicable. The target amounts are based on West Basin’s experience, the current operating budget, outstanding long-term debt, and/or capital improvement plan. The sum of all the targets will provide an overall target amount which will serve as a trigger for the Board to consider options when funding levels fall near or below the overall target. If water sales decline and reserve levels approach the minimum level, the Board would have time to consider reducing operating

costs and or capital costs before increasing water rates. If reserve levels exceed the minimum, the Board may consider setting aside monies into the Standby Charge Defeasance Fund in order to retire outstanding debt in the future and eliminate the annual standby charge or placing the undesignated funds into a System Expansion Fund or a Rate Stabilization Fund.

4-1.406 DESCRIPTION OF FUNDS³³

As part of the annual budget development, the designated funds, their purpose and targets will be evaluated to determine the appropriate minimum cash balance. The current designated funds can be divided into three main categories: Core categories, Standby Charge Defeasance Fund and Other categories.

(a) Core Categories

- (1) Operating Liquidity: Provides for a variety of potentially competing purposes such as paying operating expenses during temporary revenue shortfalls, expenses not originally budgeted and fluctuations in revenues and expenses caused by timing of billing cycles and/or timing of debt service.
 - (i) Target Amount: Daily budget operating expenses x 180 days (operating expense includes program expenses and debt service but excludes the pass-through costs from water purchases and charges from Metropolitan Water District of Southern California (MWD)).
 - (ii) Target Date: Annual (June 30th of each fiscal year).
- (2) Operating Contingency: Provides protection in the event of variability against budgeted expenses as unforeseen developments can occur which cause actual expenses to exceed the budget (e.g. Recycling O&M).
 - (i) Target Amount: 5% of Recycling O&M budget.
 - (ii) Target Date: Annual (June 30th of each fiscal year).
- (3) Capital Contingency: Provides a cushion for unexpected capital cost increases and/or unanticipated capital projects.
 - (i) Target Amount: 10% of 3-year average of capital budget.

- (ii) Target Date: Annual (June 30th of each fiscal year).
- (4) Rehabilitation & Replacement (R&R): As West Basin's assets continue to age, there will be increasing demands to replace its facilities. As a general rule, maintenance costs for an asset become more expensive as that asset ages, and eventually the economic decision is made to replace the asset. Although preventive maintenance is intended to increase the predictability of equipment replacement, unanticipated equipment failure is unavoidable. As part of its annual Operating Budget, West Basin includes money for anticipated R&R projects. This Fund will cover all emergency repairs and expenditures in excess of the amount included in the annual Operating Budget for R&R.
 - (i) Target Amount: 1% of all depreciable assets as of the fiscal year-end.
 - (ii) Target Date: Annual (June 30th of each year).
- (b) Standby Charge Defeasance Fund: A separate fund so that the Board may consider eliminating the standby charge if it determines that the original estimate of 70,000 to 100,000 acre-feet per year (AFY) of recycled water production will be or has been met and sufficient funds are available in the Standby Charge Defeasance Fund to pay off all remaining debt associated with those deliveries. Contributions to the Standby Charge Defeasance Fund are subject to Board discretion to cease making contributions to this fund or to re-allocate funds from this fund to other designated funds.
 - (1) Target Amount – Remaining principal, accrued interest and prepayment penalties, if any.
 - (2) Target Date – Not Applicable.
- (c) Other Categories
 - (1) System Expansion: A sinking fund in which revenues in excess of operating and maintenance costs, debt service and deposits to required reserves are set aside for future needs. Since it is not feasible or practical for West Basin to entirely fund construction of

large-scale new capital facilities with current revenues or assets, a portion of future costs will be set aside and the remaining balance will be funded through issuance of long-term debt.

- (i) Target Amount: 5% cash financing for future large-scale capital projects.
 - (ii) Target Date: Based on projected start of construction date.
- (2) Rate Stabilization: Provides monies to help manage the level of water revenue fluctuations from year to year. This fund operates as a buffer during any period where there are unexpected decreases in revenues or an unexpected rate increase from Metropolitan Water District (MWD) occurs.
- (i) Target Amount: 100% of one (1) year of potable, recycled and desalter water sales.
 - (ii) Target Date: Not Applicable.

4-1.407 OBJECTIVES³⁴

As described in Section 6.0 above, West Basin has three main categories of designated funds, a Core category, Standby Charge Defeasance and Other category.

- (a) The Core category is made up of four separate designated funds, each with its own target amount and with the same target date (June 30th). The sum of the four target amounts will be used to achieve a minimum cash target balance. This minimum cash target balance will be calculated annually and used to update the West Basin's long range financial plan as well as the upcoming fiscal year's operating budget.
- (b) The minimum cash target balance, as described in Section 7.1, must be met before any monies are placed into the designated funds in the Other category described in Section 6.3.
- (c) The Standby Charge Defeasance fund will be reviewed annually (Section 6.2). The Board may set aside up to 100% of surplus net revenues. The target amount will change from time to time as outstanding debt is paid or new debt is issued and will be excluded from the minimum cash target

determined in Section 7.1. A target date will not be established as the amount of funding will vary from year to year as it is based on surplus net revenues, if any, the Board sets aside.

- (d) The designated funds which are included in the Other category (Section 6.3) will also be reviewed annually to determine the appropriate target amount and target date, if applicable.

4-1.408 DEFINITIONS

- (a) Actual Debt Coverage is calculated based on net revenue divided by annual debt service at the completion of any one fiscal year.
- (b) Budgeted Debt Coverage is calculated based on net revenues divided by annual debt service as determined in the adopted Fiscal Year budget.
- (c) Debt Service is the principal and interest payment on bonds or other debt instruments used to finance capital facilities.
- (d) Surplus Net Revenues is calculated as annual debt service multiplied by the difference between the actual debt coverage and the budgeted debt coverage.
- (e) Net Revenue is the difference between revenues and operating expenses. Revenues include all water revenues, Metropolitan Water District local resources program incentive, fixed revenue, conservation or other income. Operating expenses include water purchases and operating expenses, but excludes non-cash items like depreciation or amortization. For the purpose of this definition, net revenue will exclude capital grants and capital reimbursements.
- (f) Standby Charge is an annual charge paid by property owners in West Basin's service area to fund the debt service obligation on West Basin's water recycling facilities.

ARTICLE 6. DEBT MANAGEMENT POLICY^{48,105,108}**4-1.601 PURPOSE**^{49,50,51,52}

The purpose of this Debt Management Policy (“Policy”) is to establish parameters and provide guidance as to the issuance, management, continuing evaluation of and reporting on all debt obligations.

This policy affirms the commitment of the Board of Directors (the “Board”) of West Basin Municipal Water District (the “District”) in the practices of sound financial management which includes the timely repayment of all debt, borrowing at the lowest possible net cost of capital while balancing risks associated with any actions or inactions, preserving financial flexibility, maintaining strong credit ratings, providing timely disclosure, and maintaining good investor relations. The Policy is in accordance with current legislative requirements and incorporates industry best practices.

4-1.602 GOALS AND OBJECTIVE^{53,54,55}

A debt management policy sets forth the guidelines for the issuance of debt and the management of outstanding debt. The Policy establishes parameters which recognize the District’s specific capital requirements, its ability to repay financial obligations, and the existing legal, economic, financial and debt market conditions. Specifically, the Policy is intended to assist the District in the following:

- (a) Evaluating critical debt issuance options, including the types of debt that may be issued and incurred by the District;
- (b) Integrating debt issuance with the District’s capital improvement program, budget and long-range financial plan in order to maintain appropriate capital assets for present and future needs;
- (c) Promoting sound financial management through accurate and timely information on financial conditions;
- (d) Protecting and enhancing the District’s credit rating; and
- (e) Ensuring the legal use of District financing authority through an effective system of internal controls.

4-1.603 ROLES AND RESPONSIBILITIES⁵⁶

The Chief Financial Officer is the designated administrator of the Policy. The Chief Financial Officer shall have the day-to-day responsibility and authority for structuring, implementing, and managing the District's debt and finance program in an ethical and prudent manner.

The Board acknowledges that changes in the capital markets and other unexpected events may, from time to time, create situations and opportunities that are not contemplated by this Policy and may require adjustments or exceptions to the guidelines of the Policy. In such circumstances, the ability of the District to be flexible is important; however, any authorization granted by the Board to proceed with a financing or financial product not expressly permitted by the Policy must be accompanied by an acknowledgement of the Board that the actions to be taken by the District are not specifically authorized by the Policy in force at that time. The Policy shall be initially adopted by the Board and reviewed annually. Future updates, if necessary, to the Policy require the approval by the Board.

4-1.604 LONG-RANGE FINANCIAL PLAN^{57,58,59}

A Long-Range Financial Plan shall be prepared by the Chief Financial Officer for consideration and approval by the Board. The Long-Range Financial Plan will be updated at least once every fiscal year, consist of a future planning horizon of at least five years and may be accomplished through the District's annual budget adoption process. In addition to capital project costs, the Long-Range Financial Plan shall include the following:

- (a) Description of all sources of funds;
- (b) Description of operating expenses;
- (c) Debt service requirements;
- (d) Timing of capital expenditures;
- (e) Impact of new capital projects on District's debt burden;
- (f) Designated fund levels; and
- (g) Minimum debt service coverage target

4-1.605 DEBT FINANCING^{60,61,62,63}

The District may meet its financing needs through debt financing. When considering debt financing the District will review and select the most appropriate means based on suitability, risk profile and market conditions. All debt will be entered into in compliance with the terms and covenants of any affected outstanding obligations.

- (a) Revenue Obligations. Long-term revenue obligations issued through the District, a financing corporation, joint powers agency or other entity should be used to finance and refurbish capital facilities, projects and certain equipment where it is determined to be cost effective and fiscally prudent. Long-term revenue obligations will not be used to fund operations of the District. The scope, requirements, and demands of the Budget, reserve levels, the Long-Range Financial Plan, and the ability or need to expedite or maintain the programmed schedule of approved capital projects, will also be factors in the decision to issue long-term debt. Revenue obligations will be structured to achieve the lowest possible net cost to the District given market conditions while balancing risks, considering the Long-Range Financial Plan, and the nature and type of security to be provided.

The District's debt capacity will not exceed legal or contractual limitations, such as rate covenants or Additional Debt Tests imposed by existing financing covenants. Prior to the issuance of any new revenue obligations, the impact of debt service payments on total annual fixed costs will be analyzed.

As users of the District facilities will benefit from long-term capital investments in future years, it is appropriate that future revenues pay a share of the costs and more closely match the term of repayment to the expected economic useful life of the project being financed.

- (b) Commercial Paper. Commercial paper and similar financing products including, but not limited to, revolving bank credit agreements and letters of credit are cash management programs that the District may use to provide interim and long-term funding for capital expenditures that will ultimately be funded from another source such as future rate revenue,

grants, other external funding or long-term debt. Such a program may be implemented directly by the District or through a financing corporation or other entity. If implemented through a financing corporation or other entity a tax revenue anticipation note or other instrument will be delivered by the District as security for the program. Periodic issuances or retirements of commercial paper notes or similar financing products within a Board approved program would not require further Board action once the program is implemented.

The Chief Financial Officer is responsible for implementing and managing the District's commercial paper or similar financing program. The Chief Financial Officer will work closely with commercial paper dealers, if any, to develop a marketing strategy for the initial sale and subsequent roll-over of maturing amounts.

- (c) Fixed and Variable Rate Obligations. The District typically issues fixed rate obligations. When appropriate, however, the District may choose to issue variable rate obligations (including Commercial Paper), or securities that pay a rate of interest that varies according to a predetermined formula or results from a periodic remarketing or auction of securities. The maximum level of variable rate exposure incurred shall not exceed the lesser of the District's unrestricted reserves or 20% (the "Maximum Variable Percentage") of outstanding debt.

Variable rate exposure can provide a means to enhance asset/liability management. The primary goal of asset/liability management is to mitigate the impact of increased interest costs in a rising interest rate environment, and mitigate the impact of decreased interest income in a declining interest rate environment. The Chief Financial Officer will review the net variable rate exposure of the overall debt portfolio on a quarterly basis and at any time that additional debt is issued.

In selecting and retaining remarketing agents for variable rate debt, the District should choose remarketing agents that diversify its exposure

and foster competition. The Chief Financial Officer will regularly review the performance of the individual remarketing agents in relation to other remarketing agents, similar programs, and market indices.

- (d) Grant Anticipation Notes. The District may issue short-term notes to be repaid with the proceeds of State or Federal grants if appropriate for the project and in the best interest of the District. Generally, grant anticipation notes (“GAN’s) will only be issued if there is no other viable source of up-front cash for the project. Prior to embarking on selling GAN’s the District must identify a secondary source of repayment for the GAN’s in the event that expected grant funding does not occur.
- (e) Lease Financings. Lease obligations are a routine and appropriate means of financing certain types of equipment, but are generally not appropriate for long-term financing of capital assets such as land or facilities. Leases should be considered where lease financing will be more beneficial than funding from reserves or current revenues. The useful life of capital equipment, the term and conditions of the lease, the direct impact on debt capacity and budget flexibility will be evaluated prior to the implementation of a lease program. Cash flow sufficiency, capital program requirements, lease program structures and cost, and market factors will be considered in conjunction with Pay-As-You-Go strategies in lieu of lease financing.
- (f) State Revolving Fund Loans. The District may enter into loan agreements with the State Revolving Fund (SRF), which provides a low or zero interest loan program made available for specific construction projects. SRF loans are generally structured such that the District is required to contribute a percentage of the total project cost and receives loan proceeds from the State of California for the balance. The SRF loan interest rate is calculated by taking half of the True Interest Cost (TIC) of the most recent sales of State General Obligation Bonds. The term of the loans can be up to 30 years. SRF Loans may provide additional assistance in the form of principal forgiveness. Principal forgiveness must be specified at the execution of the

loan agreement for the amount forgiven to be counted against the total loan required to be provided by the SRF. In connection with any SRF Loan financing, the District will carefully review the terms, covenants and provisions of the loan to make sure they are preferable over other funding alternatives, and also to ensure they do not conflict with the terms and covenants of the District's other outstanding obligations.

- (g) Water Infrastructure Finance and Innovation Act (WIFIA) Loans. The WIFIA program is a federal credit program administered by EPA for eligible water and wastewater infrastructure projects. The minimum project size is \$20 million and a WIFIA loan can fund up to 49% of an eligible project cost with a maximum final maturity date of 35 years after the date of substantial project completion. For qualifying capital projects, the District will evaluate the use and applicability of WIFIA and consider whether the terms, covenants and provisions of the loan are preferable over other funding alternatives.

The District will monitor its debt portfolio and debt financed assets to ensure continued compliance with tax law requirements.

4-1.606 DEBT REFINANCING^{64,65,66,67}

Refunding obligations are issued to retire all or a portion of an outstanding debt issue. Economic refundings refinance high coupon debt at lower interest rates to effectuate debt service savings. Alternatively, an issuer can conduct a refunding for reasons other than costs savings, such as to restructure debt service payments, to change the type of debt instruments, or to modernize financing documents by removing undesirable covenants.

The District will target current refundings (refundings within 90 days of the call date) that produce net (including cash contributions and foregone interest earnings) present value savings of at least 3% of the refunded par amount of each maturity being refunded. Refundings producing less than 3% net present value savings for each maturity being refunded will be considered for other purposes, such as removing restrictive covenants, reducing risk, altering the overall debt repayment schedule of the District, releasing revenues, and ease of administration.

The District will target advance refundings (refundings that occur greater than 90 days prior to the call date) that produce net (including cash contributions and foregone interest earnings) present value savings of at least 5% of the refunded par amount of each maturity being refunded, and achieve at least 70% escrow efficiency (where escrow efficiency is defined such that present value savings is greater than or equal to 70% of the sum of negative arbitrage and net present value savings). Refundings producing less than 5% net present value savings for each maturity being refunded may be considered for other purposes, such as removing restrictive covenants, reducing risk, altering the overall debt repayment schedule of the District, releasing revenues, and ease of administration.

The Chief Financial Officer will monitor refunding opportunities for all outstanding debt obligations on a periodic basis applying established criteria in determining when to issue refunding debt and bring forth the recommended opportunities with appropriate resolutions and related documentation.

4-1.607 DEBT STRUCTURE CONSIDERATIONS^{68,69,70,71}

- (a) Maturity of Debt. The final maturity of the debt shall not exceed, and preferably be less than, the remaining useful life of the assets being financed, and to comply with Federal tax regulations, the average life of a financing shall not exceed 120% of the average life of the assets being financed.
- (b) Debt Service Structure. In general, debt service payments for any new money debt issue will be structured to create approximately level debt service payments over the life of the debt. The Chief Financial Officer may also structure the amortization of principal to wrap around existing obligations or to achieve other financial planning goals. Deferring the repayment of principal should be avoided except in select instances where it will take a period of time before project revenues are sufficient to pay debt service. Refundings will generally be structured to achieve level savings, but may be designed to tailor the receipt of savings in certain years depending on near-term financial needs, structure of the debt being

refunded and/or market conditions.

- (c) Lien Structure. Senior and subordinate liens will be utilized in a manner that will maximize the most critical constraint, either cost or capacity, thus allowing for the most beneficial leverage of revenues.
- (d) Capitalized Interest. The District may elect to fund capitalized interest in connection with the construction of certain projects when revenues from the project will not be available until completion.
- (e) Reserve Funds. A reserve fund for a debt issuance may be beneficial for rating or marketing reasons, depending on market conditions. If required, such reserve fund can be funded with cash or a surety policy from 1) the proceeds of a debt issue, 2) the reserves of the District, or 3) a surety policy issued in lieu of using debt proceeds or reserves. A cash reserve fund will be invested pursuant to the investment restrictions associated with the respective financing documents. For each debt issue, the Chief Financial Officer will evaluate whether a reserve fund is required for rating or marketing purposes and the benefits of funding or maintaining the reserve requirement with cash or a surety policy, in addition to determining the benefits of borrowing the necessary funds or using cash reserves.
- (f) Redemption Provisions. In general, the District will have the right to optionally redeem debt at par no later than 10 years after issuance. Redemption provisions will be established on a case-by-case basis, taking into consideration market conditions and the results of a call option analysis prior to the time of sale. Because the issuance of non-callable debt may restrict future financial flexibility, cost will not be the sole determinant in the decision to issue non-callable debt.
- (g) Credit Enhancement and Liquidity. Credit Enhancement on District financings will only be used when net debt service is reduced by more than the cost of the enhancement. In connection with variable rate obligations and certain interim financing (such as commercial paper), a liquidity or LOC provider may be necessary. The District should seek to

diversify its exposure to banks when selecting institutions to provide liquidity or Credit Enhancement for variable rate debt.

Bond insurance will be used when it provides an economic advantage to a particular debt maturity or the entire issue. The District will evaluate the availability and cost/benefit of credit enhanced debt versus unenhanced debt prior to issuing any debt.

In managing its variable rate debt portfolio, the Chief Financial Officer will regularly monitor the market for Credit Enhancement, particularly liquidity facilities provided by Credit Enhancement providers and alternative variable rate products and the use of alternative variable rate instruments that do not require Credit Enhancement.

4-1.608 METHOD OF SALE⁷²

The District will select a method of sale that is the most appropriate when considering the financial, market, transaction-specific and Issuer-related conditions. There are three basic methods of sale: Competitive Sale, Negotiated Sale and Private Placement. Each type of debt sale has different benefits that may better serve the District in different contexts. The Chief Financial Officer will recommend to the Board the most appropriate method of sale in light of prevailing financial, market and transaction-specific conditions. If a negotiated sale is expected to provide overall benefits, the selection of the senior managing underwriters and the co-managers shall be made from the approved pool of underwriters selected through the process described below.

4-1.609 INVESTMENT OF PROCEEDS^{73,74,75}

Bond proceeds will be deposited and recorded in separate accounts to ensure funds are not comingled with other forms of District funds. The District's Trustee or Fiscal Agent will administer the disbursement of bond proceeds pursuant to each certain Indenture of Trust or Fiscal Agent Agreement, respectively. To ensure proceeds from bond sales are used in accordance with legal requirements invoices are reviewed by the Chief Financial Officer prior to payment. Requisition for the disbursement of bonds funds will be approved by the District's Chief Financial Officer or designated alternate. Responsibility for general ledger reconciliations and records is segregated from the

invoice processing, cash receipting, and cash disbursement functions.

The Chief Financial Officer will be tasked with monitoring the expenditure of bond proceeds to ensure they are used only for the purpose and authority for which the bonds were issued and exercising best efforts to spend bond proceeds in such a manner that the District will meet one of the spend-down exemptions from arbitrage rebate. Tax-exempt bonds will not be issued unless it can be demonstrated that 85% of the proceeds can reasonably be expected to be expended within the three- year temporary period.

The District shall competitively bid the purchase of securities, investment agreements, float contracts, forward purchase contracts and any other investment products used to invest proceeds of a financing. The District shall comply with all applicable Federal, State, and contractual restrictions regarding the use and investment of financing-related funds. The primary investment objectives are safety, liquidity, and yield. The District's independent investment advisor must be a registered Investment Advisor. The District shall diversify invested proceeds in order to reduce risk exposure to providers, types of investment products and types of securities held. The District will require that all fees resulting from investment services or sale of products to the District be fully disclosed to the District (including fees paid by third parties) to ensure that there are no conflicts of interest and investments are being purchase at a fair market price, consistent with the District's Investment Policy.

4-1.610 CREDIT/RATINGS OBJECTIVES⁷⁶

The District's objective is to maintain or improve its credit ratings as a way of reducing financing costs and maintaining access to the capital markets. The Chief Financial Officer shall be responsible for implementing and managing the District's credit rating agencies relations program. This effort shall include providing the rating agencies with the District's annual budget, financial statements and other information they may request. Full disclosure of operations will be made to the credit rating agencies. The Chief Financial Officer shall also coordinate periodic meetings with the rating agencies and communicate with them prior to each debt issuance.

4-1.611 INVESTOR RELATIONS⁷⁷

The Chief Financial Officer shall be responsible for implementing and managing the District's investor relations program. The Chief Financial Officer shall respond to inquiries from institutional and retail investors. If necessary, the Chief Financial Officer shall periodically meet or conduct conference calls with key institutional investors in order to familiarize the institutional investors with the District's financial history and financial projections. Such communication shall be made only if permitted under applicable federal securities laws.

4-1.612 DISCLOSURE AND ARBITRAGE REBATE COMPLIANCE⁷⁸

The District will comply with all financing covenants to maintain the validity of the issuance of debt, including, but not limited to tax-exemption, Arbitrage Rebate compliance, insurance provisions, reporting and monitoring requirements. The District will ensure compliance with all continuing disclosure requirements as part of its ongoing debt program. Any instance of noncompliance will be reported to the Board.

4-1.613 CONSULTANTS^{79,80}

The District shall procure professional services when required to assist in execution of financing transactions and to advise on non-transaction work.

- (a) Municipal Advisor. The District will retain an independent registered municipal advisor (financial advisor) through a competitive process administered by the Chief Financial Officer at least every five years. Selection of the District's financial advisor should be based on the following:
- (1) Experience in providing consulting services to complex Issuers;
 - (2) Meets all regulatory requirements;
 - (3) Knowledge and experience in structuring and analyzing large complex issues;
 - (4) Ability to conduct competitive selection processes to obtain investment products and financial services;
 - (5) Experience and reputation of assigned personnel; and
 - (6) Fees and expenses.

The District expects that its municipal advisor will provide objective advice and analysis, maintain confidentiality of District financial plans, and fully disclose any potential conflicts of interest. The District's municipal advisor will serve as its Independent Registered Municipal Advisor.

The District's municipal advisor will further assist the District with engaging additional third parties for particular transactions such as trustee/paying agent, printer, verification agent, among others.

- (b) Bond Counsel. For all debt issues, the District will engage and retain an external bond counsel through a competitive process administered by the Chief Financial Officer at least every five years. All debt issued by the District will include a written opinion by a nationally recognized bond counsel affirming that the District is legally authorized to issue the debt, stating that the District has met all state constitutional and statutory requirements necessary for issuance, and determining the debt's federal income tax status. Bond Counsel may also draft the Official Statement in lieu of having a separate disclosure counsel.
- (c) Disclosure Counsel. The District may engage and retain, when appropriate, Disclosure Counsel through a competitive process administered by the Chief Financial Officer to prepare official statements for debt issues. Disclosure Counsel will be responsible for ensuring that the official statement complies with all applicable rules regulations and guidelines. Disclosure Counsel will be a nationally recognized firm with extensive experience in public finance.
- (d) Underwriters. For negotiated sales, underwriters will be required to demonstrate sufficient capitalization and experience related to the debt issuance. The Chief Financial Officer may establish a pool of qualified underwriters through a competitive process for periods up to five years and may designate one or more firms as eligible to be senior managers and potentially one or more firms as eligible to be co-managers. In addition, the Chief Financial Officer may select one or more underwriters through a Request for Proposal process for a specific transaction without

establishing a pool. Criteria to be used in the appointment of qualified underwriters will include:

- (1) Quality and applicability of financing ideas;
- (2) Demonstrated ability to manage complex financial transactions
- (3) Demonstrated ability to structure debt issues efficiently and effectively;
- (4) Demonstrated ability to sell debt to institutional and retail investors;
- (5) Demonstrated willingness to put capital at risk;
- (6) Experience and reputation of assigned personnel;
- (7) Knowledge of the District and District needs;
- (8) Past performance and references; and
- (9) Fees and expenses.

The Chief Financial Officer will regularly monitor the performance of the members of the underwriting pool and recommend changes as appropriate.

- (e) Remarketing Agent / Commercial Paper Dealer. In connection with variable rate transactions or commercial paper programs, the District may engage a remarketing agent or commercial paper dealer, as appropriate. Such remarketing agent or commercial paper dealer will be selected based on demonstrated experience and capabilities serving in this role.

4-1.614 REPORTING REQUIREMENTS^{81,82,83}

The Chief Financial Officer will report to the Board of Directors on a quarterly basis the following information:

- (a) A summary of outstanding debt obligations to include the series name, original amount of issuance, outstanding principal amount, issue date, maturity dates, interest rates, and annual debt service;
- (b) The amount of the net variable rate obligation, percentage as compared to outstanding debt and the corresponding variable rate capacity;
- (c) When applicable, a comparison of variable rates to SIFMA or by

remarketing agent, if West Basin has more than one agent, to other remarketing agents, with similar programs and market indices; and

(d) Other Considerations if applicable:

- (1) Refunding opportunities
- (2) Credit Enhancement
- (3) Reportable conditions
- (4) New debt issuances.

4-1.615 SB 1029 COMPLIANCE^{84,85,86}

SB 1029, signed by Governor Brown on September 12, 2016, requires issuers to adopt debt policies addressing each of the five items below.

- (a) The purposes for which the debt proceeds may be used.
- (b) The types of debt that may be issued.
- (c) The relationship of the debt to, and integration with, the issuer's capital improvement program or budget, if applicable.
- (d) Policy goals related to the issuer's planning goals and objections.
- (e) The internal control procedures that the issuer has implemented, or will implement, to ensure that the proceeds of the proposed debt issuance will be directed to the intended use.

4-1.616 COMPLIANCE WITH CDIAC REGULATIONS^{87,88}

The Chief Financial Officer will comply with the regulations set forth under Title 4 Business Regulations, Division 9.6 California Debt and Investment Advisory Commission (CDIAC).

4-1.617 DISCLOSURE POLICY

The District maintains a separate Disclosure Procedures Policy under Section 4-1.9 of the Administrative Code

4-1.618 DEFINITIONS^{89,90,91}

- (a) Additional Debt Test: A legal earnings test governed by the provisions of a

financing document which must be satisfied before revenue obligations secured by the same Pledged Revenues can be issued. Typically, the test requires that historical or estimated future revenues exceed total debt service (existing and proposed) by a certain ratio.

- (b) Amortization: The required repayment of principal associated with the issue of revenue obligations.
- (c) Arbitrage Rebate: With regard to tax-exempt revenue obligations, arbitrage refers to taxable earnings on proceeds that are greater than earnings would have been at the arbitrage yield. IRS regulations require Issuers to calculate and pay rebate to the United States Treasury on arbitrage earned on proceeds of tax-exempt securities.
- (d) Bond Counsel: An attorney (or firm of attorneys) retained by the Issuer to render a legal opinion on the legality and security of a securities offering and its tax exemption or taxability. Bond counsel may prepare authorizing resolutions or ordinances, installment purchase agreements, Indentures, official statements, and other documents required to allow for access the capital markets.
- (e) Bond Insurance: An insurance policy guaranteeing the timely payment of principal and interest of all, or a portion, of revenue obligations. In exchange for a Bond Insurance premium, a bond insurer's guarantee can result in a higher credit rating and a lower net borrowing cost for an Issuer.
- (f) Bond Proceeds: All funds received from the bond sale inclusive of premium and discount.
- (g) Capitalized Interest: A portion of the proceeds of an issue used to pay interest on the revenue obligations for a specified period of time.
- (h) Commercial Paper: Short-term (1 to 270 days) promissory notes issued to provide for interim financing of projects or other short-term financing needs through the construction period. Following the completion of the projects, principal and interest due on commercial paper is sometimes redeemed by issuing long-term refunding revenue obligations.
- (i) Competitive Sale: A sale of securities by an Issuer in which broker/dealers

- submit bids to purchase the securities.
- (j) Covenants: The enforceable promise by an Issuer to perform or refrain from performing certain actions. With respect to municipal finance obligations, covenants are generally stated in the financing documents.
 - (k) Credit Enhancement: Credit support purchased by the Issuer to provide enhanced access to the capital markets, frequently resulting in lower expected net borrowing costs. The most common Credit Enhancements consist of Bond Insurance, direct or standby Letters of Credit, and lines of credit.
 - (l) Debt Service: The sum of the principal and interest from revenue obligations. Debt service may be presented on periodic basis, such as on a twelve month period, fiscal year or calendar year basis.
 - (m) Defeasance: The establishment of an Escrow that is sufficient to make all remaining debt service payments including redemption premium, if any, to owners of revenue obligations. The incurrence of refunding revenue obligations is typically accompanied by a defeasance of the refunded revenue obligations.
 - (n) Escrow: A fund established to hold cash and securities pledged to pay debt service on a revenue obligation.
 - (o) Indenture: Legal document describing the terms and conditions of a revenue obligations offering, the rights of the owner thereof, and the obligations of the Issuer to the such owners.
 - (p) IRS: Internal Revenue Service.
 - (q) Issuer: A state, political subdivision, agency, or authority that borrows money through the sale of securities.
 - (r) Leases: Municipal lease agreements are used to finance the purchase or use of real or personal property. Lease agreements can be structured as lease purchase agreements whereby the municipality owns the asset at the end of the lease term or as operating leases whereby the municipality has the option to purchase the asset at the end of the lease term at fair market value. The security for lease obligations is typically general fund revenues

but could be a more limited revenue source. Lease agreements can be funded by private companies, such as vendors or finance companies, or through the capital markets.

- (s) Letters of Credit (LOC)– A commitment, usually from a commercial bank, used to provide additional security for notes, installment purchase agreements, commercial paper or other revenue obligations which honor demands for timely payment of debt service upon compliance with pre- established conditions and/or the occurrence of certain events. Draws, if any, are repaid to the bank based on the terms and conditions of the letter of credit terms.
- (t) Municipal Advisor: A consultant who advises an issuer on finance-related matters, such as structure, timing, marketing, pricing, documentation, and credit ratings. The consultant may also provide advice relating to capital planning and investment management.
- (u) Negotiated Sale: A sale of securities by an issuer whereby the Issuer selects one underwriter to negotiate the terms of the purchase and reoffering of debt obligations to investors by the underwriter or a group of underwriters.
- (v) Notes: A short-term obligation of the Issuer to repay a borrowing payable from a defined source of anticipated revenue.
- (w) Official Statement: A document distributed by an Issuer which discloses material information about the proposed issue including the purpose of the issue, source of repayment, financing covenants as well as financial, economic, demographic and legal characteristics of the Issuer. An Official Statement is one of the sources that investors rely upon to determine the credit quality of an issue.
- (x) Pay-As-You-Go: An Issuer uses existing revenues to fund a project as opposed to funding costs with debt obligations.
- (y) Pledged Revenues: The moneys obligated for the payment of debt service and other deposits required by the financing documents. A typical revenue pledge obligates all revenues received for the payment of debt service subject to deductions for maintenance or operating expenses.

- (z) Preliminary Official Statement: A preliminary version of the Official Statement used by the Issuer or underwriter to describe the proposed issue of municipal obligations prior to the determination of interest rates and offering prices. A preliminary official statement is one of the sources that investors rely upon in basing their investment decisions.
- (aa) Present Value: The value of future cash flows in today's dollars.
- (bb) Present Value Savings: Present Value of the differences between two cash flows.
- (cc) Private Placement: Securities sold directly to institutions or private investors by a direct negotiated sale instead of a public offering.
- (dd) Rating Agencies: Independent firms specializing in providing credit analysis to the investment community. The three primary rating agencies that provide municipal credit ratings are Fitch Ratings, Moody's Investors Service, and Standard & Poor's.
- (ee) Ratings: Evaluations of the credit quality of obligations usually made by independent rating services. Ratings generally measure the likelihood of payment of debt service. Higher credit ratings represent lower default risk to investors and typically lower borrowing costs to Issuers.
- (ff) Redemption: The repayment of principal on outstanding debt at a specified price and date(s).
- (gg) Reserve Fund (or Debt Service Reserve Fund): A fund established at the time revenue obligations are issued to provide additional security in the event that revenues are insufficient to satisfy debt service requirements. A debt service reserve fund can be funded from proceeds of revenue obligations or cash, and in certain circumstances with a surety policy issued by a credit enhancer. Federal tax regulations limit the size of debt service reserve funds funded with tax-exempt proceeds.
- (hh) Swap: An agreement between two parties to exchange future payments. The most common Swaps for municipal Issuers are interest rates Swaps whereby one party agrees to pay the other a fixed rate, while the other party pays the first party a floating rate. Swaps will be entered into and managed

in accordance with the District's Swap Policy under Section 4-1.5 of the Administrative Code.

- (ii) Underwriter: A broker/dealer that purchases new offerings of securities from the Issuer and resells them to investors.
- (jj) Variable Rate Obligations: A security whose interest rate changes at pre-set intervals over the life of the obligation. Periodic changes in interest rates result from changes in an index or the supply and demand dynamics of a remarketing or auction.
- (kk) Variable Rate Capacity: The difference between the maximum net variable rate limitation and the net variable rate obligations.
- (ll) Water Infrastructure Finance and Innovative Act (WIFIA) Loans: The WIFIA program is a federal credit program administered by EPA for eligible water and wastewater infrastructure projects. The WIFIA program can fund development and implementation activities for eligible projects, including wastewater conveyance and treatment projects that are eligible for the Clean Water SRF; drinking water treatment and distribution projects that are eligible for the Drinking Water SRF; enhanced energy efficiency projects at drinking water and wastewater facilities; brackish or seawater desalination, aquifer recharge, alternative water supply, and water recycling projects; drought prevention, reduction, or mitigation projects; acquisition of property if it is integral to the project or will mitigate the environmental impact of a project.

ARTICLE 7. CAPITALIZATION POLICY⁹²

4-1.701 PURPOSE

The purpose of this Capitalization Policy (“Policy”) is to set requirements and establish a threshold for expenses incurred to acquire assets that are used in operations and have initial minimum useful lives extending beyond a certain length of time. Qualified expenses that meet the minimum useful life requirements and are valued above the threshold are to be recorded as a capital asset. Expenses valued below the threshold are charged as an operational expense as incurred.

The Policy affirms the commitment of the Board of Directors (the “Board”) of West Basin Municipal Water District (the “District”) in the practices of sound financial management which is included in the District’s long-term strategic plan.

4-1.702 GOALS & OBJECTIVES

The Policy is intended to clarify capitalizable costs versus expenses and provides guidelines for the capitalization, depreciation, impairment, replacement, retirement, and disposal of capital assets to comply with the requirements of Governmental Accounting Standard Board (GASB) statements related to capital assets, and other industry best practices.

The Policy is intended to provide guidance and set rules of operation for the District in the following areas:

- Define capital assets
- Clarify capitalizable costs versus expenses
- Set the threshold of a capital asset
- Determine the estimated minimum useful life of a capital asset
- Determine the depreciation/amortization method of a capital asset
- Describe procedures for impairment of capital assets
- Describe procedure for replacement and retirement of capital assets
- Describe procedure for disposal of capital assets

4-1.703 ROLES AND RESPONSIBILITY

The Executive Manager of Finance is the designated administrator of the Policy. The Executive Manager of Finance shall, in accordance with this Policy, have the responsibility and authority for determining which District assets shall be capitalized. The Policy shall be initially adopted by the Board and reviewed periodically to reflect changes from GASB updates, and other guidance. Future updates to the Policy require approval by the Board.

4-1.704 DEFINE CAPITAL ASSETS

District capital assets include land, buildings, building improvements, furniture, machinery and equipment, water treatment plants, pump stations, capacity rights, distribution systems and all other tangible, intangible, donated, and leased assets that are used in operations and that have initial minimum useful lives extending beyond three (3) fiscal years.

To be considered for capitalization, an asset must meet the following requirements:

- Be acquired (purchased, constructed, donated, or leased) and used in operations and not for investment or sale
- Have an economic minimum useful life of at least 3 years or extends the economic minimum useful life of an existing asset by at least three (3) years
- The cost of each asset/component unit of the asset must be greater than or equal to \$10,000
- Assets that are donated to the District will be recorded at their fair market value at the time of donation. Those assets can only be capitalized if they are used in operations and meet the minimum useful life and threshold requirements
- In some instances, other agencies may acquire or construct capital assets and ask the District to maintain them. The agency that owns the assets should report and capitalize them. If ownership of the assets is difficult to establish (e.g. sidewalks), the agency responsible for managing the assets (e.g. maintenance) should report and capitalize them.

If the capitalization dollar threshold is not met, exceptions may be taken into consideration if a group of similar assets were purchased all together (e.g., purchased all

new furniture at once). In this case, even the individual component of the various assets within the group may have different minimum useful life (e.g., tables have 20-year life vs chairs have 10-year life), the group of the assets will be capitalized as a single asset with the shortest minimum useful life (e.g., new furniture, 10 years).

4-1.705 DEFINE CAPITALIZABLE COSTS VS EXPENSES

The majority of the District's capital assets are designed and constructed specifically for its water recycling facilities. Most of the projects follow this order: feasibility study, management and Board approval, design, construction, and placement of assets into service.

When to Begin Capitalizing Costs

Costs should be capitalizable only after management believes it is probable that the project (or study) will eventually result in an operational asset. These determinations (probability of completion and placement in service) must be made by management based on their best belief and knowledge of the facts and circumstances.

Costs to be Capitalized

Once a project has been determined to be capitalizable, all project/study related costs should be capitalized. Capitalizable costs include the cost to purchase or construct an asset and any ancillary charges necessary to place the asset into its intended location and condition for use.

Ancillary charges includes legal and title fees, closing costs, appraisal and negotiation fees, surveying fees, land preparation costs, demolition costs, audit and accounting fees, and transportation charges.

Internal costs such as labor and benefits of employees can be capitalized only if the costs reflect the labor of individuals who worked on a given construction project. This excludes indirect labor and benefits from being capitalized.

Costs such as consultant costs and construction management costs that are related to design, construction, or acquisition of a group of capital assets should be capitalized and allocated to each individual component unit.

In certain circumstances, regulatory permits may require certain specific regulatory activities such as public notices, public meetings, etc. Costs specifically identified with the

regulatory process may be capitalized. Prudent judgment should be taken to avoid capitalizing project promotion activities that may have been required by the regulatory process but that are in essence community education costs regarding the project.

Constructed capital projects should be recorded as individual component units with different minimum useful lives once the project is completed and placed in service.

Capital assets acquired for nominal amounts should be handled as donations for accounting purposes but be recorded based on the appropriate fair value the government would have had to pay to acquire the assets.

Costs associated with the application development stage of computer software development can be capitalized, but only if they are incurred after management and the Board approve the project.

Costs related to infrastructure improvements and refurbishments can be capitalized only if the costs provide additional value by either:

- Lengthening a capital asset's estimated minimum useful life (e.g. an asset has original life of 40 years, remaining life of 20 years, extended life to 25 years after improvements or refurbishments)

Or

- Increasing a capital asset's ability to provide service (e.g. increase in production capacity from 40MG to 50MG).

Cost related to infrastructure replacement can be capitalized and the new component should be depreciated over the specific time frame that conforms to when the District next expects to replace that item. The cost and accumulated depreciation of the replaced component should be removed. This can be estimated by engineers by approximating when the replaced component was installed and approximating the cost of the component that was installed at this time.

Certain projects may contain both an improvement and repair/maintenance. Care should be given to distinguish actions that lengthen the minimum useful life of an asset from those that merely avoid shortening it.

Costs to be Expensed

Costs Prior to Management Approval: If at the onset of the project (or study) it is the judgment of management that it is not probable that the project/study will ultimately

result in an operational asset, then the project/study costs should be expensed until the point in time that management believe it is probable that the project or study will result in an operational asset.

Feasibility Study: A feasibility study is a formal evaluation of a potential project. Feasibility Study costs prior to management approval should remain expensed.

Expensing Costs That Were Previously Capitalized: If a project thought to be probable of completion and expected to be placed in service is later found to be unlikely to result in an operational asset, all costs related to that project should be expensed as an operating expense in the year that information about the change in expectations occurs.

Other Costs: General and administrative costs such as indirect labor and benefits should never be capitalized. Overhead costs should be expensed in the period they are incurred.

Costs incurred during the construction of the capital asset such as community education, marketing, and outreach should be expensed in the period they are incurred.

Training on how to use a capital asset is not a capitalizable cost because it is not a part of the cost to place the asset into its intended location and condition for use and does not provide benefit throughout the useful life of the capital asset.

Repairs and Maintenance are expenses that retain the capital asset's value and should be expensed in the period incurred. Maintenance activities are defined by GASB as "those activities that allow assets to continue to be used during their originally established useful life".

Costs Related to Intangible Assets: On occasion, another party will own a capital asset while the District has capacity rights in that asset. Capacity rights meet the definition of intangible assets (assets that lack physical substance or are nonfinancial in nature) under GASB Statement No. 51. GASB Statement No. 51 also provides that intangible assets are a form of capital assets and should be reported as a component of capital assets in the financial statements. Although an agency may not own a facility outright, it should record its investment in capacity rights as a capital asset on its balance sheet.

Costs Related to Leased Assets: GASB 87 defines the cost of the intangible (right-to-use) lease asset equal to the value of lease liability + lease prepayments made for

future periods + any direct ancillary costs necessary to place asset into service (excluding debt issuance costs). District shall capitalize the lease assets if they meet the minimum useful life, threshold and the definition of a lease.

4-1.706 THRESHOLD OF A CAPITAL ASSET

The District establishes \$10,000 as the threshold minimum value for capitalization. In compliance with GASB34 requirements, the District's capital assets are reported at historical cost.

Any items below this amount should be expensed in the fiscal year the cost is incurred. On a periodic basis, staff will evaluate the capitalization threshold to determine the appropriate minimum value.

4-1.707 ESTIMATED MINIMUM USEFUL LIFE

Estimated minimum useful life of the District's capital assets is normally determined by using its own past experience with similar assets. In situations where the documentation of past experience for a given type of capital asset is not adequate for this purpose, the District shall use published industry averages. At the same time, the District shall make whatever adjustments are needed to estimated useful lives that were obtained from other sources to ensure that such estimates are appropriate to its own particular circumstances.

If improvements are made on non-cancellable multi-year leases, the capital improvements cost can be capitalized but only be depreciated up to the lease term.

4-1.708 DEPRECIATION/AMORTIZATION

The District uses straight-line method with no salvage value for all depreciable capital assets.

The District only capitalizes and depreciates the assets that are completed and in service. Depreciation does not apply to assets that are completed but not in service.

Intangible right-to-use assets with finite lives should be amortized over the shorter of the useful life or the underlying lease term.

4-1.709 PROCEDURES FOR IMPAIRMENT OF CAPITAL ASSETS

Under GASB Statement No. 42, impairment occurs when there is a significant decline in the service utility of a capital asset. To qualify, a decline in service utility is typically defined as:

- Significant (in relation to the asset's current service utility)
- Unexpected (not part of the normal life cycle of the asset or foreseeable at the time the asset was acquired)
- Permanent

These conditions arise from a variety of causes including physical damage, changes in laws that negatively affect service utility, and technological developments that cause obsolescence.

The District should evaluate its capital assets on an annual basis. The method of calculation for impairment depends on whether the impaired asset will remain in use. If the capital asset will continue to be used in operations, its carrying amount must be decreased in an amount proportionate to the loss in service utility. If the capital asset is determined to be an impairment or no longer in service, it should be disposed of at each year-end.

4-1.710 PROCEDURES FOR REPLACEMENT AND RETIREMENT OF CAPITAL ASSETS

The District should evaluate its capital assets on an annual basis. An asset that is retired or replaced from service no longer qualifies as a capital asset (it no longer is used in operations). It should be removed from capital asset lists and the loss should be recognized in the current fiscal year if the asset still has its carrying value. When a capital asset is replaced, the value of the new asset and its estimated useful life will be added.

4-1.711 RECORDKEEPING

Invoices related to the capital assets shall be retained in accordance with the Record Retention Schedule within the District's Records Management Policy or a specific length of time required by the contracts, agreements, and legal requirements.

4-1.712 DEFINITIONS

- (a) **Capital Assets**: Land, improvements to land, easements, buildings, building improvements, vehicles, machinery, equipment, works of art and historical treasures, infrastructure, and all other tangible or intangible assets that are used in operations and that have initial useful life extending beyond a 3-year reporting period.
- (b) **Capitalization Threshold**: Dollar value at which a District elects to capitalize tangible or intangible assets that are used in operations and that have initial minimum useful life extending beyond a 3-year reporting period. Generally, capitalization thresholds are applied to individual items rather than groups of items unless the result would be to exclude items that would clearly be material to the financial statements in the aggregate.
- (c) **Depreciation**: The systematic and rational allocation of the estimated historical cost of a capital asset, or if donated, the fair market value of the capital asset at the time of donation, over its estimated useful service life.
- (d) **Donated Asset**: An asset that the District receives in a nonreciprocal transfer, which means the District provides nothing in return for receiving the donated asset. The cost of a donated asset shall be based on the appropriate fair market value the District would have had to pay to acquire the donated asset.
- (e) **Estimated Useful Life**: The period of time over which an asset's cost will be depreciated.
- (f) **Fair Market Value**: An amount that a willing buyer would pay to a willing seller, both in a free market, for an asset.
- (g) **GASB**: Established in 1984, the Governmental Accounting Standards Board (GASB) is the independent, private-sector organization based in Norwalk, Connecticut, that establishes accounting and financial reporting standards for U.S. state and local governments that follow Generally Accepted Accounting Principles (GAAP).
- (h) **GASB 34**: This Statement establishes new financial reporting requirements for state and local governments throughout the United States and can be

found at

- (l) Historical Cost: The actual exchange value in dollars at the time the asset was acquired. It is measured by cash or cash equivalent price of obtaining the asset and charges necessary to bring it to its intended location and to place the asset in its intended condition for use.
- (m) Infrastructure: The structures that support a society, such as roads, water supply, wastewater, power grids, flood management systems, telecommunications (Internet, telephone lines, broadcasting), and so forth.
- (n) Impairment: Significant, unexpected decline in the service utility of a capital asset.
- (o) Improvement: Addition made to, or change made in, a capital asset, other than maintenance, to prolong its life or increase its capacity. The cost of the addition or change normally is added to the book value of the asset.
- (p) Intangible Asset: An asset that lacks physical substance or is nonfinancial

in nature. All intangible assets not specifically excluded by the provisions in this policy should be classified as capital assets. If there are no factors that limit the useful life of an intangible asset, GASB 34 provides that the intangible asset be considered to have an indefinite useful life. Intangible assets with indefinite useful lives should not be amortized unless their useful life is subsequently determined to no longer be indefinite due to a change in circumstances.

- (q) Leased Asset: An asset that is based on the principle that a lease finances the right to use the underlying asset. The treatment for lease assets should be following the guidance of GASB 87, but first the asset has to meet the requirements of capitalization.
- (r) Replacement: The substitution of a new facility or component of an existing facility.
- (s) Straight-Line Depreciation Method: Is determined by the following formula:
$$(\text{Cost-Salvage value}) / \text{Estimated useful life} = \text{Depreciation per period.}$$
- (t) Tangible Asset: Long-lived capital assets that normally are stationary in nature and can be preserved for a significantly greater number of years than most capital assets. Examples include roads, bridges, tunnels, drainage systems, water and sewer systems, dams, and lighting systems.

ARTICLE 8. STANDBY CHARGE POLICY

4-1.801 PURPOSE

The Standby Charge Program was initially established in 1991, amended the following year and currently follows California Government Code Section 54984. The Standby Charge is considered annually by the Board for re-adoption based on review of progress towards the initial estimates for the recycled water program and the need to continue the annual collection to partially pay the annual debt service.

4-1.802 BACKGROUND⁹³

The drought of 1987-92 led to voluntary water rationing due to restrictions in available imported water supplies. During that time period West Basin Municipal Water District (West Basin), the imported water wholesaler for southwest Los Angeles County, was only delivering 20 percent of committed imported water purchases, creating a shortage in water supply for the region. Immediate action was called for to help alleviate drought impacts. Residents and businesses were conserving but it was not enough to make up for the shortfall in imported water supplies. Because there is no way to predict the length of drought and when it may reoccur, West Basin explored several alternatives to meet the water supply demands of its service area. As part of that effort, the West Basin Board made the visionary decision to develop a world class water recycling program that would encourage commercial, industrial and landscape users to replace a portion of their potable water usage with customer tailored recycled water, treated to meet individual needs. Connecting these types of users to a recycled water supply would conserve millions of gallons of the region's drinking water per day.

To assist in creating a new local drought-proof supply, West Basin implemented a Standby Charge to help West Basin achieve and finance a water recycling program. The new recycled water program would include a treatment plant, distribution pipelines and appurtenances, along with water conservation and brackish groundwater desalting projects.

West Basin set an original target to ultimately produce 70,000-100,000 acre-feet per year (AFY) of recycled water to conserve potable drinking water supplies.

4-1.803 STANDBY CHARGE

The Standby Charge has been in place since Fiscal Year (FY) 1991-92 and was originally set at \$10 per parcel on parcels less than one acre and a rate of \$10 per acre or portion thereof, for parcels greater than one acre. In FY 1992-93, the Standby Charge was modified to a variable charge to reflect the benefits associated with different types of land users. The methodology for determining the variable charge is described in West Basin’s engineer’s report that was originally prepared in 1992 and reviewed annually.

The Standby Charge rates are as follows:

- (a) \$16 per dwelling unit for a multi-unit residential property;
- (b) \$24 per parcel for parcels less than one acre and a rate of \$24 per acre or portion thereof, for parcels greater than one acre for single family and duplex properties; and
- (c) For other than residential parcels, a rate of \$120 per parcel for parcels less than one acre and a rate of \$120 per acre or portion thereof, for parcels greater than one acre.

4-1.804 ROLES AND RESPONSIBILITIES

The Standby Charge Policy is reviewed and considered annually for adoption by the Board. Future updates to the Standby Charge Policy will require approval by the Board.

The Chief Financial Officer is the designated administrator of the Standby Charge Policy. The Chief Financial Officer has the day-to-day responsibility for managing and monitoring the Standby Charge Program. The General Manager is responsible for implementing the Board’s policy and ensuring compliance.

4-1.805 DEFINITIONS^{94, 95}

- (a) Actual Debt Coverage is calculated based on net revenue divided by annual debt service at the completion of any one fiscal year.
- (b) Budgeted Debt Coverage is calculated based on net revenue, as determined in the adopted Fiscal Year budget, divided by annual debt service.

- (c) Debt Service are those portions of the principal amount of all outstanding bonds or other debt instruments required to be redeemed or paid, and interest payments on bonds or other debt instruments used to finance capital facilities.
- (d) Designated Funds are unrestricted funds that can be used for any lawful purpose at the discretion of the Board of Directors.
- (e) Cash Available for Capital Projects and Other Purposes is calculated as the difference between Net Revenues and Debt Service.
- (f) Net revenue is the difference between revenues and operating expenses. Revenues include all water revenues, capital contributions, conservation revenue, grants (excluding non-cash grants) or other non-operating revenues. Operating expenses include water purchases and operating program expenses, but excludes non-cash items like depreciation, amortization or unrealized gains or losses.
- (g) Standby Charge is an annual charge paid by property owners in West Basin's service area to fund the debt service obligation on West Basin's water recycling facilities.
- (h) Standby Charge Defeasance Fund is a Board designated fund where monies will be set aside to accumulate to an amount sufficient to pay the remaining debt service.
- (i) Surplus Net Revenues is calculated when the actual debt coverage exceeds the budgeted debt coverage and represents the difference between actual and budgeted Cash Available for Capital Projects and Other Purposes less capital grants and capital reimbursements.

4-1.806 ANNUAL REVIEW OF THE STANDBY CHARGE^{96,97}

When the Standby Charge was initially established, certain assumptions were presented to the Board and the public about the recycled water program, including the future need for the Standby Charge. Those initial assumptions include:

- (a) The timing to construct the needed recycled water facilities to meet the estimate of future delivery of 70,000-100,000 AFY and the related debt

- necessary to support those efforts;
- (b) The expected timing of when the recycled water deliveries would occur;
- (c) The expected increased cost of imported water; and
- (d) The cost to produce recycled water.

Annually, West Basin staff reviews the original goals and assumptions with the Board to determine the continuance of the Standby Charge. This information is to be considered part of West Basin's annual budgeting process and Standby Charge proceedings. At a minimum, the Standby Charge proceedings are to follow the California Government Code Section 54984 and shall occur prior to the Board considering re-adoption of the Standby Charge each year.

4-1.807 CONSIDERATION OF STANDBY CHARGE CONTINUATION^{98,99}

The Board may consider eliminating the Standby Charge if it determines that the original estimate of 70,000 to 100,000 AFY will be or has been met and all of the associated debt to meet those deliveries has been paid.

If the actual debt coverage exceeds budgeted debt coverage, the Board may set aside up to 100% of the monies; hereafter referred to as Surplus Net Revenue.

If the actual debt coverage falls below the budgeted debt coverage, no monies can be set aside.

The Board has created a designated fund, the Standby Charge Defeasance Fund, in which any Surplus Net Revenue is deposited, per the Board's direction.

Once sufficient monies have been set aside in the Standby Charge Defeasance Fund to pay the remaining principal, accrued interest and prepayment penalties, if any, the Board may consider eliminating the Standby Charge.

4-1.808 ANNUAL REPORTING REQUIREMENT¹⁰⁰

As part of initiating the Standby Charge proceedings each year, staff will provide an annual report of the following matters:

- (a) A calculation of the Surplus Net Revenue based on the final audited financial statements;
- (b) An account summary of the Standby Charge Defeasance Fund; and

- (c) An analysis that compares the balance of the Standby Charge Defeasance Fund to the remaining principal and any accrued interest or prepayment penalties.

4-1.809 FURTHER INFORMATION

Request for information pertaining to the Standby Charge Program can be obtained through filing a Public Records Request. A form is available by contacting West Basin or visiting www.westbasinca.gov.

ARTICLE 9. DISCLOSURE PROCEDURES^{101,102,103}**4-1.901 PURPOSE**

The purpose of this Disclosure Procedures Policy (the “Policy”) is to memorialize and communicate procedures in connection with obligations, including notes, bonds and certificates of participation, issued by or on behalf of the West Basin Municipal Water District (the “District”) so as to ensure that the District continues to comply with all applicable disclosure obligations and requirements under the federal securities laws.

The Policy shall be reviewed periodically. Future updates, if necessary, to the Policy require approval by the Board of Directors of the District.

4-1.902 BACKGROUND

The District from time to time issues certificates of participation, revenue bonds, notes or other obligations (collectively, “Obligations”) in order to fund or refund capital investments, other long-term programs and working capital needs. Obligations may be issued directly by the District, on behalf of the District by the West Basin Financing Corporation or through joint powers agencies (collectively, the “Issuer”). In offering Obligations to the public, and at other times when making certain reports, the District and/or the Issuer (if other than the District) must comply with the “anti-fraud rules” of federal securities laws. (“Anti-fraud rules” refers to Section 17 of the Securities Act of 1933 and Section 10(b) of the Securities and Exchange Act of 1934, and regulations adopted by the Securities and Exchange Commission (“SEC”) under those Acts, particularly “Rule 10b-5” under the 1934 Act.)

- (a) Core Requirement. The core requirement of these rules is that potential investors in Obligations must be provided with all “material” information relating to the offered Obligations. The information provided to investors must not contain any material misstatements, and the District and/or the Issuer (if other than the District) must not omit material information which would be necessary to provide to investors a complete and transparent description of the Obligations and the District’s financial condition. In the context of the sale of securities, a fact is generally considered to be

“material” if there is a substantial likelihood that a reasonable investor would consider it to be important in determining whether or not to purchase the securities being offered.

- (b) Disclosure Documents. When the District issues Obligations, the two central disclosure documents which are prepared are a preliminary official statement (“POS”) and a final official statement (“OS”, and collectively with the POS, “Official Statement”). The Official Statement generally consists of (i) the forepart (which describes the specific transaction including maturity dates, interest rates, redemption provisions, the specific type of financing, the leased premises (in certificate of participation financings) and other matters particular to the financing, (ii) a section which provides information on the District, including its financial condition as well as certain operating information (“District Section”), and (iii) various other appendices, including the District’s audited financial report, form of the proposed legal opinion, and form of continuing disclosure undertaking. Investors use the Official Statement as one of their primary resources for making informed investment decisions regarding the Obligations.

4-1.903 DISCLOSURE PROCESS

When the District determines to issue Obligations directly or through an Issuer, the Executive Manager of Finance shall request the involved departments to commence preparation of the portions of the Official Statement (including particularly the District Section) for which they are responsible. While the general format and content of the Official Statement may not normally change substantially from offering to offering, except as necessary to reflect major events, the Executive Manager of Finance and other relevant staff are responsible for reviewing and preparing or updating certain portions of the District Section which are within their particular areas of knowledge. Once the Official Statement has been substantially updated, the entire Official Statement shall be shared with the General Manager for review and input. Additionally, all participants in the disclosure process are separately responsible for reviewing the entire Official Statement.

Members of the financing team, including the Bond Counsel and a financial

advisor, assist staff in determining the materiality of any particular item and in the development of specific language in the District Section. The financing team shall review the official statement to affirm all pertinent information has been disclosed.

The Executive Manager of Finance or a member of the financing team at the direction thereof shall schedule one or more meetings or conference calls of the financing team and the underwriter of the Obligations, and the underwriter's counsel to discuss the Official Statement and the District Section. Such communications may occur via electronic means rather than by meetings or conference calls. During this part of the process, there is substantial contact among District staff and other members of the financing team to discuss issues which may arise, determine the materiality of particular items and ascertain the prominence in which the items should be disclosed.

Prior to distributing a POS to potential investors, the District shall have a due diligence call to address questions and obtain final comment.

The POS shall be provided to the District Board of Directors in advance of approval to afford the Board of Directors an opportunity to review the POS, ask questions and make comments. Through a District resolution, the POS is approved by the Board of Directors which authorizes certain senior staff to make additional corrections, changes and updates to the POS in consultation with General Counsel and Bond Counsel.

At the time the POS is posted for review by potential investors, senior District officials execute certificates deeming certain portions of the POS complete (except for certain pricing terms) as required by SEC Rule 15c2-12.

Any changes or developments since posting of POS shall be reflected in the final OS and shall be delivered to the actual investors in the Obligation. If necessary to reflect developments following publication of the POS or OS, as applicable, supplements will be prepared and published.

In connection with the closing of the transaction, (a) one or more senior District (and under certain circumstances the Issuer) officials execute certificates stating that certain portions of the OS, as of the date of each OS and as of the date of closing, does not contain any untrue statement of material fact or omit to state any material fact necessary to make the statements contained in the OS in light of the circumstances under which they were made, not misleading; (b) General Counsel provides an opinion letter

(generally addressed to the underwriters) advising that information contained in the District Section of the OS (or specified portions thereof) as of its date did not, and as of the date of the closing, does not contain any untrue statement of a material fact or omitted or omits to state any material fact necessary to make the statements therein, in light of the circumstances under which they were made, not misleading. General Counsel does not opine to the underwriters or to other third parties as to any financial, statistical, economic or demographic data or forecasts, charts, tables, graphs, estimates, projections, assumptions or expressions of opinion, and certain other customary matters.

4-1.904 DISTRICT SECTION

The Policy shall be provided to all members of senior staff and any other member of the District that is involved in the District's disclosure obligations.

The information contained in the District Section shall be prepared by staff under the direction of the Executive Manager of Finance, with the assistance of the financing team. The following principles govern the work of the respective staffs that contribute information to the District Section:

- (a) District staff involved in the disclosure process is responsible for being familiar with its responsibilities under federal securities laws as described above.
- (b) District staff involved in the disclosure process should err on the side of raising issues when preparing or reviewing information for disclosure. Officials and staff are encouraged to consult General Counsel, Bond Counsel or members of the financing team if there are questions regarding whether an issue is material or not.
- (c) Care should be taken not to shortcut or eliminate any steps outlined in the Procedures on an ad hoc basis. However, the Procedures are not necessarily intended to be a rigid list of procedural requirements, but instead to provide guidelines for disclosure review. If warranted, based on experience during financings or because of additional SEC pronouncements or other reasons, the District should consider revisions to the Procedures.

- (d) The process of updating the District Section from transaction to transaction should not be viewed as being limited to updating tables and numerical information. While it is not anticipated that there will be major changes in the form and content of the District Section at the time of each update, everyone involved in the process should consider the need for revisions in the form, content and tone of the sections for which they are responsible at the time of each update.
- (e) The District must make sure that the staff involved in the disclosure process is of sufficient seniority such that it is reasonable to believe that, collectively, they are in possession of material information relating to the District, its operations and its finances.

4-1.905 TRAINING

Periodic training for the staff involved in the preparation of the Official Statement (including the District Section) shall be coordinated by the Executive Manager of Finance. These training sessions are provided to assist staff members involved in identifying relevant disclosure information to be included in the District Section. The training sessions also provide an overview of federal laws relating to disclosure, situations in which disclosure rules apply, the purpose of the Official Statement and the District Section, a description of previous SEC enforcement actions and a discussion of recent developments in the area of municipal disclosure. Staff are to contact the Executive Manager of Finance or Bond Counsel at any time if they have questions.

4-1.906 ANNUAL CONTINUING DISCLOSURE REQUIREMENTS

In connection with the issuance or execution and delivery of Obligations, the District has entered into a number of contractual agreements ("Continuing Disclosure Certificates") to provide annual reports related to its financial condition (including its audited financial statements) as well as notice of certain events relating to the Obligations specified in the Continuing Disclosure Certificates. The District must comply with the specific requirements of each Continuing Disclosure Certificate. The District's Continuing Disclosure Certificates generally require that the annual reports be filed within 270 days after the end of the District's fiscal year, and event notices are generally required to be

filed within 10 days of their occurrence. Filing is centralized on the MSRB's Electronic Municipal Market Access ("EMMA") web site and portal.

Specific events which require "material event" notices are set forth in each particular Continuing Disclosure Certificate. Timely filing of any changes in credit ratings on Obligations (including changes resulting from changes in the credit ratings of insurers of particular Obligations) shall be made.

The Executive Manager of Finance shall be responsible for preparing and filing the annual reports and material event notices required pursuant to the Continuing Disclosure Certificates.

An amendment to SEC rule 15c2-12 (the "Rule") became effective as to underwriters of publicly offered municipal securities on February 27, 2019 (the "Effective Date"). As a result, we would expect that with respect to any debt offered publicly by the District or an Issuer after the Effective Date to which the Rule applies, the District will be required to enter into a continuing disclosure certificate pursuant to which it will agree to provide notice on EMMA of the incurrence of any "financial obligation" if material and will be obligated to disclose default on and certain other information with respect to any "financial obligation" regardless of when the financial obligation was incurred.

The Rule provides a general definition of a "financial obligation." While the impetus for the proposed changes to the Rule was a perception by the SEC and others that municipal issuers were increasingly entering into bank or other private placement debt, the final amendment to the Rule defines "financial obligation" more broadly to include "a debt obligation, derivative instrument or a guarantee of either a debt obligation or a derivative instrument."

To date the SEC has provided limited guidance on the specific application of the definition of "financial obligation". The SEC release accompanying the final amendment does suggest a key concept is that a "financial obligation" involves the borrowing of money. In public comments representatives of the SEC have declined to provide a definition of a "guarantee" but did indicate that the SEC will not look to state law definitions of a "guarantee" or "debt".

The District will need to monitor agreements or other obligations entered into by the District or the Issuer after the Effective Date, and any modifications to such

agreements or other obligations, carefully to determine whether they constitute “financial obligations” under the Rule and, if material, would need to be disclosed on EMMA within 10 business days of execution or incurrence.

In addition, if the District or the Issuer receives a notice of default or an event of default or of an acceleration, termination event, modifications of or other similar event on any agreement or other obligation after the Effective Date, the District will need to determine whether such obligation constitutes a financial obligation (regardless of when originally incurred) and whether such default or other event reflects financial difficulty (i.e., reduction in overall liquidity, creditworthiness or debt owner’s rights).

A. Types of agreement or other obligations which are likely to be “financial obligations” under the Rule include:

- (a) Bank loans or other obligations which are privately placed;
- (b) State or federal loans;
- (c) Commercial paper or other short term-term indebtedness for which no offering document has been filed on EMMA;
- (d) Letters of credit, surety policies or other credit enhancement with respect to the District’s publicly offered debt;
- (e) Letters of credit, including letters of credit which are provided to third parties to secure the District or Issuer’s obligation to pay or perform (an example of this is a standby letter of credit delivered to secure the District’s obligations for performance under a mitigation agreement);
- (f) Capital leases for property, facilities, fleet or equipment; and
- (g) Agreements which guarantee the payment or performance obligations of a third party (regardless of whether the agreements constitute guarantees under California law).

B. Types of agreement which could be a “financial obligation” under the Rule include:

- (a) Payment agreements which obligate the District or the Issuer to pay a share of another public agency’s debt service (for example, an agreement with a

- joint powers agency whereby the District of the Issuer agrees to pay a share of the joint powers agency's bonds, notes or other obligations);
- (b) Service contracts with a public agency or a private party pursuant to which the District or Issuer is obligated to pay a share of such public agency or private party's debt service obligation (for example, certain types of P3 arrangements);
 - (c) Water purchase or other similar agreements pursuant to which the District or the Issuer is obligated to pay amounts expressly tied to the other party's debt service obligations, regardless of whether service is provided or not; and
 - (d) Water purchase or similar agreements which include a rate component that expressly passes through debt service or capital obligation of the other party.

Types of agreements which may be a "financial obligation" subject to the Rule include:

- (a) Any agreement the payments under which are not characterized as an operation and maintenance expenses for accounting purposes if such agreement could be characterized as the borrowing of money;

Debt management staff will continue to work with General Counsel and bond counsel to refine the definition of financial obligation going forward based on future SEC guidance, if any.

4-1.907 INFORMATION/STATEMENTS AVAILABLE TO THE PUBLIC

The Office of Municipal Securities ("OMS") released a bulletin on February 7, 2020 which states that, in the view of the OMS, the antifraud provisions of SEC Rule 10b-5 apply to all municipal issuer statements that provide information that is reasonably expected to reach investors and the trading markets regardless of the intended primary audience and the medium of delivery. The following sections provide guidance to District staff and officials with respect to information and statements relating to the District that could reach the investment market outside of the context of Official Statements or in Annual Reports.

- (a) Information on the District Website. The SEC has noted that, in circumstances where it is not apparent to the reasonable person that the posted materials or statements on a public company's website speak as of a certain date or earlier period, previously posted materials or statements that have been put on a public company's website should be separately identified as historical or previously posted materials or statements, and located in a separate section of the website.

When placing or updating information or reports on the District website, historical information should be clearly identified and located in separate section of the website. For example, when uploading the District's Annual Comprehensive Financial Reports (ACFR), the most recent ACFR should be clearly identified and posted in a separate section from prior year ACFRs.

Hyperlinks to third-party websites on the District's website should be avoided when possible. If hyperlinks to third-party websites are included on the District's website, an appropriate disclaimer to the effect that the District has not verified and is not responsible for the information on such third-party website should be included. In addition, statements as to why the District is including the hyperlink on its website, the nature of the hyperlink, and use of disclaimers, "exit notices," or "intermediate screens" should be included or employed, as appropriate. District staff are encouraged to reach out to debt management staff and General Counsel for guidance with respect to the inclusion of hyperlinks to third-party websites on the District's website. In summaries of events or developments with respect to the District included on the District's website, consideration should be given as to whether such summaries provide sufficient context so as to not be misleading. If additional information is necessary to provide sufficient context to the summary, a hyperlink to such information should be used.

- (b) Public Reports. The SEC has cited certain reports, including those that are produced by the District (ACFRs, budgets, and other financial reports), as information reasonably expected to reach investors and the trading

markets, and therefore subject to the antifraud provisions, even if not filed with EMMA.

Reports produced by the District, including staff reports for agenda items and those that may be provided to other governmental bodies or regulators should include appropriate disclaimer language. District staff should contact debt management staff and General Counsel for disclaimer language before any reports that could reasonably reach investors are finalized and made available to the public.

- (c) Statements Made by District Officials. When making public statements, including verbal statements, District elected officials and staff should give consideration as to whether such statements can reasonably be expected to reach investors and if so, whether such statements could be materially misleading. District officials are encouraged to clearly identify when a public statement relating to the District is a personal expression of opinion. District elected officials and staff should contact debt management staff and General Counsel for guidance if there is a question as to whether statements, including verbal statements, can be reasonably expected to reach investors and whether such statements could be materially misleading.

- (a) The purpose of this Policy is to clarify West Basin Municipal Water District's ("District") position on potential conflicts-of-interest that may arise when consultants or contractors (collectively, "Proposer") perform work for the District relating to potential progressive design-build and/or design-build projects (together, a "Design-Build Project").
- (b) Organizational conflicts-of-interest can occur when, because of existing or planned activities or because of relationships with other entities, a Proposer is unable or potentially unable to render impartial assistance or advise the District; a Proposer's objectivity in performing the contract work is or might be otherwise impaired; or a Proposer has an unfair competitive advantage.
- (c) The policies and guidelines concerning the organizational conflicts-of-interest found herein may be specified or referenced in the Request for Qualifications ("RFQ") and/or Request for Proposal ("RFP") documents for a Design-Build Project as well as any contract for the engineering/design services, inspection, or technical support in the administration of a Design-Build Project.
- (d) Resolution of conflict-of-interest issues is ultimately at the sole discretion of the District. District reserves the right to cancel or amend the resulting contract(s) if a successful Proposer failed to disclose a potential conflict, which it knew or should have known about, or if a Proposer provided information in response to an inquiry from the District that is false or misleading. Failure to disclose a potential conflict as described and/or providing false or misleading information is a material breach of any resulting contract(s). In the event the District cancels the contract(s) for any of the reasons above, the Proposer is responsible for and shall reimburse the District for any and all costs incurred by the District, including payments made by the District to the Proposer, to the date of termination. In the event

the District amends the contract(s) for any of the reasons above, the Proposer is responsible and shall reimburse the District for any costs incurred by the District resulting from such amendment.

- (e) After award, conflict-of-interest guidelines and policies shall continue to be monitored and enforced. If an organizational conflict-of-interest is discovered after award, the Proposer will make an immediate and full written disclosure to the District that includes a description of the action that the Proposer has taken or proposes to take to avoid or mitigate such conflicts. If an organizational conflict-of-interest is determined to exist and the Proposer was aware of an organizational conflict-of-interest prior to award of the contract and did not disclose the conflict-of-interest, the District may terminate the contract with the Proposer and if such contract is terminated, the District assumes no obligations, responsibilities and liabilities to reimburse all or part of the costs incurred or alleged to have been incurred by the Proposer and consistent with subsection (d) above, the Proposer shall be responsible for all of District's costs.

5-1.202 APPROACH

The following approach to conflict-of-interest will apply to District procurements relating to a Design-Build Project:

- (a) A potential Proposer will not be allowed to participate as a design-build entity or to join a design-build team if, without limitation, any of the following is true:
- (1) Proposer is the District's design consultant, owner's representative, or otherwise providing contractual services on the Design-Build Project.
 - (2) Proposer is assisting in the procurement and/or management of the Design-Build Project, including the preparation of the RFQ and/or RFP language or evaluation criteria.

- (3) Proposer has performed work on a previous contract that specifically excludes them from participating as a design-build entity or joining a design-build team on the Design-Build Project.
 - (4) Proposer is under contract with any other entity or stakeholder to perform oversight on the Design-Build Project.
 - (5) Proposer would violate applicable federal and state conflict-of-interest rules and regulations by participating as a design-build entity or joining a design-build team.
- (b) Proposers who may have potential conflicts-of-interest in relation to a Design-Build Project and wish to participate as a design-build entity or join a design-build team must:
- (1) Conform to applicable federal and state conflict-of-interest rules and regulations including, without limitation, the California Political Reform Act, California Government Code Section 1090, the federal Copeland “Anti-Kickback” Act and federal conflict-of-interest rules set forth in the federal funding agency’s administrative grant and cooperative agreement regulations. Federal conflict-of-interest rules and regulations shall only apply where the Design-Build Project receives federal funding.
 - (2) Disclose all relevant facts relating to past, present or planned interest(s) of the Proposer’s team (including the Proposer, Proposer’s proposed consultants, contractors, subconsultants and/or subcontractors and their respective chief executives, directors and key personnel) which may result, or could be viewed as an organizational conflict-of-interest in connection with any Design-Build Project procurement, including present or planned contractual or employment relationships with any current employee of the District.
 - (3) Disclose in the response documents to an RFQ and/or RFP for a Design-Build Project, all of the work performed in relation to the Design-Build Project being procured under the RFQ and/or RFP,

when requested.

- (4) Provide all records of the work performed in relation to the Design-Build Project to the District so that all information can be evaluated and made available to all potential design-build teams, if necessary.
 - (5) Ensure that the Proposer's contract with any entity to perform services related to the Design-Build Project has expired or has been terminated.
- (c) Upon review of the information provided above, the District's General Manager will determine, in their sole discretion, if the Proposer has an organizational conflict-of-interest. Decisions of the District's General Manager regarding organizational conflicts-of-interest may be appealed to the District Board. The decision of the District Board shall be final with respect to the disposition of the organizational conflict-of-interest and non-appealable.
- (d) For other potential conflicts-of-interest not mentioned above (e.g. employee changing companies, merger/acquisitions of firms, property ownership, business arrangements, financial interest), Proposers shall disclose and address any conflicts-of-interest or potential conflicts-of-interest when participating as a design-build entity or joining a design-build team. District will then determine if an organizational conflict-of-interest exists.
- (e) The successful Proposer or firms affiliated with the successful Proposer are prohibited from competing on any agreement to provide construction inspection services for the Design-Build Project. An affiliated firm is one, which is subject to the control of the same persons, through joint ownership or otherwise. No subconsultants who are providing design services in connection with the Design-Build Project shall be eligible to compete for any agreement with the District to provide construction inspection services for the Design-Build Project.
- (f) The forgoing shall not constitute a limitation on the obligations of the Proposer in relation to organizational conflicts-of-interest.

CHAPTER 2. SMALL AND LOCAL BUSINESS ENTERPRISE PROGRAM

5-2.101 POLICY^{1,2}

The District encourages the utilization of either small and local businesses as defined by section 5-2.102. To promote the participation of Small and Local Business Enterprises in the competitive Solicitation process, the District has established a program that provides incentives to encourage small and local Vendors to participate in District Solicitations.

The goal of the program is to reduce barriers, and to take advantage of the economic benefits and enhanced community participation their utilization provides. In addition, the District encourages all Prime Contractors/Consultants/Suppliers (Prime(s)) to utilize small and local business Subcontractors, Subconsultants, and Subsuppliers (Sub(s)), whether at a first tier or a lower tier Sub level. Lower tier Subs, must provide services and/or materials directly related to the project or they will not qualify to meet the goal.

5-2.102 DEFINITION OF TERMS^{3,4}

The Definitions outlined in Chapter 1, Section 5-1.102 of this Code, along with the following definitions shall apply to this chapter:

- (a) Local Business Enterprise (LBE): To be considered as a Local Business Enterprise, a Vendor must provide evidence, in the form of a business license, that the Vendor is located at a fixed commercial or residential address where administrative, clerical, professional or other productive work is performed relative to its commercial purpose. The Vendor must be located either within the District's service area or within 25 miles of the District's Carson headquarters for a minimum of one year.
- (b) Participation Goal: The District sets a 10% annual target for SBE and LBE participation.
- (c) Prime(s): Abbreviation for Prime Contractor/Consultant/ Supplier.

with the District and has the full responsibility for its completion. A Prime Consultant may employ and manage one or more subconsultants to carry out specific parts of the Contract.

- (e) Prime Contractor: Contractor who has a Non-Professional Services Agreement with the District and has the full responsibility for its completion. A Prime Contractor may employ and manage one or more subcontractors to carry out specific parts of the Contract.
- (f) Small Business Enterprise (SBE): To be considered as a Small Business Enterprise and to encourage maximum participation, the District will accept a Vendor that meets and is certified to the federal U.S. Small Business Administration (SBA) size standards or the SBE standards set by the California Department of General Services (DGS). In addition, the District will accept a Vendor's self-certification of any local agency within the State of California. All certifications are subject to verification.
- (g) Subs: Abbreviation for Sub Contractor/Consultant/Supplier
- (h) Subconsultant: A Consultant who is awarded a portion of an existing Contract by a Prime Consultant. The Subconsultant performs work under a contract with a Prime Consultant.
- (i) Subcontractor: A Contractor who is awarded a portion of an existing Contract by a Prime Contractor. The Subcontractor performs work under a contract with a Prime Contractor.
- (j) Sub supplier: A Supplier who contracts with a Prime Supplier/Consultant/Contractor to provide goods.

5-2.103 VENDOR REGISTRATION AND CERTIFICATION^{5,6}

To be considered as an SBE or LBE, interested Vendors must be certified by the due date of the Quote, Proposal, or Bid. Prior to the Contract award, the SBE or LBE shall be verified and may be audited by the District. In addition, interested Vendors are strongly encouraged to register with the District's online Solicitation system.

5-2.104 GOODS^{7,8}

For the purpose of evaluation of Informal and Formal competitive Quotations, the Quotations of SBEs or LBEs will be reduced by 3%. If the participant is both a small and a local business, the Quotation will be reduced by 6%. If, after this adjustment, the SBE or LBE is determined to be the most competitive Quotation, the actual Contract amount will be the amount originally quoted.

If a Prime Supplier includes a SBE or LBE as a Sub(s) in its Quote, the District will reduce the Prime's Quotation by 1% for participation from either SBE or LBE Sub(s) only if at least 30% of the total compensation paid by the District under the terms of the contract are allocated to and received by the SBE or LBE Sub(s).

5-2.105 EVALUATION FOR PROFESSIONAL SERVICES^{9,10}

All Formal and Informal Proposals for Professional Services will be evaluated on a 100-point scale. A value of three (3) additional points will be added to the evaluation scores of SBE or LBE participants who propose as Prime Consultants on Professional Services Agreements. If the participant is both a SBE and LBE, the Vendor will be awarded six (6) points.

If a Prime Consultant includes a SBE or LBE as a Sub(s) in its Proposal, the District will award one (1) point for participation from either SBE or LBE (Sub)s only if at least 30% of the total compensation paid by the District under the terms of the contract are allocated to and received by the SBE or LBE Sub(s).

In the event the proposed Services will be evaluated on a price basis only, the price Proposals of SBE or LBE will be reduced by 3% (6% if both SBE & LBE) based on the percentage of SBE or LBE participation consistent with the policy described in the paragraph above. If, after this adjustment, the SBE or LBE is determined to be the most competitive price Proposal, the actual Contract amount will be the amount originally proposed.

5-2.106 NON-PROFESSIONAL SERVICES^{11,12}

All Formal and Informal Proposals for Non-Professional Services will be evaluated on a 100-point scale. A value of three (3) additional points will be added to the evaluation scores of SBE or LBE who propose as Prime Contractors on Non-Professional Services Contracts. If the participant is both a SBE and LBE, the firm will be awarded six (6) points.

If a Prime Contractor includes a SBE or LBE as a Sub(s) in its Proposal, the District will award one (1) point for participation from either SBE or LBE Sub (s) only if at least 30% of the total compensation paid by the District under the terms of the contract are allocated to and received by the Small or Local Business Enterprise.

In the event the proposed Services will be evaluated on a price basis only, the price Proposals of SBE or LBE will be reduced by up to 3% (6% if both SBE & LBE) based on the percentage SBE or LBE participation consistent with the policy described in the paragraph above. If, after this adjustment, the SBE or LBE is determined to be the most competitive price Proposal, the actual Contract amount will be the amount originally proposed.

5-2.107 PUBLIC WORKS CONSTRUCTION^{13,14}

If a Prime Contractor intends to employ Subcontractors, and the amount of the Contract is less than \$3 million dollars, as determined by West Basin's engineer's estimate, the Prime Contractor will be required to a) attend the pre-bid meetings; and b) advertise for Subcontractor bids from SBEs or LBEs in one or more daily or weekly newspapers, trade association publications, trade journals, or other relevant media or demonstrate a communication log of its direct contact with small and local businesses.

If a Prime Contractor intends to employ Subcontractors, and the amount of the Contract is \$3 million dollars or more, as determined by West Basin's engineer's estimate, the Prime Contractor must, in addition to the requirements set forth above: a) provide written notice of its interest in receiving subcontractor Proposals to those SBEs or LBEs having an interest in participating in the work. These notices of interest must be provided not fewer than 10 calendar days prior to the date the Proposals are required to be submitted to the District; and b) the Prime Contractor must follow-up the initial Solicitations by

contacting the interested SBEs or LBEs to determine whether the SBEs or LBEs were interested in performing specific portions of the project. Such follow up contact must be made not fewer than 3 calendar days prior to the date the Bid is required to be submitted.

5-2.108 SHELTERED BIDDING^{15,16}

Sheltered bidding is designed to improve opportunities and build capacity for the SBE and LBE Vendors to compete for work with other like Vendors. The District is strongly encouraged to utilize sheltered bidding for competitive Solicitations up to \$50,000. The District Project Manager will make a good faith effort to request Solicitations only from eligible SBE or LBE Vendors, and are encouraged to use the online Solicitation system to identify these SBE and LBE participants.

5-2.109 SBE AND LBE PARTICIPATION REQUIREMENTS^{17,18}

To encourage participation of SBEs and LBEs, the District sets a 10% annual target for the Participation Goal for all eligible expenditures. The eligible expenditures will not include potable water charges (purchased for resale), debt service, permits, employee reimbursement, travel, sponsorships, memberships, and regulated utilities (electric, gas, water or telephone).

5-2.110 UTILIZATION OF SMALL BUSINESS ENTERPRISE AND LOCAL BUSINESS ENTERPRISE^{19,20}

During the term of the Contract, the Prime is required to utilize all Subs listed on the Quote, Proposal, or Bid. Any substitution of any Sub(s) requires approval from District management. If there is a substitution, the Prime shall provide documentation to the satisfaction of the District management that a reasonable effort was made to replace with another SBE or LBE Vendor.

5-2.111 CONTRACT AMENDMENTS^{21,22}

If the District approves a Change Order or Contract Amendment, the SBE or LBE participation goals may, at the discretion of management, apply to the Change Order or Contract Amendment. If the additional work includes scope that was initially assigned to the SBE or LBE, then the SBE or LBE should receive a proportional amount of the added work.

5-2.112 CONTRACT COMPLIANCE^{23,24}

The Prime(s) shall report the dollar value of payments to small or local Sub(s) on a monthly basis and at project close-out and will be subject to verification.

If the Sub SBE or LBE firm listed on a Prime's Quote, Proposal, or Bid loses its status prior to Contract award, the Prime will not receive SBE or LBE status for the District unless the Sub becomes eligible or the Prime replaces the affected SBE or LBE dollar amount/percentage and submits to the District for approval in order to proceed with the Contract award.

If the Sub(s) SBE or LBE firm listed on a Primes Quote, Bid, or Proposal loses its status during the term of the Contract, work performed on that Contract after the Sub loses its certification will continue to be credited toward meeting the District's Participation Goal. However, the firm may not be able to receive SBE or LBE status on future projects unless the firm is subsequently re-certified as an SBE or LBE.

Substitution of any SBE or LBE Sub(s) listed on a Prime's Quote, Proposal, or Bid must be approved by the District's management. Nothing herein shall be construed to supersede or limit the requirements for contractor substitutions provided in Section 4100 et seq. of the California Public Contract Code.

The District may conduct site visits and interviews with the Subs to verify proper and full utilization of SBEs and LBEs to meet Contract requirements. Primes and Subs shall fully cooperate with such monitoring.

Failure to comply with the SBE/LBE requirements may be considered a breach of contract.

5-2.113 PERIODIC REVIEW ^{25,26,}

The District will seek periodic comments from Primes and Subs on the effectiveness of the program. District staff shall report to the Board on the effectiveness of the program and include information on Contracts issued in the preceding fiscal year, and the payments to all SBE or LBE Contractors, Consultants, and Suppliers.

The District may, at its discretion, perform random audits of the program participants to ensure that the appropriate utilization of small and local businesses. The audit may include, but not be limited to, the verification of small and local business certification status, and interviews.

CHAPTER 3. ECONOMIC OUTREACH

5-3.101 POLICY

In 1996, a majority of California voters passed Proposition 209, which amended the California Constitution (at Article 1, Section 31) to prohibit public agencies from granting preferential treatment to any individual or group on the basis of race, sex, color, ethnicity or national origin to public contracting. This prohibition does not apply to action which must be taken to establish or maintain eligibility for any federal program, where ineligibility would result in a loss of federal funds. When action must be taken to establish or maintain such eligibility, the District will follow the guidelines set forth below:

5-3.102 DEFINITION OF TERMS

The following definitions shall apply to this chapter:

- (a) Economic Outreach Plan. A set of specific and result-oriented procedures designed to achieve equal employment opportunity.
- (b) Disadvantaged Business Enterprise (DBE). A small business concern with at least 51 percent owned by women or members of a minority group or disabled persons and who management and daily business operations are controlled by one or more of the women or members of a minority group who own it.
- (c) Disabled Person. A qualified individual with a disability as defined by the Americans with Disabilities Act of 1990.
- (d) Feasible. Capable of being accomplished economically within a reasonable period of time.
- (e) Minority. A person who is a citizen and a lawful permanent resident of the United States and who is:

- (f) Workforce Investment Board (WIB). A private or public agency devoted to assisting the recruitment and placement of disadvantaged persons or businesses.
- (g) Workforce. The number and demographics of the labor force living within the District's service area.

5-3.103 APPLICATION OF POLICY

When required to establish or maintain eligibility for federal funds, the District shall to the extent feasible:

- (a) Encourage Consultants to use the Services of the WIB or similar agencies to recruit disadvantaged persons and businesses.
- (b) Assure qualified and certified disadvantaged business enterprises are afforded maximum practicable opportunities to compete for procurement and construction awards consistent with the financial constraints of the District and with the rights of non-minority firms to compete equally for District awards.
- (c) Set a goal of 10 percent of the dollar value of Contracts executed during a fiscal year for the participation of DBEs either as prime Contractors or as subcontractors, as follows: at least 3.5 percent shall be allocated for minority-owned businesses, 3.5 percent for certified women-owned businesses, and 3 percent for disabled businesses where applicable.

- (e) The District shall keep on file reports, records and affirmative action plans

sufficient to ascertain compliance with this policy and with the requirements of federal law. The District shall submit such reports to the appropriate state or federal agency as required by law.

CHAPTER 4. DISPOSAL OF SURPLUS PROPERTY

5-4.101 POLICY

 - (2) To a public agency(s) located in the District's service area.
- (h) Demolition/Deconstruction of District Facilities. In such circumstances, the requirements of sections (a) and (b) above are excused, but District contracts let for such deconstruction or demolition shall ensure the District receives the reasonable value of any salvageable materials recovered in the deconstruction or demolition.
- (i) Surplus Computer Assets.

It is intended to ensure that the use of the facility is granted in a fair and equitable manner for meetings, activities, and events, which are recreational, social, or civil in nature, offering services of interest, and need to the community.

5-6.102 DESIGNATED DISTRICT FACILITIES AVAILABLE FOR PUBLIC USE

District facilities designated to be available for approved public use include the Board room in the Donald L. Dear Building Headquarters and the large conference room at the Edward C. Little Water Recycling Facility.

5-6.103 AUTHORIZED USERS

Agencies and organizations eligible for consideration to use designated District facilities shall be assigned in the following priority, at the discretion of the General Manager:

- a) West Basin Municipal Water District.
- b) Local governmental agencies, political subdivisions of the state of California, or organizations which provide or promote public water or wastewater service issues.
- c) Nonprofit organizations.
- d) Other groups.

5-6.104 REASONABLE RULES AND REGULATIONS

The General Manager may make reasonable rules and regulations for use by eligible agencies and organizations, provided that no use shall be inconsistent with the use of the facilities for District purposes or shall interfere with, or be disruptive to, the regular conduct of District business.

5-6.105 FEE ASSESSMENT

Use of designated District facilities may be subject to a charge related to administrative and other expenses based upon the Board's approval of a Facility Use Fee Schedule.

5-6.106 APPLICATION FOR ROOM RESERVATION

Government agencies and non-profit organizations making an application for use of District facilities must do so in writing using an application furnished by the District. Individuals applying for use of any facilities must certify that they are an authorized representative of the agency or organization. All facilities are reserved on a first-come, first-served basis, without regard to prior use, according to the priorities of authorized users in 5-6.103. Interested organizations shall pay all applicable fees at least fourteen (14) working days prior to the event.

5-6.107 HOURS OF OPERATION AND OTHER USE REQUIREMENTS

Hours of operation are limited to District recognized work days, subject to availability. The District may limit the hours of use by approved users to not more than four (4) days per month and not more than four (4) hours per use. Observed holidays are those included in the District's Administrative Code Section 3-4.403. No use shall be scheduled on observed holidays without written District approval.

The applicant must check-in with the District's on-site representative at the beginning time of the reservation and must be present for the duration of the event. The applicant must also checkout with on-site representative at the conclusion of the reservation. The District reserves the right to preempt uses, subject to reasonable notification to the approved user, in the event the facilities are needed for official District business.

5-6.108 MAINTENANCE OF FACILITIES

User shall be responsible for maintaining any used facility in the condition in which it is maintained by the District, including the arrangement of furniture and equipment. User may request to use the District's available audio/visual equipment for presentations. User

shall be responsible for the repair and replacement of any furniture and equipment, or any other District property damaged by the User, during the User's scheduled use. The District reserves the right to require approved Users to use the District's security services during certain uses as the District deems necessary. Expenses incurred as a result of security requirement will be borne by the approved User.

5-6.109 PROHIBITED USERS AND USES

Prohibited uses include, but are not limited to, the following: (1) Any use which interferes with, or is disruptive to, the regular conduct of District business; (2) Any use which promotes unlawful discrimination; (3) Any use which denies the use of the facility to any person because of race, religion, creed, national origin or ancestry, gender, sexual orientation, physical or mental disability; (4) Any use which involves the consumption of alcoholic beverages, tobacco, narcotics, or illegal substances of any kind; (5) Any use of the facilities by minors without continuous adult supervision; or (6) Gambling or any illegal activity.

5-6.110 INSURANCE REQUIREMENTS

Any agency or organization wishing to use designated District facilities shall be reasonably responsible, in the opinion of the general manager, to control, limit or cover any liability or damages which may arise out of the group function. If any activity results in damage or destruction to District property, the agency or organization involved shall pay an amount necessary to restore damaged property.

Upon approval of an application, the User may not transfer, assign, or sublet use of the District facility(ies) or apply for use on behalf of another person or organization. The User shall procure and maintain for the duration of the use of the District facility(ies), insurance against claims for injuries to persons or damages to property which may arise from or in connection with the use of the facility(ies) and the activities of the User, its guests, agent's representatives, or employees. The User shall provide and maintain the following commercial general liability, and workers' compensation liability insurance:

- a) **Coverage** - Coverage shall be at least as broad as the following:
1. **General Liability** - Insurance Services Office (ISO) Commercial General Liability Coverage (Occurrence Form CG 0001) with limit of at least two million dollars (\$2,000,000) per occurrence or the full per occurrence limits of the policies available, whichever is greater for bodily injury, personal injury, and property damage. If Commercial General Liability Insurance or other form with a general aggregate limit, either the general aggregate limit shall apply separately to the project/location (with the ISO CG 2503, or ISO CG 2504, or insurer's equivalent endorsement provided to West Basin Municipal Water District) or the general aggregate limit shall be twice the required occurrence limit.
 2. **Workers' Compensation Insurance** -. The User shall provide workers' compensation as required by the State of California, with Statutory Limits and Employer's Liability Insurance with limit of no less than **\$1,000,000** per accident for bodily injury or disease. **Waiver of Subrogation:** The User agrees to waive all rights of subrogation against West Basin Municipal Water District, its elected or appointed officers, officials, agents, volunteers, and employees for losses paid under the terms of this policy which arise from work/activities performed by the User.
 3. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to West Basin Municipal Water District.
- b) **Required Provisions** - The general liability policy is to contain, or be endorsed to contain, the following provisions:

Any insurance or self-insurance maintained by the District, its officers, officials, employees, or volunteers shall be excess of the User's insurance and shall not contribute with it.
- c) **Verification of Coverage** - User shall furnish the District with original certificates and amendatory endorsements effecting coverage required by the above provisions. All certificates and endorsements are to be received and approved by the District *at least five days* before the User use of the facility(ies) commences activities.

Failure to provide the required insurance certification prior to usage is grounds for cancellation of reservation and revocation of User privileges. The District does not provide supervision during scheduled uses of the facilities by approved Users and shall not be responsible for loss or damage to property or persons.
- d) **Waiver.** Waiver of these requirements will be considered at the discretion of the office of the general manager.

5-6.111 INDEMNIFICATION

The User shall indemnify and hold harmless and defend the District, its directors, officers, employees, or authorized volunteers, and each of them from and against any and all liability, loss, damage, expense, costs (including without limitation costs and fees of litigation), of every kind or nature arising out of or in connection with User’s use of facilities or its failure to comply with any of its obligations contained in the agreement.

5-6.112 REVISION AND REVOCATION

Part 6. ENVIRONMENTAL

CHAPTER 1. ENVIRONMENTAL REVIEW OF DISTRICT PROJECTS

ARTICLE 1. ENVIRONMENTAL

6-1.101 GENERAL¹

- (a) District projects shall be undertaken with due regard for the environmental consequences. This article implements the regulations adopted by the Secretary of Resources (hereinafter “State Guidelines”) to be followed by local agencies to implement the California Environmental Quality Act (CEQA). The State Guidelines are incorporated by this reference.
- (b) This article applies to discretionary activities directly undertaken by the District, discretionary activities financed in whole or in part by the District, and private activities, which require discretionary approval from the District.
- (c) Any designated ‘project’ shall require the General Manager or their designee to comply with current CEQA guidelines as outlined in Public Resources Code 21000–21189 and the State Guidelines (California Code of Regulations, Title 14, Division 6, Chapter 3, Sections 15000– 15387).

6-1.102 WATER CONSERVATION

The District shall encourage water conservation to the maximum extent feasible including the promotion of expanded use of reclaimed water.

LIST OF CHANGES TO PART 6, CHAPTER 1. ENVIRONMENTAL REVIEW OF DISTRICT PROJECTS

¹ Section 6-1.101 amended by Resolution No. 6-18-1091 dated June 25, 2018.

CHAPTER 2. CEQA

ARTICLE 1. ENVIRONMENTAL REVIEW OF DISTRICT PROJECTS

6-2.101 PROCESS¹

- (a) The District shall consider environmental documents prepared for a project before taking action on the project.
- (b) As a “lead agency”, the District shall decide whether to prepare environmental documents and which environmental document to prepare, as follows:
 - (1) The General Manager will first determine whether the activity is a project. The activity is not a project if the District lacks discretion to disapprove or modify the proposed activity. Nothing further is required if the activity is not a project.
 - (2) If the activity is a project, the General Manager will next determine if the project is exempt. A notice of categorical exemption will be filed if the activity is exempt.
 - (3) If the project is not exempt, the General Manager will prepare an initial study to determine whether the project may have a significant effect on the environment.
 - (4) If the initial study discloses the project is not expected to have a significant effect on the environment, the General Manager will prepare a negative declaration.
 - (5) If the initial study discloses that project is expected to have a significant effect on the environment, the General Manager will prepare an environmental impact report (EIR).
- (c) When another agency is the lead agency, the District may be a “responsible agency.” As a responsible agency, the General Manager will comment on the environmental documents prepared by the lead agency and use the environmental documents prepared by the lead agency during the District’s decision-making process.

- (d) The Board shall consider approval of a negative declaration, shall review and consider the final environmental documents, and shall making findings of significant environmental impact and of any overriding considerations prior to approving a project.

6-2.102 LEAD AGENCY PROCESS²

- (a) Where a project is to be carried out or approved by more than one public agency, one public agency shall be responsible for preparing an EIR or negative declaration for the project. This agency is the lead agency. The determination of which agency will be the lead agency shall be governed by the criteria set forth in the State Guidelines.
- (b) An agency which will carry out a project but which is not the lead agency is a responsible agency. The decision-making body of each responsible agency shall consider the lead agency’s EIR or negative declaration prior to acting upon or approving the project. The responsible agency shall assume the role of the lead agency only when conditions set forth in the State Guidelines exist.
- (c) The determination of the lead agency on whether to prepare an EIR or a negative declaration shall be final and conclusive on all persons, including responsible agencies, unless the decision is challenged under CEQA, circumstances or conditions change, or a responsible agency becomes a lead agency.
- (d) If there is a dispute over which of several agencies should be the lead agency for a project, the disputing agencies shall resolve the dispute in accordance with the State Guidelines.

6-2.103 ACTIVITIES NOT SUBJECT TO CEQA REVIEW³

- (a) The following activities are not “projects” within the meaning of CEQA and this Part:
 - (1) A project involving only feasibility or planning studies for possible

future actions which the District has not approved, adopted, or funded. Such projects still require consideration of environmental factors.

- (b) The District shall incorporate written findings in the record of any proceeding in which an exemption under this section is claimed setting forth with specificity the basis for the claim of exemption. In addition to the categorical exemptions specified in the California Code of Regulations Section 15300 *et seq.*, the following activities are exempt from the requirements of CEQA:
- (1) Approval of individual utility service connections and disconnections.
 - (2) Leasing of District owned, existing property where the use of the premises is not significantly changed.
 - (3) Construction of a pipeline of less than one mile in length within a public street or highway or any other public right-of-way or the maintenance, repairs, restoration, reconditioning, relocation, replacement, removal or demolition of an existing pipeline. For the purposes of this subsection, "pipeline" includes subsurface facilities but does not include any surface facility related to the operation of the underground facility.
 - (4) Projects to maintain, repair, restore, demolish, or replace property or facilities damaged or destroyed as a result of a disaster in a disaster stricken area in which a state of emergency has been proclaimed by the governor pursuant to the California Emergency Services Act commencing with Government Code Section 8550.
 - (5) Emergency repairs to public service facilities necessary to maintain service.
 - (6) Specific actions necessary to prevent or mitigate an emergency.
 - (7) Projects which are rejected or disapproved.
 - (8) The establishment, modification, structuring, restructuring, or approval of rates, tolls, fares, or other charges for the purpose of: Meeting operating expenses, including employee wage rates and fringe benefits; Purchasing or leasing supplies, equipment, or

material; Meeting financial reserve needs and requirements, or
Obtaining funds for capital projects necessary to maintain service
within existing service areas.

6-1.104 INITIAL STUDY⁴

- (a) Unless an activity is not subject to review or an exemption applies (or unless the District can determine the project will clearly have a significant effect, and an EIR is ordered), during the first step in the CEQA process, the General Manager shall prepare an initial study to determine if the project may have a significant effect on the environment.
- (b) If the project is to be carried out by a private person or private organization, the person or organization carrying out the project shall submit data and information, which will enable the District to prepare the initial study.
- (c) As soon as the District has determined that an initial study will be required for the project, the District shall consult informally with all responsible agencies and trustee agencies responsible for resources affected by the project to obtain the recommendations of those agencies as to whether an EIR or a negative declaration should be prepared.

6-2.105 DETERMINING SIGNIFICANT EFFECT⁵

- (a) In evaluating the significance of the environmental effects of a project, the General Manager shall consider both primary (or direct) and secondary (or indirect) consequences. Social and economic changes alone resulting from a project shall not be treated as significant effects on the environment. If physical changes cause or result from adverse economic or social changes, the economic or social changes may be used as the basis for determining that the physical changes are significant.
- (b) The General Manager shall find that a project may have a significant effect on the environment and require an EIR where any of the following conditions occur:

- (1) The project has the potential to degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, reduce the number or restrict the range of a rare or endangered plant or animal, or eliminate important examples of the major periods of California history or prehistory.
- (2) The project has the potential to achieve short-term environmental goals to the disadvantage of long-term environmental goals.
- (3) The project has possible environmental effects, which are individually limited but cumulatively considerable. As used in this subsection, "cumulatively considerable" means that the incremental effects of an individual project are considerable when viewed in connection with the effects of past projects, the effects of other current projects, and the effects of probable future projects.
- (4) The environmental effects of a project will cause substantial adverse effects on human beings, either directly or indirectly.

6-2.106 NEGATIVE DECLARATION⁶

- (a) A Negative Declaration shall be prepared for a project which could potentially have a significant effect on the environment, but which the General Manager finds on the basis of an Initial Study will not have a significant effect on the environment.
- (b) Before completing a Negative Declaration, General Manager shall consult with responsible agencies.
- (c) A Negative Declaration shall include:
 - (1) A brief description of the project, including a commonly used name for the project if any;
 - (2) The location of the project and the name of the project proponent;
 - (3) A finding that the project will not have a significant effect on the environment;

- (4) An attached copy of the Initial Study documenting reasons to support the finding;
 - (5) Mitigation measures, if any, included in the project to avoid potentially significant effects.
- (d) Notice of the preparation of a Negative Declaration shall be provided to the public twenty-one (21) days prior to consideration by the Board. The noticed review period shall be long enough to provide members of the public with sufficient time to respond to the proposed finding before the Negative Declaration is approved. Notice shall be given to all organizations and individuals who have previously requested such notice and shall be given by at least one of the following procedures as selected by the General Manager:
 - (1) Publication by the District no fewer times than required by Section 6061 of the Government Code in a newspaper of general circulation in the area affected by the proposed project.
 - (2) Posting of notice by the District on and off site in the area where the project is to be located.
 - (3) Direct mail notice shall be given to owners of property contiguous to the project as such owners are shown on the latest equalized assessment roll.
- (e) The Board may approve the Negative Declaration if it finds on the basis of the initial study and comments received that there is no substantial evidence the project will have a significant effect on the environment. The Board shall then consider the Negative Declaration together with comments received during the public review process prior to approving the project.
- (f) After the Negative Declaration is approved, the Board Secretary shall file a Notice of Determination with the County Clerk of the County or Counties in which the project will be located. If the project requires a discretionary approval from a state agency, the Notice of Determination also shall be filed with the Secretary for Resources.
- (g) The provisions of this section 6-2.303 shall apply in the same manner to

declarations deemed “mitigated negative declarations.”

6-2.107 ENVIRONMENTAL IMPACT REPORT⁷

- (a) An Environmental Impact Report shall be prepared if the General Manager determines there is substantial evidence the project may have a significant effect on the environment.
- (b) The draft and final EIR shall be prepared in accordance with CEQA and the State Guidelines.
- (c) The Board shall certify the final EIR has been completed in compliance with CEQA and the Board has reviewed and considered the information contained in the EIR prior to approving the project.
- (d) The Board shall not approve or carry out a project for which an EIR has been completed which identifies one or more significant effects of the project unless the Board makes one or more written findings for each of those significant effects, accompanied by a statement of the facts supporting each finding. The possible findings are:
 - (1) Changes or alterations have been required in, or incorporated into, the project which mitigate or avoid the significant environmental effects as identified in the final EIR.
 - (2) Such changes or alterations are within the responsibility and jurisdiction of another public agency and not the District. Such changes have been adopted by such other agency or can and should be adopted by such other agency.
 - (3) Specific economic, social, or other considerations make infeasible the mitigation measures or project alternatives identified in the final EIR.
- (e) The District shall not approve or carry out a project as proposed unless the significant environmental effects have been reduced to an acceptable level. Mitigation measures and a program to monitor the mitigation measures shall be described in the findings. As used in this Section, the term “acceptable level” means that:
 - (1) All significant environmental effects that can feasibly be avoided have been eliminated or substantially lessened as determined through

- findings as described in subsection (d); and,
- (2) Any remaining, unavoidable significant effects have been found acceptable.
- (f) Where the decision of the Board allows the occurrence of significant effects which are identified in the final EIR but are not mitigated, the Board must state in writing the reasons to support its action based on the final EIR or other information in the record. This statement may be necessary if the Board also makes findings. If the Board makes a statement of overriding considerations, the statement should be included in the record of the project approval and should be mentioned in the notice of determination.
 - (g) The District shall file a Notice of Determination following each project approval for which an EIR was considered.
 - (h) The District shall include the final EIR as part of the regular project report which is used in the existing project review and budgetary process, if such a report is used. The District shall retain one or more copies of the final EIR as public records for a reasonable period of time. The District shall require a copy of the certified, final EIR to be filed with each responsible agency. When the Board has approved a project after requiring measures to mitigate or avoid significant environmental impacts, the General Manager shall monitor compliance with such measures by periodic review of the final EIR.

6-2.108 CONSULTATION⁸

- (a) The General Manager shall respond to consultation by lead agencies to assist lead agencies in preparing environmental documents.
 - (1) Where the General Manager disagrees with the lead agency's proposal to prepare a negative declaration for a project, the General Manager should identify the significant environmental effects that could result from the project and recommend an EIR be prepared or the project be modified to eliminate the significant effects.
 - (2) As soon as possible, but not longer than 45 days after receiving a notice of preparation from the lead agency, the General Manager

shall send a written reply by certified mail which specifies the environmental information germane to the District's statutory responsibilities over the proposed project.

- (b) The General Manager shall comment on draft EIRs and Negative Declarations for projects which the District will be asked to approve. The comments may deal with any aspect of the project or its environmental effects.
- (c) If the General Manager believes the final EIR or Negative Declaration prepared by the lead agency is not adequate for use by the District, the District must take the issue to court within 30 days after the lead agency files a Notice of Determination, or prepare a subsequent EIR if permissible under the State Guidelines.
- (d) Prior to reaching a decision on the project, the Board must consider the environmental effects of the project as shown in the EIR or Negative Declaration.
- (e) When an EIR has been prepared for a project, the Board shall not approve the project as proposed if the Board finds feasible alternatives or feasible mitigation measures within its powers that would substantially lessen a significant effect the project would have on the environment. When considering alternatives and mitigation measures as a responsible agency, the Board is more limited than when acting as a lead agency. The District has responsibility for mitigating or avoiding only the environmental effects of those activities which the Board decides to carry out, finance, or approve.
- (f) The Board shall make the findings required by the State Guidelines for each significant effect of the project and shall make the required findings if necessary.
- (g) The Board Secretary should file a notice of determination in the same manner as a lead agency, except the notice does not need to state the EIR or Negative Declaration complies with CEQA. The notice should state that the Board considered the EIR or negative declaration as prepared by the lead agency.

6-2.109 TIME LIMITS⁹

- (a) The District shall determine whether a project application is complete within 30 days from the receipt of the application. If no written determination of the completeness of the application is made within that period, the application will be deemed complete on the 30th day.
- (b) When the District acts as the lead agency, the District shall determine within 45 days after accepting an application as complete, whether it intends to prepare an EIR or a negative declaration.
- (c) When the District acts as a responsible agency, the District shall provide a response to a notice of preparation to the lead agency within 45 days after receipt of the notice.
- (d) When the District acts as the lead agency, the District shall convene a meeting with agency representatives to discuss the scope and content of the environmental information a responsible agency will need in the EIR within 30 days of the date that the meeting is requested. The meeting may be requested by the lead agency, a responsible agency, a trustee agency, or by the project applicant.
- (e) The public review period for a draft EIR should not be less than 30 days nor longer than 90 days, except in unusual circumstances.
- (f) The public review period for a Negative Declaration shall be a reasonable period of time that is sufficient to allow members of the public to respond to the proposed finding before the Negative Declaration is approved. The General Manager shall allow other public agencies and members of the public at least 14 days within which to comment upon any Negative Declaration which the District proposes to adopt
- (g) When a draft EIR or Negative Declaration is submitted to the State Clearinghouse for review, the normal review period is 45 days for draft EIRs and 30 days for Negative Declarations. The State Clearinghouse may set shorter review periods when requested by the lead agency due to exceptional circumstances.
- (h) With a private project, the Negative Declaration must be completed and

ready for approval within 105 days from the date when the lead agency accepted the application as complete.

- (i) With a private project, the lead agency shall complete and certify the final EIR within one year after the date when the lead agency accepted the application as complete.
- (j) An unreasonable delay by an applicant in providing information requested by the lead agency for the preparation of a Negative Declaration or an EIR shall suspend the running of the time periods described herein for the period of the unreasonable delay.
- (k) At the request of an applicant, the lead agency may waive the one year time limit for completing and certifying a final EIR or the 105-day period for completing a Negative Declaration if:
 - (1) The project will be subject to CEQA and to the National Environmental Policy Act.
 - (2) Additional time will be required to prepare a combined EIR-EIS or combined Negative Declaration-finding of no significant impact as provided herein, and
 - (3) The time required to prepare the combined document will be shorter than the time required to prepare the documents separately.
- (l) The time limits for taking final action on a permit for a development project may also be waived where a combined EIR-EIS will be prepared.
- (m) The time limits for processing permits for development projects under Government Code Section 65950-65960 shall not apply if federal statutes or regulations require time schedules which exceed the state time limits.

6-2.110 PROJECTS WITH SHORT TIME PERIODS FOR APPROVAL¹⁰

- (a) An application for a project is not received for filing under a permit statute or ordinance until such time as the environmental documentation required by CEQA has been completed and the following conditions are met:
 - (1) The enabling legislation for a program, other than Chapter 4.5 (commencing with Section 65920) or Division 1 of Title 7 of the

Government Code, requires the District to take action on an application within a specified period of time that is six months or less, and

- (2) The enabling legislation provides that the project will become approved by operation of law if the District fails to take any action within such specified period, and
 - (3) The project involves the issuance of a lease, permit, license, certificate, or other entitlement for use.
- (b) In any case described in this section, the environmental document shall be completed or certified and the decision on the application shall be made within one year from the date on which an application requesting approval of such project has been received and accepted as complete for CEQA processing by such agency. This one- year time limit may be extended once for a period not to exceed 90 days upon consent of the District and the applicant.

ARTICLE 2. LEAD AGENCY

6-2.201 GENERAL

This part describes the ways in which the lead agency for a particular project will be identified.

6-2.202 LEAD AGENCY CONCEPT

- (a) Where a project is to be carried out or approved by more than one public agency, one public agency shall be responsible for preparing an EIR or negative declaration for the project. This agency shall be called the lead agency.
- (b) Except as provided below, the decision-making body of each responsible agency shall consider the lead agency's EIR or negative declaration prior to acting upon or approving the project.
- (c) The determination of the lead agency of whether to prepare an EIR or a negative declaration shall be final and conclusive on all persons, including responsible agencies, because only one EIR or negative declaration will be prepared for the project unless:
 - (1) The decision is challenged as provided in S21167 of the Public Resources Code.
 - (2) Circumstances or conditions change as provided below, or
 - (3) A responsible agency becomes a lead agency as provided below.

6-2.203 CRITERIA FOR IDENTIFYING THE LEAD AGENCY

- (a) Where two or more public agencies will be involved with a project, the determination of which agency will be the lead agency shall be governed by the criteria set forth in the State Guidelines.
- (b) Where a responsible agency is called on to grant an approval for a project subject to CEQA for which another public agency was the appropriate lead agency, the responsible agency shall assume the role of the lead agency only when conditions set forth in the State Guidelines are found to exist.

- (c) If there is a dispute over which of several agencies should be the lead agency for a project, the disputing agencies shall resolve the dispute in accordance with the State Guidelines.

ARTICLE 3. INITIAL REVIEW OF PROJECTS

6-2.301 GENERAL

This part describes the process used by the District when acting as a lead agency in analyzing a project before the District has decided whether to prepare an EIR or negative declaration.

6-2.302 STEP ONE: REVIEW FOR EXEMPTION

- (a) As part of the preliminary review, the District shall determine whether a particular activity is exempt from CEQA.
- (b) Possible exemptions from CEQA include:
 - (1) The activity is not a project as defined herein.
 - (2) The project has been granted an exemption by statute or by categorical exemption.
 - (3) The activity is covered by the general rule that CEQA applies only to projects which have the potential for causing a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA.
- (c) The District shall prepare a list of the projects often handled by the District that the District has determined to be exempt. This listing shall be used in preliminary review.
- (d) After determining that a project is exempt, the District may prepare a notice of exemption as provided herein.

6-2.303 PRELIMINARY REVIEW

- (a) After accepting an application as complete and determining that the project is subject to CEQA, the District shall begin the formal environmental evaluation of the project. Accepting an application as complete does not limit the authority of the District to require the applicant to submit additional

information needed for environmental evaluation of the project.

- (b) If the District can determine that an EIR will be required for a project, the District may skip further initial review of the project and begin work directly on the EIR process described below. In the absence of an initial study, the District shall still focus the EIR on the significant effects of the project and indicate briefly its reasons for determining that other effects would not be significant or potentially significant.

6-2.304 STEP TWO: INITIAL STUDY

- (a) Unless an exemption applies (or unless the District can determine that the project will clearly have a significant effect), as determined on the first step in the CEQA process, the District shall conduct an initial study to determine if the project may have a significant effect on the environment. All phases of project planning, implementation, and operation must be considered in the initial study of the project. To meet the requirements of this section, the District may use an initial study or a similar analysis prepared pursuant to the National Environmental Policy Act. If any aspect of the project, either individually or cumulatively, may cause a significant effect on the environment, regardless of whether the overall effect of the project is adverse or beneficial, the District shall either:
 - (1) Prepare an EIR or
 - (2) Use a previously prepared EIR which the District determines would adequately analyze the project at hand.
- (b) The purposes of an initial study are to:
 - (1) Identify whether a project may have any potential environmental impacts thereby enabling the lead agency to decide whether to prepare an EIR or negative declaration;
 - (2) Enable an applicant or District to modify a project, mitigating adverse impacts before an EIR is written; and
 - (3) Assist in the preparation of an EIR.
- (c) An initial study shall contain in brief form:

- (1) A description of the project including the location of the project;
 - (2) An identification of the environmental setting;
 - (3) An identification of environmental effects by use of a checklist, matrix, or other method;
 - (4) A discussion of ways to mitigate the significant effects identified, if any;
 - (5) An examination of whether the project would be consistent with existing zoning, plans, and other applicable land use controls;
 - (6) The name of the person or persons who prepared or participated in the initial study.
- (d) If the project is to be carried out by a private person or private organization, the person or organization carrying out the project shall submit data and information which will enable the District to prepare the initial study.
- (e) As soon as the District has determined that an initial study will be required for the project, the District shall consult informally with all responsible agencies and all trustee agencies responsible for resources affected by the project to obtain the recommendations of those agencies as to whether an EIR or a negative declaration should be prepared.

6-2.305 DETERMINING SIGNIFICANT EFFECT

In evaluating the significance of the environmental effects of a project, the District shall consider both primary or direct and secondary or indirect consequences. Social and economic changes resulting from a project by themselves shall not be treated as significant effects on the environment. If physical changes cause or result from adverse economic or social changes, the economic or social changes may be used as the basis for determining that the physical changes are significant.

6-2.306 MANDATORY FINDINGS OF SIGNIFICANCE

The District shall find that a project may have a significant effect on the environment and thereby require an EIR to be prepared for the project where any of the

following conditions occur:

- (a) The project has the potential to degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, reduce the number or restrict the range of a rare or endangered plant or animal, or eliminate important examples of the major periods of California history or prehistory.
- (b) The project has the potential to achieve short-term environmental goals to the disadvantage of long-term environmental goals.
- (c) The project has possible environmental effects which are individually limited but cumulatively considerable. As used in the subsection, "cumulatively considerable" means that the incremental effects of an individual project are considerable when viewed in connection with the effects of past projects, the effects of other current projects, and the effects of probable future projects.
- (d) The environmental effects of a project will cause substantial adverse effects on human beings, either directly or indirectly.

ARTICLE 4. NEGATIVE DECLARATION PROCESS

6-2.401 GENERAL CONTENTS

This part describes the process for preparing and processing a negative declaration when the District is acting as the lead agency.

6-2.402 STEP THREE (ALTERNATIVE): DECISION TO PREPARE A NEGATIVE DECLARATION

A proposed negative declaration shall be prepared for a project subject to CEQA then either:

- (a) The initial study shows that there is no substantial evidence that the project may have a significant effect on the environment, or
- (b) The initial study identifies potentially significant effects but the project applicant has revised the project proposal to avoid the effects or to mitigate the effects to a point where clearly no significant effects would occur. Changes in a project which will allow use of a proposed negative declaration shall be limited to:
 - (1) Revisions in the project plans made by the applicant, or
 - (2) An enforceable commitment from the applicant to include the mitigation measures in the project.
- (b) Where a negative declaration is prepared under subsection (b), the District shall make a finding that the project as approved will not have a significant effect on the environment.

6-2.403 CONSULTATION

Before approving a negative declaration, the District shall consult with all responsible agencies and trustee agencies concerned with the project. This consultation may take place during the public review period for the proposed negative declaration.

- (a) A brief description of the project, including a commonly used name for the project if any;
- (b) The location of the project preferably shown on a map and the name of

- the project proponent;
- (c) A proposed finding that the project will not have a significant effect on the environment;
 - (d) An attached copy of the initial study documenting reasons to support the finding; and
 - (e) Mitigation measures, if any, included in the project to avoid potentially significant effects.

6-2.404 PROJECTS WITH NO SIGNIFICANT ENVIRONMENTAL IMPACTS (NEGATIVE DECLARATION)

- (a) General. A Negative Declaration shall be prepared for a project which could potentially have a significant effect on the environment, but which the Agency finds on the basis of an Initial Study will not have a significant effect on the environment.
- (b) Consultation. Before completing a negative declaration, Agency shall consult with all responsible agencies. This consultation may take place during the public review period provided herein.
- (c) Contents. A Negative Declaration shall include:
 - (1) A brief description of the project; including a commonly used name for the project if any;
 - (2) The location of the project and the name of the project proponent;
 - (3) A finding that the project will not have a significant effect on the environment;
 - (4) An attached copy of the Initial Study documenting reasons to support the finding;
 - (5) Mitigation measures, if any, included in the project to avoid potentially significant effects.
- (d) Notice.
 - (1) Notice of the preparation of a Negative Declaration shall be provided to the public twenty-one (21) days prior to review by the Board of Directors. Notice shall be given to all organizations and

individuals who have previously requested such notice and shall be given by at least one of the following procedures as selected by the General Manager:

- (i) Publication, no fewer times than required by Section 6061 of the Government Code, by the Agency in a newspaper of general circulation in the area affected by the proposed project.
 - (ii) Posting of notice by the Agency on and off site in the area where the project is to be located.
 - (iii) Direct mail notice shall be given to owners of property contiguous to the project as such owners are shown on the latest equalized assessment roll.
- (2) The alternatives for providing notice specified in subsection (1) shall not preclude the Agency from providing additional notice by other means if the Agency so desires, nor shall the requirements of this section preclude the Agency from providing the public notice at the same time and in the same manner as public notice required by any other laws for the project.
- (e) Public Review. The noticed review period shall be long enough to provide members of the public with sufficient time to respond to the proposed finding before the negative declaration is approved.

6-2.405 CONSIDERATION OF COMMENTS

Prior to approving the project, the Board shall consider the negative declaration together with any comments received during the public review process. The Board shall approve the negative declaration if it finds on the basis of the initial study and any comments received that there is no substantial evidence that the project will have a significant effect on the environment.

6-2.406 NOTICE OF DETERMINATION

- (a) After deciding to carry out or approve a project for which a negative declaration has been approved, the District shall file a notice of determination.
- (b) The notice of determination shall include:
 - (1) An identification of the project including its common name where possible and its location.
 - (2) A brief description of the project.
 - (3) The date on which the District approved the project.
 - (4) The determination of the District that the project will not have a significant effect on the environment.
 - (5) A statement that a negative declaration has been prepared pursuant to the provisions of CEQA.
 - (6) The address where a copy of the negative declaration may be examined.
- (c) The notice of determination shall be filed with the county clerk of the county or counties in which the project will be located. If the project requires a discretionary approval from any state agency, the notice of determination also shall be filed with the Secretary for Resources.

ARTICLE 5. EIR PROCESS

6-2.501 GENERAL

This part describes the procedures to be followed by the District as a lead agency in preparing an EIR for a project. To the extent possible, the EIR process should be combined with the existing planning, review, and project approval process used by each public agency.

6-2.502 STEP THREE (ALTERNATIVE): DECISION TO PREPARE AN EIR

If the District determines that there is substantial evidence that the project may have a significant effect on the environment, the District shall prepare or cause to be prepared an environmental impact report.

6-2.503 DETERMINATION OF SCOPE OF EIR

(a) Immediately after deciding that an environmental impact report is required for a project, the District shall send to each responsible agency a notice of preparation stating that an environmental impact report will be prepared. This notice shall also be sent to every federal agency involved in approving or funding the project and to each trustee agency responsible for natural resources affected by the project.

(1) The notice of preparation shall provide the responsible agencies with sufficient information describing the project and the environmental effects to enable the responsible agencies to make a meaningful response. At a minimum, the information shall include:

- (i) Description of the project.
- (ii) Location of the project indicated either on an attached map (preferably a copy of a U.S.G.S. 15' or 7-1/2' topographical map identified by quadrangle name, or by a street address in an urbanized area), and
- (iii) Probable environmental effects of the project.

(2) The notice of preparation shall be sent by the District as either

certified mail or any other method of transmittal which provides it with a record that the notice was received.

- (3) The District may begin work on the draft EIR immediately without awaiting responses to the notice of preparation. The draft EIR in preparation may be revised or expanded to conform to responses to the notice of preparation. A District shall not circulate a draft EIR for public review before the time period for responses to the notice of preparation has expired.
- (b) Within 45 days after receiving the notice of preparation under subparagraph (c), each responsible agency shall provide the District with specific detail about the scope and content of the environmental information related to the responsible agency's area of statutory responsibility which must be included in the draft EIR. The response at a minimum shall identify the significant environmental issues and possible alternatives and mitigation which the responsible agency will need to have explored in the draft EIR. If a responsible agency fails by the end of the 45 day period to provide the District with either a response to the notice or a well justified request for additional time, the District may presume that the responsible agency has no response to make.
- (c) In order to expedite the consultation, the District, a responsible agency, a trustee agency, or a project applicant may request one or more meetings before representatives of the agencies involved to assist the District in determining the scope and content of the environmental information which the responsible agency may require. Such meetings shall be convened by the District as soon as possible, but no later than 30 days, after the meetings were requested. On request, the Office of Planning and Research will assist in convening meetings which involve state agencies.
- (d) When one or more state agencies will be a responsible agency or a trustee agency, the District shall send a notice of preparation to each state responsible agency and each trustee agency with a copy to the State Clearinghouse in the Office of Planning and Research. The State

Clearinghouse will ensure that the state responsible agencies and trustees reply to the lead agency within the required time.

- (e) When the notice of preparation is submitted to the State Clearinghouse, the state identification number issued by the Clearinghouse shall be the identification number for all subsequent environmental documents on the project. The identification number should be referenced on all subsequent correspondence regarding the project, specifically on the title page of the draft and final EIR and on the notice of determination.

6-2.504 EARLY PUBLIC CONSULTATION

Prior to completing the draft EIR, the District may also consult directly with any person or organization it believes will be concerned with the environmental effects of the project. This early consultation may be called scoping. Scoping will be necessary when preparing an EIR/EIS jointly with a federal agency.

6-2.505 PREPARING THE DRAFT EIR

- (a) The draft EIR shall be prepared directly by or under contract to the District. The required contents of a draft EIR are discussed below.
- (b) The District may require the project applicant to supply data and information both to determine whether the project may have a significant effect on the environment and to assist the District in preparing the draft EIR. The requested information should include an identification of other public agencies which will have jurisdiction by law over the project.
- (c) Any person, including the applicant, may submit information or comments to the District to assist in the preparation of the draft EIR. The submittal may be presented in any format, including the form of a draft EIR. The District must consider all information and comments received. The information or comments may be included in the draft EIR in whole or in part.
- (d) The District may choose one of the following arrangements or a combination of them for preparing a draft EIR.

- (1) Preparing the draft EIR directly with its own staff.
 - (2) Contracting with another entity, public or private, to prepare the draft EIR.
 - (3) Accepting a draft prepared by another entity, either the applicant, a consultant retained by the applicant, or any other person. In this third situation, the District may not use the draft as its own without independent review and analysis.
 - (4) Using a previously prepared EIR.
- (e) The draft EIR which is sent out for public review must reflect the independent judgment of the District. The District is responsible for the adequacy and objectivity of the draft EIR.

6-2.506 NOTICE OF COMPLETION

- (a) As soon as the draft EIR is completed, a notice of completion must be filed with the Secretary for Resources.
- (b) The notice of completion shall include:
 - (1) A brief description of the project.
 - (2) The proposed location of the project.
 - (3) An address where copies of the draft EIR are available, and
 - (4) The period during which comments will be received on the draft EIR.
- (c) A form for the notice of completion is included in the appendices.
- (d) The notice of completion will provide the basis for information published by the Secretary for Resources in an EIR Monitor. Where the EIR will be reviewed through the state review process handled by the State Clearinghouse, the cover form required by the State Clearinghouse will serve as the notice of completion, and no notice of completion need be sent to the Resources Agency.

6-2.507 CONSULTATION CONCERNING DRAFT EIR

- (a) The District shall consult with and request comments on the draft EIR from:
 - (1) Responsible agencies.
 - (2) Trustee agencies with resources affected by the project, and
 - (3) Other state, federal, and local agencies which exercise authority over resources which may be affected by the project.
- (b) The District may consult directly with any person who has special expertise with respect to any environmental impact involved.

6-2.508 PUBLIC REVIEW OF DRAFT EIR

- (a) The District shall provide public notice of the availability of a draft EIR at the same time as it sends a notice of completion to the Resources Agency. Notice shall be given to all organizations and individuals who have previously requested such notice and shall also be given by at least one of the following procedures:
 - (1) Publication at least one time by the District in a newspaper of general circulation in the area affected by the proposed project.
 - (2) Posting of notice by the District on and off the site in the area where the project is to be located.
 - (3) Direct mailing to owners of property contiguous to the project as those owners are shown on the latest equalized assessment roll.
- (b) The alternatives for providing notice specified in subsection (a) shall not preclude District from providing additional notice by other means if the District so desires, nor shall the requirement of this section preclude the District from providing the public notice required by this section at the same time and in the same manner as public notice otherwise required by law for the project.
- (c) In order to provide sufficient time for public review, review periods for draft EIRs should not be less than 30 days nor longer than 90 days except in unusual situations. The review period for draft EIRs for which a state

agency is a responsible agency shall be at least 45 days unless a shorter period is approved by the State Clearinghouse.

- (d) The District shall use the State Clearinghouse to distribute draft EIRs and negative declarations to state agencies for review and should use area-wide clearinghouses to distribute the documents to regional and local agencies.
- (e) To make copies of EIRs available to the public, the District should furnish copies of draft EIRs to appropriate public library systems. Copies should also be available in offices of the District.
- (f) The District should compile listings of other agencies, particularly local agencies, which have jurisdiction by law and/or special expertise with respect to various projects and project locations. Such listings should be a guide in determining which agencies should be consulted with regard to a particular project.
- (g) Public hearings may be conducted on the environmental documents, either in separate proceedings or in conjunction with other proceedings of the public agency. Public hearings are encouraged, but not required as an element of the CEQA process.

6-2.509 EVALUATION OF AND RESPONSE TO COMMENTS

- (a) The District shall evaluate comments received from persons who reviewed the draft EIR and shall prepare a written response.
- (b) The written response shall describe the disposition of significant environmental issues raised. In particular, the major issues raised when the District's position is at variance with recommendations and objections raised in the comments must be addressed in detail giving reasons why specific comments and suggestions were not accepted. There must be good faith, reasoned analysis in response. Conclusionary statements unsupported by factual information will not suffice.
- (c) The response to comments may take the form of a revision to the draft EIR or may be a separate section in the final EIR.

6-2.510 FINAL EIR

- (a) The District shall prepare a final EIR before approving the project. The contents of a final EIR are specified herein.
- (b) The District may provide an opportunity for review of the final EIR by the public or by commenting agencies.
- (c) The final EIR shall be presented to the Board of Directors to certify that the final EIR has been completed in compliance with CEQA and that the Board of Directors has reviewed and considered the information contained in the EIR prior to approving the project.

6-2.511 FINDINGS

- (a) The District shall not approve or carry out a project for which an EIR has been completed which identifies one or more significant effects of the project unless the District makes one or more written findings for each of those significant affects, accompanied by a statement of the facts supporting each finding. The possible findings are:
 - (1) Changes or alterations have been required in, or incorporated into, the project which mitigate or avoid the significant environmental affects as identified in the final EIR.
 - (2) Such changes or alterations are within the responsibility and jurisdiction of another public agency and not the District. Such changes have been adopted by such another agency or can or should be adopted by such another agency.
 - (3) Specific economic, social, or other considerations make feasible to mitigate measures or project alternatives identified in the final EIR.
- (b) The findings required by subsection (a) shall be supported by substantial evidence in the record.
- (c) The finding in subsection (a)(2) shall not be made if the District has concurrent jurisdiction with another agency to deal with identified feasible mitigation measures or alternatives.

- (d) The District shall not approve or carry out a project as proposed unless the significant environmental affects have been reduced to an acceptable level. Mitigation measures and a program to monitor the mitigation measures shall be described in the findings. Project approval shall be conditioned upon implementation of the mitigation measures.
- (e) As used in this Section, the term "acceptable level" means that:
 - (1) All significant environmental affects that can be feasibly avoided have been eliminated or substantially lessened as determined through findings as described in subsection (a), and
 - (2) Any remaining, unavoidable significant affects have been found acceptable under the following section.

6-2.512 STATEMENT OF OVERRIDING CONSIDERATIONS

Where the decision of the District allows the occurrence of significant effects which are identified in the final EIR but are not mitigated, the District must state in writing the reasons to support its action based on the final EIR and/or other information in the record. This statement may be necessary if the agency also makes a finding under Section 7-5.111(a)(2) or (a)(3). If the District makes a statement of overriding considerations, the statement should be included in the record of the project approval and should be mentioned in the notice of determination.

6-2.513 NOTICE OF DETERMINATION

The District shall file a notice of determination following each project approval for which an EIR was considered. The notice shall include:

- (a) As identification of the project including its common name where possible and its location;
- (b) A brief description of the project;
- (c) The date when the District approved the project;
- (d) The determination of the District whether the project in its approved form will have a significant effect on the environment;

- (e) A statement that an EIR was prepared and certified pursuant to the provisions of CEQA;
- (f) A description of the mitigation measures and method of monitoring the mitigation measures;
- (g) Whether a statement of overriding considerations was adopted for the project;
- (h) The address where a copy of the EIR and the record of project approval may be examined.

6-2.514 DISPOSITION OF A FINAL EIR

- (a) The District shall include the final EIR as part of the regular project report which is used in the existing project review and budgetary process if such a report is used.
- (b) The District shall retain one or more copies of the final EIR as public records for a reasonable period of time.
- (c) The District shall require the applicant to file a copy of the certified, final EIR with each responsible agency.
- (d) When the District has approved a project after requiring measures to mitigate or avoid significant environmental impacts, the District monitor compliance with such measures by periodic review of the final EIR.

6-2.515 LATER EIR

- (a) Where an EIR has been prepared for a program, plan, policy or ordinance, the lead agency for a later project for which a subsequent EIR is otherwise required may examine the significant effect of the later project by using a tiered EIR if the later project is consistent with the prior project and land use plans and zoning.
- (b) The tiered EIR need not examine effects which the lead agency determines were mitigated or avoided or which were examined in sufficient detail in the prior EIR to enable mitigation or avoidance by the site specific revisions or

conditions in connection with the approval of the later project.

- (c) An initial study shall be prepared to determine whether the later project may cause significant effects not examined in the prior EIR.

ARTICLE 6. RESPONSIBLE AGENCY

6-2.601 GENERAL

This part describes the activities of the District when acting as a responsible agency.

6-2.602 CONSULTATION

- (a) The District shall respond to requests for consultation by the lead agency in order to assist the lead agency in preparing adequate environmental documents for the project.
 - (1) In response to consultation, the District shall explain its reasons for recommending whether the lead agency should prepare an EIR or negative declaration for a project. Whether the District disagrees with the lead agency's proposal to prepare a negative declaration for a project, the District should identify the significant environmental impacts which it believes could result from the project and recommend whether an EIR be prepared or that the project be modified to eliminate the significant effects.
 - (2) As soon as possible, but not longer than 45 days after receiving a notice of preparation from the lead agency, the District shall send a written reply by certified mail. The reply shall specify the scope and content of the environmental information which would be germane to the District's statutory responsibilities in connection with the proposed project. The lead agency shall include this information in the EIR.
- (b) Prior to the close of the public review period for a draft EIR or mitigated negative declaration, the District shall either submit complete and detailed performance objectives for mitigation measures which would address the significant environmental affects identified by the District, or refer the lead agency to appropriate readily available guidelines or reference documents.

- (c) The District shall designate employees or representative to attend meetings requested by the lead agency to discuss the scope and content of the EIR.
- (d) If the District believes that the final EIR or negative declaration prepared by the agency is not adequate for use by the District, the District must either:
 - (1) take the issue to court within 30 days after the lead agency files a notice of determination;
 - (2) be deemed to have waived any objection to the adequacy of the EIR or negative declaration, or
 - (3) prepare a subsequent EIR if permissible under the state guidelines.
- (e) Prior to reaching a decision on the project, the District must consider the environmental affects of the project as shown in the EIR or negative declaration. A new or supplemental EIR can be prepared only as provided in the state guidelines.
- (f) When an EIR has been prepared for a project, the District shall not approve the project as proposed if the District finds any feasible alternative or feasible mitigation measures within its powers that would substantially lessen any significant effect the project would have on the environment. When considering alternatives and mitigation measures, the District is more limited than a lead agency. The District has responsibility for mitigating or avoiding only the environmental effects of those activities which it decides to carry out, finance, or approve.
- (g) The District shall make the findings required by the state guidelines for each significant effect of the project and make the required findings if necessary.
- (h) The District should file a notice of determination in the same manner as a lead agency except that the District does not need to state that the EIR or negative declaration complies with CEQA. The District should state that it considered the EIR or negative declaration as prepared by a lead agency.

ARTICLE 7. TIME LIMITS

6-2.701 GENERAL

This part describes time limits in the CEQA process.

6-2.702 REVIEW OF APPLICATION FOR COMPLETENESS

The District shall determine whether an application for a permit or other entitlement for use is complete within 30 days from the receipt of the application. If no written determination of the completeness of the application is made within that period, the application will be deemed complete on the 30th day.

6-2.703 INITIAL STUDY

When the District acts as the lead agency, the District shall determine within 45 days after accepting an application as complete, whether it intends to prepare an EIR or a negative declaration.

6-2.704 RESPONSE TO NOTICE OF PREPARATION

When the District acts as a responsible agency, the District shall provide a response to a notice of preparation to the lead agency within 45 days after receipt of the notice.

6-2.705 CONVENING OF MEETINGS

When the District acts as the lead agency, the District shall convene a meeting with agency representatives to discuss the scope and content of the environmental information a responsible agency will need in the EIR within 30 days after receiving a request for the meeting. The meeting may be requested by the lead agency, a responsible agency, a trustee agency, or by the project applicant.

6-2.706 PUBLIC REVIEW

- (a) The public review period for a draft EIR should not be less than 30 days nor longer than 90 days except in unusual circumstances.
- (b) The public review period for a negative declaration shall be a reasonable period of time sufficient to allow members of the public to respond to the proposed finding before the negative declaration is approved.
- (c) When a draft EIR or negative declaration is submitted to the State Clearinghouse for review, the normal review period is 45 days for draft EIRs and 30 days for negative declarations. The State Clearinghouse may set shorter review periods when requested by the lead agency due to exceptional circumstances.

6-2.707 COMPLETION OF NEGATIVE DECLARATION

With a private project, the negative declaration must be completed and ready for approval within 105 days from the date when the lead agency accepted the application as complete.

6-2.708 COMPLETION OF CERTIFICATION OF EIR

With a private project, the lead agency shall complete and certify the final EIR within one year after the date when the lead agency accepted the application as complete.

6-2.709 SUSPENSION OF TIME PERIODS

An unreasonable delay by an applicant in providing information requested by the lead agency for the preparation of a negative declaration or an EIR shall suspend the running of the time periods described herein for the period of the unreasonable delay.

6-2.710 PROJECTS WITH FEDERAL INVOLVEMENT

- (a) At the request of an applicant, the lead agency may waive the one year time limit for completing and certifying a final EIR or the 105 day period for completing a negative declaration if:
 - (1) The project will be subject to CEQA and to the National Environmental Policy Act.
 - (2) Additional time will be required to prepare a combined EIR-EIS or combined negative declaration-finding of no significant impact as provided herein, and
 - (3) The time required to prepare the combined document will be shorter than the time required to prepare the documents separately.
- (b) The time limits for taking final action on a permit for a development project may also be waived where a combined EIR-EIS will be prepared.
- (c) The time limits for processing permits for development projects under Government Code Section 65950-65960 shall not apply if federal statutes or regulations require time schedules which exceed the state time limits.

6-2.711 PROJECTS WITH SHORT TIME PERIODS FOR APPROVAL

- (a) An application for a project not received for filing under a permit statute or ordinance until such time as the environmental documentation required by CEQA has been completed. This section will apply where all of the following conditions are met:
 - (1) The enabling legislation for a program, other than Chapter 4.5 (commencing with Section 65920) of Division 1 of Title 7 of the Government Code, requires the District to take action on an application within a specified period of time that is six months or less, and
 - (2) The enabling legislation provides that the project will become approved by operation of law if the District fails to take any action within such specified period, and

- (3) The project involves the issuance of a lease, permit, license, certificate, or other entitlement for use.
- (b) In any case described in this section, the environmental document shall be completed or certified and the decision on the application shall be made within one year from the date on which an application requesting approval of such project has been received and accepted as complete for CEQA processing by such agency. This one-year time limit may be extended once for a period not to exceed 90 days upon consent of the District and the applicant.

ARTICLE 8. CONTENTS OF ENVIRONMENTAL IMPACT REPORTS

6-2.801 GENERAL

This part describes the subjects which must be addressed in EIRs.

- (a) Environmental Impact Reports shall contain the information outlined in this part, but the format of the document may be varied. Each element must be covered, and when these elements are not separated into distinct sections, the document shall state where in the document each element is discussed.
- (b) The EIR may be prepared as a separate document, or as part of a project report. If prepared as a part of the project report, it must still contain one separate and distinguishable section providing either analysis of all the subjects required in an EIR or as a minimum, a table showing where each of the subjects is discussed.

6-2.802 DRAFT EIR: CONTENTS

Each draft EIR shall contain the following:

- (a) Table of contents or index;
- (b) Summary;
- (c) Project description;
- (d) Description of environmental setting;
- (e) Environmental impact, including: any significant environmental effect of the proposed project; any significant environmental effects which cannot be avoided if the proposal is implemented; mitigation measures proposed to minimize the significant effects; alternatives to the proposed action; the relationship between local short-term uses of man's environment and the maintenance and enhancement of long-term productivity; any significant irreversible environmental changes which would be involved in the proposed action should it be implemented; and the growth inducing impact of the proposed action;
- (f) Effects not found to be significant;

- (g) Organizations and persons consulted;
- (h) Air and water quality aspects; and
- (i) Significant cumulative impacts.

6-2.803 DRAFT EIR: LIMITATIONS

The relationship between local short-term uses of man's environment and the maintenance and enhancement of long-term productivity and any significant irreversible environmental changes which would be involved in the proposed action should it be implemented need be included only in EIRs prepared in connection with any of the following activities:

- (a) The adoption, amendment, or enactment of a plan, policy, or ordinance of a public agency.
- (b) The adoption by a local agency formation commission of a resolution making determinations.
- (c) A project which will be subject to the requirement for preparing an environmental impact statement pursuant to the requirements of the National Environmental Policy Act of 1969.

6-2.804 FINAL EIR: CONTENTS

The final EIR shall include:

- (a) The Draft EIR or a revision of the draft.
- (b) Comments and recommendations received on the Draft EIR either verbatim or in summary.
- (c) A list of persons, organizations, and public agencies commenting on the Draft EIR.
- (d) The responses of the Lead Agency to significant environmental points raised in the review and consultation process.

ARTICLE 9. CONSIDERATIONS IN PREPARING EIRS

6-2.901 GENERAL

The State Guidelines set forth general principles and factors to guide in the preparation of EIRS. Such principles and factors shall be utilized by the District.

6-2.902 INCORPORATION OF OTHER DOCUMENTS

To the extent feasible, the District shall permit EIR to incorporate all or portions of other public records including previous EIRs discussing all or a portion of the project.

ARTICLE 10. SPECIAL SITUATIONS

6-2.1001 GENERAL

The District shall utilize special provisions of the State Guidelines in dealing with the following types of projects:

- (a) Redevelopment projects,
- (b) Housing and neighborhood commercial facilities in urbanized areas,
- (c) Residential projects pursuant to a specific plan,
- (d) Residential projects consistent with a community plan or zoning, and
- (e) State mandated local projects.

ARTICLE 11. REVIEW AND EVALUATION OF EIRS AND NEGATIVE DECLARATIONS

6-2.1101 GENERAL

This part describes basic considerations and procedures involved in the review of draft EIRS and negative declarations.

6-2.1102 PURPOSE OF REVIEW

The purposes of review of EIRs and negative declarations include:

- (a) Sharing expertise,
- (b) Disclosing agency analyses,
- (c) Checking for accuracy,
- (d) Detecting omissions,
- (e) Discovering public concerns, and
- (f) Soliciting counter proposals,
- (g) Encouraging public participation.

6-2.1103 PUBLIC HEARINGS

- (a) The District shall approve, certify and review a negative declaration at a duly convened public meeting. A public hearing need not be conducted with respect to the adoption of a negative declaration.
- (b) The District shall approve, certify, review and consider a draft or final EIR at a duly convened public meeting. A public hearing shall be conducted to receive comments concerning a draft EIR. A public hearing need not be conducted concerning the adoption of a final EIR.
- (c) When a public hearing is required, the hearing shall be preceded by at least 15 days prior notice. Such notice shall be given by posting in at least three public places within the District and by publication at least once in a newspaper of broad circulation within the District.

6-2.1104 REVIEW AND COMMENT

- (a) The District shall allow other public agencies and members of the public at least 14 days within which to comment upon any negative declaration which the District proposes to adopt.
- (b) The District shall allow other public agencies and members of the public at least 30 days within which to comment upon any draft EIR which the District proposes to adopt.
- (c) The Executive Director may establish a longer period or receipt of comments when, in his judgment, a longer period will facilitate the purposes of this article, provided, in no event shall the period for comment cause the entire review process to exceed the maximum time limits set forth herein.
- (d) When an EIR or negative declaration is submitted to the State Clearinghouse for review, the review period set by the District shall be at least as long as the period provided in the state review system operated by the State Clearinghouse. In the state review system, the normal review period is 45 days for EIRs and 30 days for negative declarations. In exceptional circumstances, the State Clearinghouse may set shorter review periods when requested by the lead agency. The number of copies of an EIR or negative declaration submitted to the State Clearinghouse shall not be less than ten unless the State Clearinghouse approves a lower number in advance. While the lead agency is encouraged to contact the regional and district offices of state responsible agencies, the lead agency must, in all cases, submit documents to the State Clearinghouse for distribution in order to comply with the review requirements of this section.

6-2.1105 REVIEW AS RESPONSIBLE AGENCY

- (a) The General Manager shall review environmental documents prepared by other agencies acting as a lead agency and shall submit comments to the lead agency within the time limits established by the lead agency.
- (b) Such review by the General Manager shall center upon the possible

impacts of the project insofar as the District's operations are concerned. The Executive Director shall also comment upon the appropriateness of using a negative declaration rather than an EIR.

6-2.1106 PROJECTS OF STATEWIDE, REGIONAL, OR AREA-WIDE SIGNIFICANCE

- (a) Projects meeting the criteria in this section shall be deemed to be of statewide, regional, or area-wide significance. A draft EIR or negative declaration prepared by the District on a project described in this section shall be submitted to the State Clearinghouse and should be submitted also to the appropriate metropolitan area council of governments for review and comment.
- (b) The District shall determine that a proposed project is of statewide, regional, or area-wide significance if the project meets any of the following criteria:
 - (1) A proposed local general plan, element, or amendment thereof for which an EIR was prepared. If a negative declaration was prepared for the plan, element, or amendment, the document need not be submitted for review.
 - (2) The project has the potential for causing significant effects on the environment extending beyond the city or county in which the project would be located. Examples of the effects include generating significant amounts of traffic or interfering with the attainment or maintenance of state or national air quality standards. Projects subject to this subsection include:
 - (i) A proposed residential development of more than 500 dwelling units.
 - (ii) A proposed shopping center or business establishment employing more than 1,000 persons or encompassing more than 500,000 square feet of floor space.
 - (iii) A proposed commercial office building employing more than 1,000 persons or encompassing more than 250,000 square

- feet of floor space.
- (iv) A proposed hotel/motel development of more than 500 rooms.
 - (v) A proposed industrial, manufacturing, or processing plant, or industrial park planned to house more than 1,000 persons, occupying more than 40 acres of land, or encompassing more than 650,000 square feet of floor area.
- (3) A project which would result in the cancellation of an open space contract made pursuant to the California Land Conservation Act of 1965 (Williamson Act) for any parcel of 100 acres or more.
 - (4) A project located in and substantially impacting on an area of critical environmental sensitivity for which an EIR and not a negative declaration was prepared.
 - (5) A project which would substantially affect sensitive wildlife habitats including but not limited to riparian lands, wetlands, bays, estuaries, marshes, and habitats for rare and endangered species as defined by Fish and Game Code Section 903.
 - (6) A project which would interfere with attainment of regional water quality standards as stated in the approved area-wide waste water management plan.
 - (7) A project which would provide housing, jobs, or occupancy for 500 or more people within 10 miles of a nuclear power plant.

6-2.1107 FAILURE TO COMMENT

If any public agency or person who is consulted with regard to an EIR fails to comment within a reasonable time as specified by the lead agency, it shall be assumed, absent a request for a specific extension of time, that such agency or person has no comment to make.

6-2.1108 RETENTION AND AVAILABILITY OF COMMENTS

Comments received through the consultation process shall be retained for a reasonable period and available for public inspection at an address given in the final EIR. Comments which may be received independently of the review of the draft EIR shall also be considered and kept on file.

6-2.1109 COMMENTS ON INITIATIVE OF PUBLIC AGENCIES

Every public agency may comment on environmental documents dealing with projects which affect resources with which the agency has special expertise regardless of whether its comments were solicited or whether the effects fall within the legal jurisdiction of the agency.

POLICY ACT (NEPA)**

This part describes exemptions from CEQA granted by the legislature and/or State Guidelines.

ARTICLE 13. EXEMPTIONS

6-2.1301 GENERAL

This part describes exemptions from CEQA granted by the legislature and/or State Guidelines.

6-2.1302 NOTICE OF EXEMPTION

When the District decides that a project is exempt from CEQA and the District approves or determines to carry out the project, the District or the applicant may file a notice of exemption with the County Clerk. The notice shall be filed, if at all, after approval of the project. Such a notice shall include:

6-2.1304 FEASIBILITY AND PLANNING STUDIES

A project involving only feasibility or planning studies for possible future actions which the District has not approved, adopted, or funded does not require the preparation of an EIR or negative declaration but does require consideration of environmental factors.

6-2.1305 MINISTERIAL PROJECTS

- (a) Ministerial projects are exempt from the requirements of CEQA.
- (b) In the absence of any discretionary provision contained in the relevant local ordinance, it shall be presumed that the following actions are ministerial:

For the purposes of this subsection, 'pipeline' includes subsurface facilities but does not include any surface facility related to the operation of the underground facility.
- (c) Where a project involves an approval that contains elements of both a ministerial action and a discretionary action, the project will be deemed to be discretionary and will be subject to the requirements of CEQA.

6-2.1306 EMERGENCY PROJECT

The following emergency projects are exempt from the requirements of CEQA.

- (a) Projects to maintain, repair, restore, demolish, or replace property or facilities damaged or destroyed as a result of a disaster in a disaster stricken area in which a state of emergency has been proclaimed by the Governor pursuant to the California Emergency Services Act, commencing with Government Code Section 8550.
- (b) Emergency repairs to public service facilities necessary to maintain service.
- (c) Specific actions necessary to prevent or mitigate an emergency.

CEQA does not apply to projects which a public agency rejects or disapproves.

6-2.1308 RATES, TOLLS, FARES, AND CHARGES

- (a) CEQA does not apply to the establishment, modification, structuring, restructuring, or approval of rates, tolls, fares, or other charges by the District which the District finds are for the purpose of:

 - (2) To respond to a reduction in federal funds.
- (b) This exemption is limited to projects directly undertaken by any public agency and to projects which are supported in whole or in part through contracts, grants, subsidies, loans, or other forms of assistance from one or more public agencies where the projects:
 - (1) Initiate or increase fees, rates, or charges charged for any existing public service, program, or activity, or
 - (2) Reduce or eliminate the availability of an existing public service program, or activity, or

- (3) Close publicly owned or operated facilities, or
- (4) Reduce or eliminate the availability of an existing publicly owned transit service, program, or activity.

ARTICLE 14. CATEGORICAL EXEMPTIONS

6-2.1401 GENERAL

This part lists certain types of projects which are exemptions from further environmental review by the State Guidelines.

6-2.1402 LIMITATIONS

- (a) Classes 3, 4, 5, 6 and 11 set forth below are qualified by consideration of where the project is to be located. A project that is ordinarily insignificant in its impact on the environment may in a particularly sensitive environment be significant. Therefore, these classes are considered to apply in all instances, except where the project may impact on an environmental resource of hazardous or critical concern where designated, precisely mapped, and officially adopted pursuant to law by federal, state, or local agencies.
- (b) All exemptions for these classes are inapplicable when the cumulative impact of successive projects of the same type in the same place, over time is significant, for example, annual additions to an existing building under Class 1.
- (c) A categorical exemption shall not be used for an activity where there is a reasonable possibility that the activity will have a significant effect on the environment due to unusual circumstances.

6-2.1403 CATEGORICAL EXEMPTION

The following categorical exemption class is established as set forth in the State Guidelines:

- (a) Class 1: Consists of operation, repair, maintenance or minor alteration of existing facilities involving negligible or no expansion of use.
- (b) Class 2: Consists of replacement or reconstruction of existing structures and facilities where the new structure will be located on the same site as

the structure replaced and will have substantially the same purpose and capacity as the structure replaced.

- (c) Class 3: Consists of construction and location of limited numbers of new, small facilities or structures; installation of small new equipment and facilities in small structures; and the conversion of existing small structures from one use to another where only minor modifications are made in the exterior of the structure.
- (d) Class 4: Consists of minor public or private alterations in the condition of land, water, and/or vegetation which do not involve removal of mature, scenic trees except for forestry and agricultural purposes.
- (e) Class 5: Consists of minor alterations in land use limitations in areas with an average slope of less than 20 percent, which do not result in any changes in land use or density.
- (f) Class 6: Consists of basic data collection, research, experimental management, and resource evaluation activities which do not result in a serious or major disturbance to an environmental resource.
- (g) Class 9: Consists of activities limited entirely to inspection, to check for performance of an operation, or quality, health, or safety of a project.
- (h) Class 11: Consists of construction, or placement of minor structures accessory to (appurtenant to) existing commercial, industrial, or institutional facilities, including but not limited to:
 - (1) On-premise signs;
 - (2) Small parking lots;
 - (3) Placement of seasonal or temporary use items such as lifeguard towers, mobile food units, portable restrooms, or similar items in generally the same locations from time to time in publicly owned parks, stadiums, or other facilities designed for public use.
- (i) Class 12: Consists of sales of surplus government property except for parcels of land located in an area of statewide, regional, or area-wide concern. However, even if the surplus property to be sold is located in any of those areas, its sale is exempt if:

- (1) The property does not have significant values for wildlife habitat or other environmental purposes, and
- (2) Any of the following conditions exists:
 - (i) The property is of such size or shape that it is incapable of independent development or use; or
 - (ii) The property to be sold would qualify for an exemption under any other class of categorical exemption in these guidelines; or
 - (iii) The use of the property and adjacent property has not changed since the time of purchase by the public agency.
- (j) Class 13: Consists of the acquisition of lands for fish and wildlife conservation purposes including preservation of fish and wildlife habitat, establishing ecological reserves under Fish and Game Code Section 1580, and preserving access to public lands and waters where the purpose of the acquisition is to preserve the land in its natural condition.
- (k) Class 15: Consists of the division of property in urbanized areas zoned for residential, commercial, or industrial use into four or fewer parcels when the division is in conformance with the General Plan and zoning, no variances or exceptions are required, all services and access to the proposed parcels to local standards are available, the parcel was not involved in a division of a larger parcel within the previous 2 years, and the parcel does not have an average slope greater than 20 percent.
- (l) Class 19: Consists of only the following annexations:
 - (1) Annexations to the district of areas containing existing public or private structures developed to the density allowed by the current zoning or pre-zoning of either the gaining or losing governmental agency whichever is more restrictive, provided, however, that the extension of utility services to the existing facilities would have a capacity to serve only the existing facilities.
 - (2) Annexations of individual small parcels of the size for facilities exempted by State Guidelines Section 15103, New Construction of

Small Structures.

- (m) Class 20: Consists of changes in the organization or reorganization of local governmental agencies where the changes do not change the geographical area in which previously existing powers are exercised.
- (n) Class 23: Consists of the normal operations of existing facilities for public gatherings for which the facilities were designed, where there is a past history of the facility being used for the same or similar kind of purpose. For the purposes of this section, "past history" shall mean that the same or similar kind of activity has been occurring for at least three years and that there is a reasonable expectation that the future occurrence of the activity would not represent a change in the operation of the facility. Facilities included within this exemption include, but are not limited to, racetracks, stadiums, convention centers, auditoriums, amphitheaters, planetariums, swimming pools, and amusement parks.
- (o) Class 25: Consists of the transfers of ownership of interests in land in order to preserve open space. Examples include but are not limited to:
 - (1) Acquisition of areas to preserve the existing natural conditions,
 - (2) Acquisition of areas to allow continued agricultural use of the areas,
 - (3) Acquisition to allow restoration of natural conditions, and
 - (4) Acquisition to prevent encroachment of development into flood plains.
- (p) Class 27: Consists of the leasing of a newly constructed or previously unoccupied privately owned facility by a local or state agency where the local governing authority determined that the building was exempt from CEQA. To be exempt under this section, the proposed use of the facility:
 - (1) Shall be in conformance with existing state plans and policies and with general, community, and specific plans for which an EIR or negative declaration has been prepared,
 - (2) Shall be substantially the same as that originally proposed at the time the building permit was issued,
 - (3) Shall not result in a traffic increase of greater than 10 percent of front

access road capacity, and

- (4) Shall include the provision of adequate employee and visitor parking facilities.
- (5) Examples of Class 27 include, but are not limited to:
 - (i) Leasing of administrative offices in newly constructed office space,
 - (ii) Leasing of client service offices in newly constructed retail space, and
 - (iii) Leasing of administrative and/or client service offices in newly constructed industrial parks.

Part 7. RECORDS MANAGEMENT^{1,2}

CHAPTER 1. GENERAL

ARTICLE 1. RECORDS MANAGEMENT PROGRAM

7-1.101 PURPOSE AND SCOPE

This Article establishes a Records Management Program (“RMP”) designed to accommodate the size, complexity, and risk profile of the District for the systematic control of records, from creation or receipt and identification by the Employee, regardless of format or location, through processing, use, distribution, maintenance, storage, retrieval and final disposition by either destruction or permanent retention.¹

The District’s Board and Management are committed to the implementation of this program.

Objectives of the RMP:

- (a) Identify District records to facilitate access to information required to conduct business and ensure the prudent management of all identified records.
- (b) Establish procedures to provide for consistency in the maintenance and disposition of District records in accordance with the District’s Records Retention Schedule; including periodic reviews and updates as necessary or required.
- (c) Promote awareness among District staff of the importance of the RMP.
- (d) Ensure the preservation of records subject to a Legal Hold because of ongoing, threatened or anticipated litigation, claim, audit proceeding or governmental or District investigation, until the matter is resolved or the need for such records has ceased.
- (e) Protect the integrity of the District’s records.

Administration of the RMP:

- (a) The RMP is administered under the authority of the Board of Directors, and

¹ Gov. Code § 60200-60203

its implementation is overseen by the Records Management Department, as supervised by the General Manager's designee.

- (b) All Department Heads are responsible for ensuring that the approved Records Retention Schedule is implemented in their respective departments.
- (c) All District employees are responsible for complying with the requirements of the District's Records Management Manual and Records Retention Schedule.

The scope of the RMP includes:

- (a) Creation or receipt, use, maintenance and disposition of District Records.
- (b) Public inspection of District records.
- (c) Maintenance of, and compliance with, the approved Records Retention Schedule and Records Management Manual.

Use of appropriate technology to facilitate record storage and retrieval. The RMP manages District records in all storage media and formats.

The RMP applies to District's Board of Directors, employees and representatives.

District staff shall comply with the RMP to ensure proper maintenance and disposition of District records. Violation of the RMP may result in disciplinary action up to and including dismissal.

7-1.102 DEFINITIONS

Historical Records – records that have continuing value to the District after the business or legal recordkeeping requirements have been met. Historical records relate to the formation, major events, or growth and development of the District.

Legal Hold and Release – a situation in which the disposition of a record is temporarily suspended and the record is retained past the assigned period due to an investigation, litigation or audit in which the records may be needed. A Legal Hold Release allows the temporarily suspended record to be returned to its regular disposition status.

Record – recorded information, regardless of medium, format, or characteristics, created or received by the District that provides evidence of its operations or its compliance with statutes and regulations. Drafts are not considered records in the West Basin Records Management Program.²

Records Management Manual - a source of instruction and reference for employees and staff for creating, preparing, processing, storing and disposition of records.

Records Retention Schedule (RRS) – a list of District records organized by Department and Record Series, including approved retention periods and other attributes.

Representatives – any contractor, agent, or other service provider (including any temporary worker whose services are provided by a third party contractor) that has express or implied responsibility to maintain District records in the course of its services to the District.

² Gov. Code § 7920.545

ARTICLE 2. PUBLIC INSPECTION

7-1.201 PUBLIC RECORDS

All public records of the District are available for review by the public in accordance with the California Public Records Act, as set forth in Government Code section 7920.000, et seq.

ARTICLE 3. RETENTION AND DISPOSITION OF RECORDS

7-1.301 PURPOSE AND SCOPE

This Article provides criteria for the retention and destruction of District records. This Article may be cited as the District's "Regulations for the Retention and Disposition of District Records."

7-1.302 RECORDS RETENTION SCHEDULE

The District has adopted a Records Retention Schedule ("RRS") that provides direction for maintenance and disposition of records in all formats and storage locations. The retention periods identified on the RRS are the time period for which each of the series of records must be maintained before being dispositioned unless a Legal Hold requires that their disposition be suspended. The time periods are established based on business needs, industry best practices and applicable government recordkeeping requirements. The RRS has been reviewed and has received concurrence of Department Managers, Legal Counsel and the Board of Directors. It shall be maintained by the Records Management Department.

7-1.303 DISPOSITION OF RECORDS

Records Disposition consists of either permanent retention or destruction of the indicated record. The Records Management Department will complete an annual review of all records under management to determine the appropriate disposition for all eligible records.

Records identified for permanent retention due to historical value and not subject to a Legal Hold will be reviewed for transfer to permanent storage. Records that have met the required retention period and are not classified as Historical Records or subject to a Legal Hold will be processed for destruction. The Destruction process requires the review and approval of the following:

- Department Manager
- Manager of Administration

- Legal Counsel
- General Manager OR his/her designee
